## JONES' SCHEDULE FOR LEGISLATURE JUMPED HURDLES

### Seems To Have Conquered Time Element Involved In Session

### BULK OF 100 MEASURES EITHER PASSED, OKAYED

### Governor Already Signs Into Law Appropriation For Cost

BATON ROUGE, La., June 29.—(AP)—With only a dozen days remaining until the Louisiana Legislature adjourns its regular biennial session the legislative program of Governor Sam H. Jones seems safely to have conquered the time element involved in the 60-day meeting.

The bulk of the more than 100 bills proposed by the administration have either passed or are well on their way toward final enactment. Only a few have fallen by the wayside.

Governor Jones already has signed into law the appropriation for the cost of the session and the bill repealing the act creating the debt moratorium commission on which, recently revealed payrolls disclosed, members of former legislatures were carried at hidden salaries under the old Huey Long regime.

Among 18 measures passed by both houses and in the hands of the governor for signature are those prohibiting employment of "deadheads" (useless employes), prohibiting "de-ducts" (political contributions from public employes), and providing against corrupt practices in elections.

While the legislature abolished the debt moratorium commission, it defeated in committee the administra-

## JAPANESE POLICY IN ASIA DISCLOSED

### Foreign Minister Enunciates Stand Based Upon New Sphere

TOKYO, June 29.—(AP)—Foreign Minister Hachiro Arita enunciated today a foreign policy based upon the creation of an "Asiatic sphere" in which Japan would be dominant.

This was an advance from the previous position in which Japan had insisted upon maintenance of the status quo in East India.

(In Washington there were strong indications of opposition to this Oriental Monroe Doctrine projection.)

The foreign minister, broadcasting to the empire, visualized the creation of stabilized spheres throughout the world between "closely related peoples" as a prelude to permanent peace.

No mention was made of "status quo" or previous inferential warnings to western nations to stay away from colonies in East Asia and the South seas.

(At Hongkong Japanese-British tension was so high that a state of emergency was proclaimed and British authorities planned to remove all women, children and unneeded men from the crown colony to Manila. This was interpreted to mean that Britain would reject Japan's demand that it close

## Next U. S. Fiscal Year Peacetime's Costliest

### Debt Of $3,700,000,000 Is Chalked Up For Last One-Year Period

WASHINGTON, June 29.—(AP)—President Roosevelt arranged to leave the capital this afternoon for a 24-hour cruise on the presidential yacht Potomac.

By Irving Perlmeter

WASHINGTON, June 29.—(AP)—The government, chalking up a deficit of $3,700,000,000, will end one fiscal year tomorrow and start on a new one which, as a result of the new defense program, will be the costliest in peacetime history.

The expiring fiscal year produced a new spending record of about $9,600,000,000, revenue totaled about $5,900,000,000 leaving a deficit exceeded in peacetime only in 1936 when the soldiers bonus was paid. (Exact figures on income and outgo will not be known until the middle of next week after year-end reports are received from field offices.)

At present, treasury officials are figuring on expenditures of approximately $10,500,000,000 and income of about $7,000,000,000 in the new year. If these estimates hold good, the deficit will be about $2,800,000,000 because the treasury is figuring on getting about $700,000,000 from a dozen government corporations which have been instructed to turn back part of their capital.

There is every prospect, however, that expenditures will be far greater than $10,500,000,000. President Roosevelt has disclosed that expansion of the rearmament program is under consideration. He mentioned no figures, but authoritative quarters said that this might involve a $5,000,000,000 outlay.

At the turn of the fiscal year, the treasury owed about $43,000,000,000 and had less than $2,000,000,000 of its

## U. S. BAROMETERS IN INDUSTRY SET 10-YEAR RECORD

### Defense Expenditures, Still To Come, Will Raise Vast Figures

NEW YORK, June 29.—(AP)—With vast United States defense expenditures still to come, the nation's industrial barometers today were the highest for mid-year in a decade.

For the June-end, the Associated Press index of industrial activity stood at the best level since 1929 after recovering the last two months the greater part of the loss in the winter and early spring slump.

While short of the 10-year record attained on the initial war-time upsurge last autumn, this gauge of factory operations has risen steadily since the German blitzkrieg in the west quickened arms spending and defense plans on both sides of the Atlantic.

In part, analysts said, the rise has been traceable to anticipation of a war industry boom, causing buyers to lay in stocks before government orders occupy factory capacity.

The Associated Press index has risen to 105.4 per cent of the 1929-30 level compared with the year's low of 93.6 late in April and with 88.6 a year ago. The December peak was 112.1.

The belated spring upturn showed signs of tapering the past week as the Nazi conquest of France closed to American trade the biggest remaining continental market in Europe.

Financial and commercial relations with the continent were practically at a standstill, except for a trickle of business by way of Spain and Portugal. The tie-up in trade with the continent surpassed anything comparable in the memory of veteran business observers, exceeding world-war disruption of European trade.

Hardest hit by loss of European markets were farm products, notably cotton.

Temporarily, anyway, Uncle Sam's European trade was heavily weighted with sales of airplanes and other war machinery to England. British purchasing agents announced they had taken over French contracts in this country.

Combined with the British buying were growing expenditures for plant enlargements to meet the anticipated boom in war industry when Washington's multi-billion dollar defense spending gets into high gear.

## NATIONS WON'T SEND MEETING DELEGATES

BUENOS AIRES, June 29.—(AP)—Four South American nations—Argentina, Brazil, Chile and Uruguay—will not be represented by their foreign ministers at the western hemisphere conferences in Havana next month, it was reported today.

The decision of Argentina's foreign minister, Jose Cantilo, not to go to Havana was a blow to the hopes of United States officials, who had counted on him to set an example to the other nations.

## CLEARANCE SALES WILL DRAW MANY FROM CITY AREA

### Merchants Prepared To Present Bargains In Three-Day Offering

Monday the gigantic July clearance sale, the sale for which the people of Monroe and the city's trade area have been anxiously waiting, will get under way, lasting through Wednesday.

Tremendous stocks of summer goods have been purchased by the leading merchants of Monroe to be offered at greatly reduced prices to the buying public, Dave Silverstein, chairman of the merchants division of the Chamber of Commerce, sponsor of the event, said Saturday.

This event promises to be the most spectacular affair of its kind ever to be held in Monroe, according to members of the publicity committee for the clearance sale. All leading merchants have worked for the past several weeks making special purchases in order to give the people of the city trade area some special bargains in appreciation of their good will in the past.

"I have contacted the leading merchants of the city and they have assured me that they will cooperate to the fullest extent by giving the Monroe trade territory one of the best sales in many years," Chairman Silverstein said. "We are ready."

Herbert Fink of Fink the Tailor; Miss Helen Hewitt, manager of the Fashion; H. H. Fairchild, advertising manager of The Palace; Fred Johnson, assistant manager of Sears, Roebuck & Co.; and Abe Blumenthal, manager of Fields; members of the sale publicity committee all joined in the prediction of the greatness of this clearance sale.

"Preparations for this sale have been going on for several weeks and we

## BOSSIER CITY GIRL KILLS HER FATHER, JUMPS OFF SPAN

### Only Scratched After Sixty-Foot Leap From Red River Bridge

### PISTOL FAILS AFTER SHE SHOOTS PARENT

### Young Woman Said To Be Suffering From Organic Disturbance

SHREVEPORT, La., June 29.—(AP)—A 21-year-old Bossier City, La., girl who "never had a date in her life," shot and killed her father and jumped from the old traffic bridge over the Red river this afternoon after first attempting to shoot herself.

Dr. J. B. Hall, Bossier parish coroner, said that other than a slight scratch, the girl, Velah Adams, a grocery store accountant, was not injured by her fall of more than 60 feet from the bridge span to the water. She was taken from the river by Felix Cox and Bert King, who live near the bridge.

Dr. Hall said the girl had been taking a thyroid extract for obesity and was suffering from an organic disorder.

She told Deputy Sheriff Steve Norris of Bosseir parish after being hauled from the river that she had shot her father, Y. V. Adams, 52, a painting contractor. According to the account the girl gave Coroner Hall, she went home from her brother's store, where she worked, this afternoon and found her father lying on the bed.

The girl told Coroner Hall that after shooting her father she tried to shoot herself but that the pistol failed to discharge. She then ran six blocks to the bridge, jumped into the water and "tried as hard as I could to drown."

Velah's brother John, an 18-year-old ministerial student, said his sister was "one of the finest Christian girls I ever saw," and she "never had a date in her life," but he said her health had not been good.

Coroner Hall termed the shooting a result of the girl's brooding over family matters.

No charges had been filed tonight.

## NEW U. S. TAXES START ON MONDAY

### American Consumers To Begin Paying Toward Rearmament Fund

WASHINGTON, June 29.—(AP)—American consumers will begin paying taxes on Monday for the nation's five-year-five-billion-dollar rearmament fund.

In several instances, they will pay more than during the World war.

Excise, commondity and service taxes will advance by from 10 to 50 per cent on various items from present rates.

An additional $1 per barrel on beer will add a third of a cent per bottle; an extra 75 cents per gallon on liquor will add 19 cents per quart; and 25 cents more on each 1,000 cigarettes will add half a cent to each standard package of 20.

The gasoline tax will jump from 1 to 1 1-2 cents; radios, from 5 to 5 1-2 per cent of their value; passenger

## ITALO BALBO DIES IN FIRE WRECKAGE OF ITALIAN CRAFT

### Old Associate Of Mussolini, Libyan Governor Is War Casualty

ROME, June 29.—(AP)—Marshal Italo Balbo, 44, bearded pioneer in the Fascist movement, and nine others including prominent Italians died when their plane was shot down in flames by British aircraft encountered over Tobruk, Libya.

The victims included the Italian consul general of Tripoli, the editor of Balbo's newspaper Corriere Padano, and two relatives of Balbo, Signor Ferrara, a nephew, and Lieutenant Florio Gino, a brother-in-law.

Five passengers and five crew members perished.

The plane was on an official mission but did not go up for military action when it was brought down yesterday.

Mussolini ordered flags half-staffed. Fascist headquarters was swathed in black crepe; the Italian Broadcasting system was silent for two minutes after announcing the death of the spectacular airman, and the high command thus honored him in a special communique:

"Flags of the armed forces of Italy are lowered in sign of homage and high honor to the memory of Italo Balbo, Alpine volunteer in the World war, one of the quadrumvirate of the (Fascist) revolution, transatlantic flier and air marshal who died at his post in combat."

## PARKERS PRODUCE POLICE DILEMMA

DENVER, June 29.—(AP)—Denver police found themselves facing this dilemma today:

If they marked the tires of parked cars with ordinary chalk, some overtime parkers slipped from their offices to erase the marks with a sponge. If they used a waterproof chalk the marks remained on the tires of motorists who drove only a short distance from one parking place to another.

After a check-up showed only 15 per cent of overtime parkers were "unfair," Traffic Captain James J. Pitt ordered ordinary chalk used because "we do not want to hurt" the non-cheating 85 per cent.

In the town of Baltzl, in Northern Bessarabia, long strings of freight cars loaded with sugar were ready to leave for Germany but after the cession of the territory to Russia the population refused to let it go. Rumanian authorities were able to get away only a few of the cars.

## JOHNSON, CASON FACING CHARGES

### Former Commissioners Of Welfare And Labor Are Indicted

SHREVEPORT, La., June 29.—(AP)—Louisiana's former commissioners of public welfare and labor were under federal indictment today on charges that they solicited political funds from persons deriving pay from the government.

Both men, former Welfare Commissioner A. R. Johnson and former Labor Commissioner B. W. Cason, were accused of soliciting contributions to The Progress, the previous state administration's political paper, now defunct.

Another indictment charged Martin Jefferson Redell, Lake Charles, former maintenance superintendent for the fifth state highway maintenance district, with giving false testimony before the federal grand jury which indicted him.

The indictments were returned late Friday but only that of Cason was made public at that time. There were nine counts against Johnson. Cason was also charged with perjury before the federal grand jury at Lake Charles.

Cason had previously been indicted Wednesday by the Orleans parish grand jury on embezzlement and extortion charges in connection with alleged "deadheads" on state payrolls.

The first count against Johnson alleged that on April 13, 1939, through N. P. Himbert, director of finance of

## G.O.P. Rear Guard Fights Over Party Chairmanship

By Richard L. Turner

PHILADELPHIA, June 29.—(AP)—The rear guard of the Republican national convention squabbled over the selection of a national party chairman today and settled the issue temporarily by appointing a sub-committee to confer with Wendell Willkie and choose the man.

Important influences backed a move to continue John D. M. Hamilton in the job, with Willkie's apparent concurrence. The opposition had the leadership of Alf M. Landon, the 1936 presidential nominee, who at Cleveland four years ago selected Hamilton as his pre-convention manager.

Later Hamilton, in a statement, termed the creation of a subcommittee "very natural in view of the rapidity with which events have moved in the last few days."

This affords Willkie the "needed opportunity" to consider campaign plans, Hamilton said, and added that meantime the present "staff" of the committee will continue to function.

Willkie, meanwhile, left the city without making known his choice. He and his attractive wife sailed as guests of Publisher Roy Howard aboard his yacht for a brief sea voyage before returning to New York and then taking a longer vacation.

The Republican candidate told newsmen he would probably defer his formal acceptance speech at his home town, Elwood, Ind., until after the Democrats meet in Chicago July 15.

The members of the Republican national committee were extremely reluctant to concede that their 1940 campaign had started in a controversy over who should manage it, but the existence of the row was so obvious that finally they made no effort to conceal it.

Earlier in the day, Samuel F. Pryor of Connecticut, who swung that state's delegation solidly to Willkie from the first ballot on, called on the nominee with a group of national committeemen to ascertain his views on the question of a chairman.

Meanwhile, Landon was busy in opposition to Hamilton. No reason for his attitude was given, but it was understood he felt that the new leadership of the party should have a clean slate and a free hand in the selection of its working personnel.

Walter S. Hallanan of West Virginia was appointed chairman of the subcommittee. He said he would visit Willkie in New York about the middle of next week, probably Wednesday and talk the question over with him.

## Fontenot Will Be Named Louisiana Tax Collector

BATON ROUGE, La., June 29.—(AP)—Governor Sam H. Jones today announced that he would appoint Rufus W. Fontenot, collector of internal revenue for Louisiana, as state tax collector on Monday.

Fontenot announced his resignation from the federal position at New Orleans this morning, effective immediately.

In the state post, a position in which nearly $60,000,000 state taxes are collected annually, Fontenot will succeed W. A. Cooper, state tax collector since 1939 when, as state supervisor of public funds, he was named to succeed Alice Lee Grosjean, an appointee and high counsellor for years under the Huey P. Long regime.

Fontenot, 51, is a native of Crowley, La., and a member of a prominent Southwest Louisiana family. His father, the late Gus E. Fontenot, served for a quarter century as Acadia parish clerk of court. His mother's family founded the town of Crowley.

### Debt Of $3,700,000,000 Is Chalked Up For Last One-Year Period

WASHINGTON, June 29.—(AP)—President Roosevelt arranged to leave the capital this afternoon for a 24-hour cruise on the presidential yacht Potomac.

By Irving Perlmeter

WASHINGTON, June 29.—(AP)—The government, chalking up a deficit of $3,700,000,000, will end one fiscal year tomorrow and start on a new one which, as a result of the new defense program, will be the costliest in peacetime history.

The expiring fiscal year produced a new spending record of about $9,600,000,000, revenue totaled about $5,900,000,000 leaving a deficit exceeded in peacetime only in 1936 when the soldiers bonus was paid. (Exact figures on income and outgo will not be known until the middle of next week after year-end reports are received from field offices.)

At present, treasury officials are figuring on expenditures of approximately $10,500,000,000 and income of about $7,000,000,000 in the new year. If these estimates hold good, the deficit will be about $2,800,000,000 because the treasury is figuring on getting about $700,000,000 from a dozen government corporations which have been instructed to turn back part of their capital.

There is every prospect, however, that expenditures will be far greater than $10,500,000,000. President Roosevelt has disclosed that expansion of the rearmament program is under consideration. He mentioned no figures, but authoritative quarters said that this might involve a $5,000,000,000 outlay.

At the turn of the fiscal year, the treasury owed about $43,000,000,000 and had less than $2,000,000,000 of its

## U. S. BAROMETERS IN INDUSTRY SET 10-YEAR RECORD

### Defense Expenditures, Still To Come, Will Raise Vast Figures

NEW YORK, June 29.—(AP)—With vast United States defense expenditures still to come, the nation's industrial barometers today were the highest for mid-year in a decade.

For the June-end, the Associated Press index of industrial activity stood at the best level since 1929 after recovering the last two months the greater part of the loss in the winter and early spring slump.

While short of the 10-year record attained on the initial war-time upsurge last autumn, this gauge of factory operations has risen steadily since the German blitzkrieg in the west quickened arms spending and defense plans on both sides of the Atlantic.

In part, analysts said, the rise has been traceable to anticipation of a war industry boom, causing buyers to lay in stocks before government orders occupy factory capacity.

The Associated Press index has risen to 105.4 per cent of the 1929-30 level compared with the year's low of 93.6 late in April and with 88.6 a year ago. The December peak was 112.1.

The belated spring upturn showed signs of tapering the past week as the Nazi conquest of France closed to American trade the biggest remaining continental market in Europe.

Financial and commercial relations with the continent were practically at a standstill, except for a trickle of business by way of Spain and Portugal. The tie-up in trade with the continent surpassed anything comparable in the memory of veteran business observers, exceeding world-war disruption of European trade.

Hardest hit by loss of European markets were farm products, notably cotton.

Temporarily, anyway, Uncle Sam's European trade was heavily weighted with sales of airplanes and other war machinery to England. British purchasing agents announced they had taken over French contracts in this country.

Combined with the British buying were growing expenditures for plant enlargements to meet the anticipated boom in war industry when Washington's multi-billion dollar defense spending gets into high gear.

## CLEARANCE SALES WILL DRAW MANY FROM CITY AREA

### Merchants Prepared To Present Bargains In Three-Day Offering

Monday the gigantic July clearance sale, the sale for which the people of Monroe and the city's trade area have been anxiously waiting, will get under way, lasting through Wednesday.

Tremendous stocks of summer goods have been purchased by the leading merchants of Monroe to be offered at greatly reduced prices to the buying public, Dave Silverstein, chairman of the merchants division of the Chamber of Commerce, sponsor of the event, said Saturday.

This event promises to be the most spectacular affair of its kind ever to be held in Monroe, according to members of the publicity committee for the clearance sale. All leading merchants have worked for the past several weeks making special purchases in order to give the people of the city trade area some special bargains in appreciation of their good will in the past.

"I have contacted the leading merchants of the city and they have assured me that they will cooperate to the fullest extent by giving the Monroe trade territory one of the best sales in many years," Chairman Silverstein said. "We are ready."

Herbert Fink of Fink the Tailor; Miss Helen Hewitt, manager of the Fashion; H. H. Fairchild, advertising manager of The Palace; Fred Johnson, assistant manager of Sears, Roebuck & Co.; and Abe Blumenthal, manager of Fields; members of the sale publicity committee all joined in the prediction of the greatness of this clearance sale.

"Preparations for this sale have been going on for several weeks and we

## NEW U. S. TAXES START ON MONDAY

### American Consumers To Begin Paying Toward Rearmament Fund

WASHINGTON, June 29.—(AP)—American consumers will begin paying taxes on Monday for the nation's five-year-five-billion-dollar rearmament fund.

In several instances, they will pay more than during the World war.

Excise, commondity and service taxes will advance by from 10 to 50 per cent on various items from present rates.

An additional $1 per barrel on beer will add a third of a cent per bottle; an extra 75 cents per gallon on liquor will add 19 cents per quart; and 25 cents more on each 1,000 cigarettes will add half a cent to each standard package of 20.

The gasoline tax will jump from 1 to 1 1-2 cents; radios, from 5 to 5 1-2 per cent of their value; passenger

## JAPANESE POLICY IN ASIA DISCLOSED

### Foreign Minister Enunciates Stand Based Upon New Sphere

TOKYO, June 29.—(AP)—Foreign Minister Hachiro Arita enunciated today a foreign policy based upon the creation of an "Asiatic sphere" in which Japan would be dominant.

This was an advance from the previous position in which Japan had insisted upon maintenance of the status quo in East India.

(In Washington there were strong indications of opposition to this Oriental Monroe Doctrine projection.)

The foreign minister, broadcasting to the empire, visualized the creation of stabilized spheres throughout the world between "closely related peoples" as a prelude to permanent peace.

No mention was made of "status quo" or previous inferential warnings to western nations to stay away from colonies in East Asia and the South seas.

(At Hongkong Japanese-British tension was so high that a state of emergency was proclaimed and British authorities planned to remove all women, children and unneeded men from the crown colony to Manila. This was interpreted to mean that Britain would reject Japan's demand that it close

## G.O.P. Rear Guard Fights Over Party Chairmanship

By Richard L. Turner

PHILADELPHIA, June 29.—(AP)—The rear guard of the Republican national convention squabbled over the selection of a national party chairman today and settled the issue temporarily by appointing a sub-committee to confer with Wendell Willkie and choose the man.

Important influences backed a move to continue John D. M. Hamilton in the job, with Willkie's apparent concurrence. The opposition had the leadership of Alf M. Landon, the 1936 presidential nominee, who at Cleveland four years ago selected Hamilton as his pre-convention manager.

Later Hamilton, in a statement, termed the creation of a subcommittee "very natural in view of the rapidity with which events have moved in the last few days."

This affords Willkie the "needed opportunity" to consider campaign plans, Hamilton said, and added that meantime the present "staff" of the committee will continue to function.

Willkie, meanwhile, left the city without making known his choice. He and his attractive wife sailed as guests of Publisher Roy Howard aboard his yacht for a brief sea voyage before returning to New York and then taking a longer vacation.

The Republican candidate told newsmen he would probably defer his formal acceptance speech at his home town, Elwood, Ind., until after the Democrats meet in Chicago July 15.

The members of the Republican national committee were extremely reluctant to concede that their 1940 campaign had started in a controversy over who should manage it, but the existence of the row was so obvious that finally they made no effort to conceal it.

Earlier in the day, Samuel F. Pryor of Connecticut, who swung that state's delegation solidly to Willkie from the first ballot on, called on the nominee with a group of national committeemen to ascertain his views on the question of a chairman.

Meanwhile, Landon was busy in opposition to Hamilton. No reason for his attitude was given, but it was understood he felt that the new leadership of the party should have a clean slate and a free hand in the selection of its working personnel.

Walter S. Hallanan of West Virginia was appointed chairman of the subcommittee. He said he would visit Willkie in New York about the middle of next week, probably Wednesday and talk the question over with him.

## NATIONS WON'T SEND MEETING DELEGATES

BUENOS AIRES, June 29.—(AP)—Four South American nations—Argentina, Brazil, Chile and Uruguay—will not be represented by their foreign ministers at the western hemisphere conferences in Havana next month, it was reported today.

The decision of Argentina's foreign minister, Jose Cantilo, not to go to Havana was a blow to the hopes of United States officials, who had counted on him to set an example to the other nations.

## Fontenot Will Be Named Louisiana Tax Collector

BATON ROUGE, La., June 29.—(AP)—Governor Sam H. Jones today announced that he would appoint Rufus W. Fontenot, collector of internal revenue for Louisiana, as state tax collector on Monday.

Fontenot announced his resignation from the federal position at New Orleans this morning, effective immediately.

In the state post, a position in which nearly $60,000,000 state taxes are collected annually, Fontenot will succeed W. A. Cooper, state tax collector since 1939 when, as state supervisor of public funds, he was named to succeed Alice Lee Grosjean, an appointee and high counsellor for years under the Huey P. Long regime.

Fontenot, 51, is a native of Crowley, La., and a member of a prominent Southwest Louisiana family. His father, the late Gus E. Fontenot, served for a quarter century as Acadia parish clerk of court. His mother's family founded the town of Crowley.

During his decade service as federal revenue collector for Louisiana, under the administrations of President Woodrow Wilson and Franklin Roose-

## PARKERS PRODUCE POLICE DILEMMA

DENVER, June 29.—(AP)—Denver police found themselves facing this dilemma today:

If they marked the tires of parked cars with ordinary chalk, some overtime parkers slipped from their offices to erase the marks with a sponge. If they used a waterproof chalk the marks remained on the tires of motorists who drove only a short distance from one parking place to another.

After a check-up showed only 15 per cent of overtime parkers were "unfair," Traffic Captain James J. Pitt ordered ordinary chalk used because "we do not want to hurt" the non-cheating 85 per cent.

## MOTOR NOT RUNNING, HE'S SPEEDING, FINED

ELIZABETH, N. J., June 29.—(AP)—The motor of John P. Gilbert's car wasn't running, but he was fined $7 for speeding.

A friend, whose motor was humming nicely, pushed him more than 40 miles an hour. The friend was fined also.

## International In Brief

(By Associated Press)

BUCHAREST—Seizure of supplies consigned to Germany heightens expectations of complications between Germany and Russia.

ROME—Air Marshal Italo Balbo, Mussolini's old associate, and nine others killed in Libyan plane crash at time of British raid.

AMSTERDAM—Disorders in Netherlands cities reported put down.

PARIS—Citizens warned not to walk into lines of marching Germans after "regrettable incidents."

MEXICO CITY—Mexican army ready to stamp out any outbreak in next Sunday's presidential elections; officials insist there won't be a revolution.

# WOMEN GO HOME AFTER SESSIONS

## Emphasize National Defense, Appeal For Peace In World

ATLANTA, June 29—(AP)—Georgia farm women returned to their homes today after a two-day rural-urban conference emphasizing home defense and appeals for world peace.

"We live in a country not at war, but we can't tell when it will strike us," said Mrs. Robin Wood of Atlanta, life president of the conference, at a closing session devoted to peace discussion.

The spiritual elements of peace were stressed by Dr. Edward G. MacKey of Atlanta who asserted the bolstering of spiritual forces should come before material preparedness.

A national rural-urban meeting was held in connection with the state conference. The national conference accepted an invitation of Mrs. W. W. Wilkinson, Texas president, and Mrs. Walter Nix to meet next year at Fort Worth, Tex.

### ASSEMBLY OF GOD
**Cypress And Crosley Streets**
**West Monroe**
**E. L. Tanner, Pastor**

Sunday school meets at 9:45 a.m., S. W. Hamilton, superintendent. Rev. James D. Cockman, who has been doing the preaching in the revival this week, will speak at 11 a.m. and 7:45 p.m. Christ Ambassador class meets at 6:45 p.m. We invite you to hear Rev. Cockman at both services today. You will enjoy the special music from the piano-accordion and vibraphone.

Our goal for Sunday school is 350. We urge every member to be present and extend a cordial invitation to those who are not attending other church schools to meet with us. You are always welcome in our services.

### FIRST BAPTIST CHURCH
**West Monroe**
**Dr. A. E. Prince, Pastor**
**Prof. Dallas Goss, Music Director**
**Miss Beulah Doerr, Educational Director**

The Sunday school lesson for today is very interesting and instructive and should be carefully studied by every person in the Twin Cities. It is gratifying to note that in every kind of meeting throughout our land, the statement is made unhesitatingly that the only hope for America and for the world lies in getting back to God. The difficulty is that most people are utterly wrong in their idea of what it means to "get back to God." Come to Sunday school today and study the lesson and then stay for the church service. The Sunday school convenes at 9:45 a.m. The pastor will preach at 10:50 a.m. on "Finding the Way Back to God." The B. T. U. conference of workers will be held at 6:30 p.m. The general B. T. U. and Brotherhood meetings are at 7 p.m. The pastor will preach at 8 p.m. on "The Hidden Reinforcements of a Good Life." You are invited to attend all the services.

### CENTRAL BAPTIST CHURCH
**3400 Lee Avenue**
**D. D. Cantrell, Pastor**
**Dale Cobb, Choir Director**

All the groups for the Sunday school will meet today at 9:30 to 10:40 a.m. All adults and young people will meet in the auditorium of the Lida Benton school building for their classes. All the children through the intermediates meeting at the church for their classes. All the teachers and officers will be present earlier. The training union will meet 6:45 p.m. There is a union for all ages and an age for all unions, find your place and have a great meeting today.

The revival series of services begin today. The visiting pastor will be present for the evening service to preach at that hour. All our friends will want to hear this great man of God. He is a great leader in our denominational life, a graduate of our Baptist college and seminary and served as president of the academy for years. He has also traveled in Palestine and other countries of Europe, a great soul winner and unexcelled as a preacher of the gospel in our state. The evangelistic singer who will have charge of the music is Ray Marston, and equally great in his field of service. Will you join with us in prayer and labor to make this the real revival that our people need so much?

There have been many cottage prayer meetings conducted during this week. We believe the Lord has a great blessing for us all. With the poet we should say:

"Over here and over there
Give in the name of the Lord, good cheer
To lost ones dying, needy and crying,
Salvation's story, here and there."

The pastor urges that all the Sunday school group will remain for the preaching service and come praying for a great morning service.

### RIDGE AVENUE BAPTIST CHURCH
**Rdge Avenue, West Monroe**
**A. T. Mitchell, Pastor**

Ridge Avenue Baptist church has been in a revival meeting since the first of May except a few days. In this time the church has had 81 additions of which 28 were for baptism. Sunday has been set aside as the big day to make the final drive for membership and all the friends of this young church are urged to do their best. We are holding our services in a temporary tabernacle located between the Splane and McGuide addition on Ridge avenue, but more than three lots have been bought and paid for to erect a church building on and Mr. W. C. Salley, chairman of the building committee, announced Friday night that the building would be started by July 15.

Our program for the services Sunday will be as follows: Sunday school 9:45 a.m., L. L. Overton, superintendent. Sermon 11 a.m. The subject will be "Heaven."

The evening service will begin at 7:30 with a music program conducted by Mr. L. O. Fisher, 8:15 a sermon on the plan of salvation by the pastor.

This is the "friendly church," where they bring children, babies and all, and we welcome all and are a friend to all.

### CALVARY BAPTIST CHURCH
**812 Mississippi St.**
**Rev. I. J. Brooks, Pastor**
**Max Braswell, Choir Director**

The subject for this morning, the pastor's third message on the second coming of Christ, will be "The Rapture of the Saints," with text from I Thessalonians 4:14 to 18. At the close of this message the Lord's Supper will be observed.

The subject of the evening message will be "Your Life's Most Important Question," with text from Matthew 27:22. All new converts who have not been baptized will please come prepared for the baptismal service which will be held at the close of this service.

Remember the bus will continue to run as during the meeting to bring people to Sunday school and church services. The Sunday school service begins at 9:45 a.m., with classes for all ages.

Take advantage of the training offered by the training organizations of the church. Do not say "no" when asked to teach a class just because you feel unqualified. "The harvest is plenty but the laborers are few."

### CHRISTIAN SCIENCE SERVICES
**Auburn Ave. And N. Second St.**

"Christian Science" is the subject of the lesson sermon in all Churches of Christ, Scientist, Sunday, June 30, 1940.

The golden text is: "The prophecy came not in old time by the will of man: but holy men of God spake as they were moved by the Holy Ghost." (II Peter 1.21).

Among the citations which comprise the lesson sermon is the following from the Bible: "O house of Jacob, come ye, and let us walk in the light of the Lord." (Isa. 2).

The lesson sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Christian Science is dawning upon a material age." (p. 546).

### FIRST CHRISTIAN CHURCH
**St. John And Oak Streets**
**R. T. Watson, Minister**

Church school at 9:45 a. m. Divine worship at 10:50 a.m. Sermon theme, "The Way of the Cross."

The young people will meet at 6:30 p. m. to hear reports of the recently held conference at Camp Windywood, and to elect officers.

Evening service at 7:45 p. m. The sermon will be the first in a brief series of expository messages on I Corinthians.

We have an air-cooled building, which is especially comfortable at the evening hour. We invite you to worship with us.

### GRACE CHURCH
**Fourth And Glenmar Sts.**
**Edward Farren Hayward, Rector**

Sunday is the sixth after Trinity Sunday, and the services are as follows: The Holy Eucharist at 7:30 a.m. and morning prayer and sermon at 9:30 a.m. The only service during the week will be on Thursday, Independence day. The Holy Eucharist will be celebrated at 9 a.m.

Meditation: "A Man's Faith in Himself." Read the seventh chapter of St. Luke, verses 36 to 50. Bernard Shaw writes: "It is easy—terribly easy to shake a man's faith in himself." To take advantage of that, to break a man's spirit, is devil's work. On the other hand, to create a man's faith in himself is divine work—and this was what our Lord was constantly doing. The Gerasene madman, healed and enabled to approach his fellowmen without terror; Zacchaeus the grafter, at whose house Jesus chose to stay; Mary Magdalene, "out of whom He had cast seven devils," realizing His risen presence; Peter, crushed with remorse, given another chance to become a "rock"—these and unnumbered others came to faith in themselves only because He had faith in them.

The church is open daily from 7:30 a.m. until 5:30 p.m. Come in, rest, pray, give thanks, meditate. You are welcome.—The Rector.

### TRINITY LUTHERAN CHURCH
**Harrison And D'Arbonne Streets**
**Sherrouse Addition**
**Vernon C. Grosse, Pastor**

Sunday school meets at 9:30 a.m. Bible class at 10 a.m. Church service at 10:45 a.m. We extend a cordial welcome to everyone to come and worship with us.

### FIRST METHODIST EPISCOPAL CHURCH
**C. Karlos Smith, Pastor-Evangelist**
**West Monroe, La.**

Fifth Sunday will be observed as "Dollar" day as is the usual custom of our church. Certainly if ever there was a time when the Christian church was on trial before the world that time is now. The forces of evil are organized for the purpose of bringing reproach upon the people of Christ and His church. Evil forces are bending every effort to destroy every restriction from our people, and to place in power those forces which are surely and unalterably opposed to Christian standards of life. Let every Christian man, woman, boy and girl prove to the world their loyalty and belief in the Christ of God, by attending their church and taking part in the program for advancing of the principals of righteous living. If you are not a member and in attendance upon some other church, we invite you to attend our church and to take part in every phase of the worship of our Saviour. Sunday school at 9:45 a.m. with Mr. R. M. McClendon as our efficient superintendent. Special music at every service directed by Mr. G. C. Williams. Preaching services at 11:00 a.m. and 8:00 p.m.

"The church with a welcome to everybody."

### STONE AVENUE METHODIST CHURCH
**I. L. Yeaker, Pastor**

A lady who was interested in Christian work in London wrote me once and said, "I have a meeting I want you to come and speak to. It is only a small meeting, and it will take nothing out of you." I answered, "I cannot come. If it takes nothing out of me it will do nobody any good." It is the service that costs, and a cheap religion isn't worth preaching. —Gypsy Smith.

Week-end services as follows: Sunday school at 9:45 a. m. Morning worship at 11 o'clock. Christian Endeavor at 7 p. m. Mrs. H. F. Boyd was appointed to lead the meeting. Evening service at 7:45. Circle meetings Tuesday afternoon at 2.30. Prayer service Wednesday evening at 7:45.

Mr. Wallace Reeves, one of our ministerial students of the Louisiana conference will deliver the message both morning and evening services, in the absence of the pastor who is assisting Rev. W. H. Carroll, of Grayson, La., in a meeting on the Grayson circuit, at the Shiloh church, near Grayson.

### FIRST METHODIST CHURCH
**Jackson At Wood Streets**
**A. M. Freeman, Pastor**

Today is home-coming day. We are expecting an overflow in our congregation, but we are prepared to give you a seat. The little banks will be opened at the church school and morning worship hours, and the committee plans to give you the figures of the amount at the evening service. The pastor will have for his theme this morning, "New Life" and at 7:45 his topic will be "A Higher Standard." The young people will meet at the annex for the Epworth league hour at 6:45.

Tuesday at three o'clock, the Society of Christian Service will meet at the church for the monthly business session.

The detes for the young people's camps are July 1 to the 6th, and from July 8th to July 13th. We are in hope that many of our girls and boys will avail themselves of this opportunity of spending at least part of their vacation in study and recreation that will help them to become better citizens and Christians.

### CHURCH OF THE NAZARENE
**Thomas Avenue At Richmond Street**
**G. M. And Ina Lee Akin, Pastors**

The pastors have returned from Oklahoma City, where they attended the general assembly of the Church of the Nazarene for the past two weeks. Mrs. Akin will give a report of "assembly happenings" at the eleven o'clock service. She will give many interesting details of this great gathering. Rev. G. M. Akin will speak at the evening meeting, giving to the congregation an evangelistic message. Mrs. Ruth (Camp) Hoskins will sing at each service.

The Sunday school shall assemble at 9:45 a. m. Mrs. S. P. Quigley, superintendent, in charge. N. Y. P. S. meetings at 6:45 p. m. Leaders: Mrs. O. L. Hoskins, Mrs. Almeda Brown, Mrs. Lynn Boyd, Mrs. T. J. Gardner. The W. F. M. S. will meet with Mrs. Ina Lee Akin, 2806 Gordon avenue Tuesday evening at 7:45 o'clock. Prayer meeting Wednesday at 7:45 p. m. Worship with us this Lord's day.

### THE FIRST PRESBYTERIAN CHURCH
**Grammont At Catalpa**
**Ernest Holloway, Pastor**

"Life's Supreme Law" and "The Duty of Encouragement" are the subjects about which we shall think this Sabbath. Your presence will not only cheer us; it will indicate to the Lord God that you are conscious of His goodness and grateful for His mercies. How we miss you when you are not present! How we are cheered when you are in the pew, ready to hear His word and to join us in earnest, sincere prayer!

The Sabbath school needs you. Will you come with us that we may study His truth?

A hearty greeting awaits you!

# TELEPHONE RATES WILL BE REDUCED

WASHINGTON, June 29.—(AP)—Reductions approximating $52,000 annually will be made in interstate rates of the Southern Bell Telephone and Telegraph company in the southeastern states, the federal communications commission announced today. The reduced rates will go into effect August 1.

# WORK IS UNDER WAY ON MONROE CHURCH

This week saw the tearing out of the back wall of the First Baptist church and excavation begun for the extension of the church auditorium some 12 feet eastward.

The expansion work is going rapidly under the supervision of Frank Masling, contractor, and approximately $4,000 of steel was ordered to be used in the construction of the balcony.

Following completion in the late fall, the church will boast an auditorium with a seating capacity of about 2,000 and plans are under way for the air-conditioning of the building. New equipment has been ordered for the building, including a new pipe organ and an indirect fluorescent lighting system will be installed, it was announced.

### ASSEMBLY OF GOD
**Cypress And Crosley Streets**
**West Monroe**
**E. L. Tanner, Pastor**

Sunday school meets at 9:45 a.m., S. W. Hamilton, superintendent. Rev. James D. Cockman, who has been doing the preaching in the revival this week, will speak at 11 a.m. and 7:45 p.m. Christ Ambassador class meets at 6:45 p.m. We invite you to hear Rev. Cockman at both services today. You will enjoy the special music from the piano-accordion and vibraphone.

Our goal for Sunday school is 350. We urge every member to be present and extend a cordial invitation to those who are not attending other church schools to meet with us. You are always welcome in our services.

### FIRST BAPTIST CHURCH
**West Monroe**
**Dr. A. E. Prince, Pastor**
**Prof. Dallas Goss, Music Director**
**Miss Beulah Doerr, Educational Director**

The Sunday school lesson for today is very interesting and instructive and should be carefully studied by every person in the Twin Cities. It is gratifying to note that in every kind of meeting throughout our land, the statement is made unhesitatingly that the only hope for America and for the world lies in getting back to God. The difficulty is that most people are utterly wrong in their idea of what it means to "get back to God." Come to Sunday school today and study the lesson and then stay for the church service. The Sunday school convenes at 9:45 a.m. The pastor will preach at 10:50 a.m. on "Finding the Way Back to God." The B. T. U. conference of workers will be held at 6:30 p.m. The general B. T. U. and Brotherhood meetings are at 7 p.m. The pastor will preach at 8 p.m. on "The Hidden Reinforcements of a Good Life." You are invited to attend all the services.

### CENTRAL BAPTIST CHURCH
**3400 Lee Avenue**
**D. D. Cantrell, Pastor**
**Dale Cobb, Choir Director**

All the groups for the Sunday school will meet today at 9:30 to 10:40 a.m. All adults and young people will meet in the auditorium of the Lida Benton school building for their classes. All the children through the intermediates meeting at the church for their classes. All the teachers and officers will be present earlier. The training union will meet 6:45 p.m. There is a union for all ages and an age for all unions, find your place and have a great meeting today.

The revival series of services begin today. The visiting pastor will be present for the evening service to preach at that hour. All our friends will want to hear this great man of God. He is a great leader in our denominational life, a graduate of our Baptist college and seminary and served as president of the academy for years. He has also traveled in Palestine and other countries of Europe, a great soul winner and unexcelled as a preacher of the gospel in our state. The evangelistic singer who will have charge of the music is Ray Marston, and equally great in his field of service. Will you join with us in prayer and labor to make this the real revival that our people need so much?

There have been many cottage prayer meetings conducted during this week. We believe the Lord has a great blessing for us all. With the poet we should say:

"Over here and over there
Give in the name of the Lord, good cheer
To lost ones dying, needy and crying,
Salvation's story, here and there."

The pastor urges that all the Sunday school group will remain for the preaching service and come praying for a great morning service.

### RIDGE AVENUE BAPTIST CHURCH
**Rdge Avenue, West Monroe**
**A. T. Mitchell, Pastor**

Ridge Avenue Baptist church has been in a revival meeting since the first of May except a few days. In this time the church has had 81 additions of which 28 were for baptism. Sunday has been set aside as the big day to make the final drive for membership and all the friends of this young church are urged to do their best. We are holding our services in a temporary tabernacle located between the Splane and McGuide addition on Ridge avenue, but more than three lots have been bought and paid for to erect a church building on and Mr. W. C. Salley, chairman of the building committee, announced Friday night that the building would be started by July 15.

Our program for the services Sunday will be as follows: Sunday school 9:45 a.m., L. L. Overton, superintendent. Sermon 11 a.m. The subject will be "Heaven."

The evening service will begin at 7:30 with a music program conducted by Mr. L. O. Fisher, 8:15 a sermon on the plan of salvation by the pastor.

This is the "friendly church," where they bring children, babies and all, and we welcome all and are a friend to all.

### CALVARY BAPTIST CHURCH
**812 Mississippi St.**
**Rev. I. J. Brooks, Pastor**
**Max Braswell, Choir Director**

The subject for this morning, the pastor's third message on the second coming of Christ, will be "The Rapture of the Saints," with text from I Thessalonians 4:14 to 18. At the close of this message the Lord's Supper will be observed.

The subject of the evening message will be "Your Life's Most Important Question," with text from Matthew 27:22. All new converts who have not been baptized will please come prepared for the baptismal service which will be held at the close of this service.

Remember the bus will continue to run as during the meeting to bring people to Sunday school and church services. The Sunday school service begins at 9:45 a.m., with classes for all ages.

Take advantage of the training offered by the training organizations of the church. Do not say "no" when asked to teach a class just because you feel unqualified. "The harvest is plenty but the laborers are few."

### CHRISTIAN SCIENCE SERVICES
**Auburn Ave. And N. Second St.**

"Christian Science" is the subject of the lesson sermon in all Churches of Christ, Scientist, Sunday, June 30, 1940.

The golden text is: "The prophecy came not in old time by the will of man: but holy men of God spake as they were moved by the Holy Ghost." (II Peter 1.21).

Among the citations which comprise the lesson sermon is the following from the Bible: "O house of Jacob, come ye, and let us walk in the light of the Lord." (Isa. 2).

The lesson sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Christian Science is dawning upon a material age." (p. 546).

### FIRST CHRISTIAN CHURCH
**St. John And Oak Streets**
**R. T. Watson, Minister**

Church school at 9:45 a. m. Divine worship at 10:50 a .m. Sermon theme, "The Way of the Cross."

The young people will meet at 6:30 p. m. to hear reports of the recently held conference at Camp Windywood, and to elect officers.

Evening service at 7:45 p. m. The sermon will be the first in a brief series of expository messages on I Corinthians.

We have an air-cooled building, which is especially comfortable at the evening hour. We invite you to worship with us.

### GRACE CHURCH
**Fourth And Glenmar Sts.**
**Edward Farren Hayward, Rector**

Sunday is the sixth after Trinity Sunday, and the services are as follows: The Holy Eucharist at 7:30 a.m. and morning prayer and sermon at 9:30 a.m. The only service during the week will be on Thursday, Independence day. The Holy Eucharist will be celebrated at 9 a.m.

Meditation: "A Man's Faith in Himself." Read the seventh chapter of St. Luke, verses 36 to 50. Bernard Shaw writes: "It is easy—terribly easy to shake a man's faith in himself." To take advantage of that, to break a man's spirit, is devil's work. On the other hand, to create a man's faith in himself is divine work—and this was what our Lord was constantly doing. The Gerasene madman, healed and enabled to approach his fellowmen without terror; Zacchaeus the grafter, at whose house Jesus chose to stay; Mary Magdalene, "out of whom He had cast seven devils," realizing His risen presence; Peter, crushed with remorse, given another chance to become a "rock"—these and unnumbered others came to faith in themselves only because He had faith in them.

The church is open daily from 7:30 a.m. until 5:30 p.m. Come in, rest, pray, give thanks, meditate. You are welcome.—The Rector.

### TRINITY LUTHERAN CHURCH
**Harrison And D'Arbonne Streets**
**Sherrouse Addition**
**Vernon C. Grosse, Pastor**

Sunday school meets at 9:30 a.m. Bible class at 10 a.m. Church service at 10:45 a.m. We extend a cordial welcome to everyone to come and worship with us.

### FIRST METHODIST EPISCOPAL CHURCH
**C. Karlos Smith, Pastor-Evangelist**
**West Monroe, La.**

Fifth Sunday will be observed as "Dollar" day as is the usual custom of our church. Certainly if ever there was a time when the Christian church was on trial before the world that time is now. The forces of evil are organized for the purpose of bringing reproach upon the people of Christ and His church. Evil forces are bending every effort to destroy every restriction from our people, and to place in power those forces which are surely and unalterably opposed to Christian standards of life. Let every Christian man, woman, boy and girl prove to the world their loyalty and belief in the Christ of God, by attending their church and taking part in the program for advancing of the principals of righteous living. If you are not a member and in attendance upon some other church, we invite you to attend our church and to take part in every phase of the worship of our Saviour. Sunday school at 9:45 a.m. with Mr. R. M. McClendon as our efficient superintendent. Special music at every service directed by Mr. G. C. Williams. Preaching services at 11:00 a.m. and 8:00 p.m.

"The church with a welcome to everybody."

### STONE AVENUE METHODIST CHURCH
**I. L. Yeaker, Pastor**

A lady who was interested in Christian work in London wrote me once and said, "I have a meeting I want you to come and speak to. It is only a small meeting, and it will take nothing out of you." I answered, "I cannot come. If it takes nothing out of me it will do nobody any good." It is the service that costs, and a cheap religion isn't worth preaching. —Gypsy Smith.

Week-end services as follows: Sunday school at 9:45 a. m. Morning worship at 11 o'clock. Christian Endeavor at 7 p. m. Mrs. H. F. Boyd was appointed to lead the meeting. Evening service at 7:45. Circle meetings Tuesday afternoon at 2.30. Prayer service Wednesday evening at 7:45.

Mr. Wallace Reeves, one of our ministerial students of the Louisiana conference will deliver the message both morning and evening services, in the absence of the pastor who is assisting Rev. W. H. Carroll, of Grayson, La., in a meeting on the Grayson circuit, at the Shiloh church, near Grayson.

### FIRST METHODIST CHURCH
**Jackson At Wood Streets**
**A. M. Freeman, Pastor**

Today is home-coming day. We are expecting an overflow in our congregation, but we are prepared to give you a seat. The little banks will be opened at the church school and morning worship hours, and the committee plans to give you the figures of the amount at the evening service. The pastor will have for his theme this morning, "New Life" and at 7:45 his topic will be "A Higher Standard." The young people will meet at the annex for the Epworth league hour at 6:45.

Tuesday at three o'clock, the Society of Christian Service will meet at the church for the monthly business session.

The dates for the young people's camps are July 1 to the 6th, and from July 8th to July 13th. We are in hopes that many of our girls and boys will avail themselves of this opportunity of spending at least part of their vacation in study and recreation that will help them to become better citizens and Christians.

### CHURCH OF THE NAZARENE
**Thomas Avenue At Richmond Street**
**G. M. And Ina Lee Akin, Pastors**

The pastors have returned from Oklahoma City, where they attended the general assembly of the Church of the Nazarene for the past two weeks. Mrs. Akin will give a report of "assembly happenings" at the eleven o'clock service. She will give many interesting details of this great gathering. Rev. G. M. Akin will speak at the evening meeting, giving to the congregation an evangelistic message. Mrs. Ruth (Camp) Hoskins will sing at each service.

The Sunday school shall assemble at 9:45 a. m. Mrs. S. P. Quigley, superintendent, in charge. N. Y. P. S. meetings at 6:45 p. m. Leaders: Mrs. O. L. Hoskins, Mrs. Almeda Brown, Mrs. Lynn Boyd, Mrs. T. J. Gardner. The W. F. M. S. will meet with Mrs. Ina Lee Akin, 2806 Gordon avenue Tuesday evening at 7:45 o'clock. Prayer meeting Wednesday at 7:45 p. m. Worship with us this Lord's day.

### THE FIRST PRESBYTERIAN CHURCH
**Grammont At Catalpa**
**Ernest Holloway, Pastor**

"Life's Supreme Law" and "The Duty of Encouragement" are the subjects about which we shall think this Sabbath. Your presence will not only cheer us; it will indicate to the Lord God that you are conscious of His goodness and grateful for His mercies. How we miss you when you are not present! How we are cheered when you are in the pew, ready to hear His word and to join us in earnest, sincere prayer!

The Sabbath school needs you. Will you come with us that we may study His truth?

A hearty greeting awaits you!

# TELEPHONE RATES WILL BE REDUCED

WASHINGTON, June 29.—(AP)—Reductions approximating $52,000 annually will be made in interstate rates of the Southern Bell Telephone and Telegraph company in the southeastern states, the federal communications commission announced today. The reduced rates will go into effect August 1.

For person-to-person calls the reductions include:

For 43 miles, 55 to 50 cents; 50 miles, 65 to 55 cents; 100 miles, 90 to 75 cents; 150 miles, $1.15 to $1; 200 miles, $1.40 to $1.10; 300 miles, $1.65 to $1.40; 500 miles, $2.40 to $2; 750 miles, $3.25 to $2.55.

# WORK IS UNDER WAY ON MONROE CHURCH

This week saw the tearing out of the back wall of the First Baptist church and excavation begun for the extension of the church auditorium some 12 feet eastward.

The expansion work is going rapidly under the supervision of Frank Masling, contractor, and approximately $4,000 of steel was ordered to be used in the construction of the balcony.

Following completion in the late fall, the church will boast an auditorium with a seating capacity of about 2,000 and plans are under way for the air-conditioning of the building. New equipment has been ordered for the building, including a new pipe organ and an indirect fluorescent lighting system will be installed, it was announced.

## Defense Moves Forward

We as a people are extremists. We are either 'way up or 'way down. We go all the way.

That is not without its advantages in a world which runs with emotion for gasoline. But it has its failings.

It is necessary to rise to high pitches of emotion and enthusiasm. But it is also necessary to follow through—to set a goal and hold grimly to it after the initial enthusiasm begins to ebb away.

Take the matter of defense, for instance. For 20 years, right in the face of a Europe and Asia that were feverishly preparing for the wars that now desolate both, we yawned, and allowed that it was all pretty terrible but it couldn't touch us. During all those 20 years we never built a battleship. We let the army go to seed. We held our air forces, good though they were in quality, down to minimums.

War came to Asia, then to Europe. Even for the first six months of Europe's war we dawdled. "Phony!" some said. Plenty of time.

Then, in all its fury the war broke bounds. Hullabaloo! Hysteria! Lid-off appropriations! All of a sudden, quick like a bunny, we were going to grind out 5,000 airplanes a day from one plant. Nobody even stopped to multiply that by 300 and to realize that it means a million and a half planes in a year, requiring three million pilots and ground staffs of 15,000,000.

Now we are settling down to reality. Level-headed General Marshall, the chief of staff, has pointed out that we have two problems of defense, not one. The first is to get into some kind of formation the defense forces we now have. This is already being done. Bases have been reinforced and further protected. Small forces have been assembled and consolidated into effective units. Reserve officers, of whom we fortunately have a sizable force, are being called up. National Guard training is rapidly being placed on a realistic basis. The country's readiness for an instant emergency is far greater than it was even six weeks ago.

But no long-term program can possibly be ready in time to affect the outcome of Europe's present crisis. That program is aimed at enabling the United States to live in comparative security in whatever kind of world emerges from the present. That is where the follow-through comes in.

### PUBLIC SERVICE 'INTERNES'

Training for public service as one trains for professional service is an ideal much discussed but seldom achieved. For it has been a sort of tenet of government in the United States that the public service is the only kind of service that requires no special training or even aptitude of any kind.

Through the colleges a way is being found to cut into this unintelligent tradition. In Wisconsin, under Governor Phil LaFollette, arrangements were made to take specially qualified students at the state university into state service. And in Los Angeles another experiment has now been operating for seven years. A series of "apprenticeships" by "student technicians" have been opened in both city and county governments, enabling students to get part-time work while studying, and usually full-time work for about a year thereafter. Qualified then both by training and experience, the graduates have usually found it easier to get permanent work in public administration of some kind.

Public service will be more and more important in the years to come, whether we like it or not. There is no reason why it should not be trained and intelligent service.

### SANCTUARY

How all-inclusive the war has become with no place of rest for a refugee in Europe, unless it is in Portugal or Switzerland, neither too secure, appears vividly in the arrival of Holland's Crown Princess Juliana in Canada.

It has been more than a hundred years since a situation overseas has been so unstable that no haven was to be found there by those fleeing the misfortunes of war. In the first World war Holland played a distinguished role in affording sanctuary to the kaiser, who certainly deserved a worse fate.

At the time of the collapse of the Napoleonic adventure some members of the house of Bonaparte—as Napoleon termed the assorted riffraff that composed his relatives—found no continent comfortable save America and so came here. If history has it right Napoleon himself had escape to the United States in mind. A house in the old French section of the city of New Orleans was long pointed out as the dwelling place prepared for him.

Circumstances over which he had no control consigned the tiny but colossal Corsican to a much more humble home on Saint Helena.

## • BRUCE CATTON IN WASHINGTON

WASHINGTON—Barring early adjournment of congress chances are good that the sweeping Wagner act revisions voted by the house of representatives will become law.

Until recently, friends of the Labor Board assumed it didn't matter much what the house did . . . that the senate firmly in control of the administration would block any really hostile action.

Then the picture changed.

Outstanding element in the change was the letter sent to Chairman Howard Smith of the Labor Board Investigating Committee by President William Green of the A. F. of L., in which Green gave his support to the Smith amendments.

By taking the stand Green not only stole a long march on the C. I. O., but also served notice on A. F. of L. friends in both houses that he was in effect abandoning the Labor Board to its fate.

**Then Came Rapprochement**

Another element was the strange apathy in the administration. Until very recently the administration was firmly set on blocking any sweeping revision of the law. Then came the famous rapprochement between the White House and the conservative southern Democrats.

Senator Byrnes of South Carolina was all but publicly crowned as heir apparent to the vice presidency. Senator Harrison of Mississippi plugged for a third term. F. D. R. patted Martin Dies approvingly on the back . . . and administration opposition to the Smith proposals lost its punch.

Mary Norton, who fought the fight for the Labor Board in the house was giving away no secrets when she complained the administration had been letting the battle go by default.

Meanwhile the situation stands as a distinct triumph in strategy for Congressman Smith. Throughout he played his cards masterfully.

He began his hearings last fall by questioning the board's moderate members, Dr. William Leiserson and bringing out the full story of dissension within the board.

He spent days bringing out evidence stressing the youthfulness and inexperience of many board employes who had kept positions in administering the law.

Most important, he took full advantage of the split within the board by centering his heaviest fire on the person of David Saposs, head of the research division. Defenders of the board were promptly divided into pro- and anti-Saposs camps.

While they rowed bitterly over a basically unimportant point Smith plugged away at his main target—fundamental revision of the law and abolition of the board as it now stands.

**Board Itself Helped Bring Change**

Should the amendments become law, both the board and the Wagner act would be entirely different. First, there would be a brand-new board of five members. Second, and far more important, the board's judicial and prosecuting functions would be completely divorced, with an administrator handling the latter and the board confined to passing on the evidence submitted by him.

Close friends of the board complain that these changes would emasculate the whole act. Whether or not this is true, it is certain that by refusing to heed criticism, by steering unskillfully through the A. F. of L-C. I. O. split and by devoting its energies to its own internal row, the board has done much to bring on the change.

## JIMMIE FIDLER In Hollywood

HOLLYWOOD, June 29.—Dear Staff: There's fodder for anti-double-billing arguments in the wail of a chap who lives on my street. Both he and his wife are movie fans. Given worth while screen fare, they like to go to the theater three or four times every week. They have no quarrel with the top-notch films now being produced in profusion—but they're being kept away from the box office by double billing.

Almost invariably, he points out, the picture they want to see on any dual program plays first. In order to be there for the opening scenes, they would have to be in the theater by approximately 6:30—and that's impossible since he never gets away from his office before 6 o'clock. If, on the other hand, they go for the final showing, they can't get home until nearly midnight—and he doesn't like to be out that late since he starts work at 8 a.m., takes his job seriously and knows that loss of sleep impairs his efficiency. The third alternative, getting in mid-way through the show, he refuses because it spoils the picture's entertainment value.

I wonder how many American families are staying away from the movies for the same reasons? Enough, I think, to turn box-office profit into box-office disaster. Producers, exhibitors and film salesmen know that dual billing is bad business—individually, they all admit the facts; collectively, they refuse to get together and do something to remedy the situation.

It's all very stupid.

JIMMIE FIDLER.

Dear Boss: Who ever heard of movie big shots getting together on anything? The idea's so absurd that we'll just pass on to the day's gossip and news without wasting comment.

Richard Dix, who's always declared that if his twins become actors 'twill be without his aid, has refused a five-grand bid from Harry Sherman for the boys' services in "Cherokee Strip." . . . Hollywood will learn the meaning of blitzkrieg when it ganders John Beverly's soon-to-be-published tome, "Power and Glory," which shows moviedom no mercy. . . . It's agent Myron Selznick, not hubby Charles Chaplin, who's kicking up a rumpus anent salary terms on which Paramount loaned Paulette Goddard. . . . Why all this foreboding about production curtailment? Metro will have nine pics, all colossals, before the cameras by next week-end!

Eye-gleam analysts in NY insist we should keep a pulse check on Martha Raye and Lionel Stander who've been dating steadily. . . . George Raft, who gains weight each springtime, is Hot Springs-bound to drop at least 15 unwanted pounds. . . . Fay Holden's 26th wedding anniversary was brightened by news that her kid brother, reported missing in the Flanders debacle, has reached England safely. . . . Today's Time-Marches-On note: One-time greats Betty Blythe, Bryant Washburn and Herbert Rawlinson chatting unnoticed in a Republic sound stage corner while visitors focus stares on Johnny Downs.

Spencer Tracy, who recently jaunted east to accept an honorary degree from Ripon college, tells about an elderly westerner who was simultaneously given the same honor for distinguished service as a railroad builder. "Hope we'll be going back on the same train," said Spence, who had found the oldster's conversation interesting. "Train?" snorted the railroad builder. "I haven't ridden a train for 20 years. I fly!"

It's Henry Wilcoxon who's slated for the prize lead in C. B. DeMille's "Reap the Wild Wind." . . . Myrna Loy is planning another visit to her old home town, Helena, Mont. . . . Real reason why Marjorie Weaver gifted her mother with a new car was that mama, driving Marjorie's own car, had run up $90 worth of repair bills in two weeks. . . . With millionaire Alex Thompson flying here to see Betty Grable, his estranged Mrs. left Hollywood, reputedly for Reno and a divorce. . . . Tyrone Power, who's been too busy to use it, has rented that amphibian plane to a commercial company for Catalina passenger service. . . . Looks like a tough summer for Jane Withers—20th Century execs plan to rush her through three pics before resumption of school work again takes half her set-time. . . . Boss, you should have shared our table at the Grace Hayes Lodge the other night—and listened in while Wayne and Bubbles Morris dished out baby advice to prospective parents Ronald Reagan and Jane Wyman.

N. T. G., Florentine Gardens impresario, has nixed an offer from Producer Joe Pasternak, who wanted him for Gloria Jean's next. . . . Renie Riano is revising a book of her poems, published in Australia, for an American printing. . . . Elaine Barrie Barrymore, who's been flu-ing these past three weeks, is up and around. Maybe she'll help the great J. B. sort the toys friends sent him when he was assigned Shirley Temple's dressing room.

**DIALOGUE IN A GARDEN**

Mary—I'm glad you caught the four-forty-four. It's so nice here in the garden. You can forget all about wars and politics and money.

John—That's just how I feel. Everything looks so scary everywhere in the world, but here we've got a beautiful little world of our own and we don't need to think about all this trouble. Let's take this path down to the delphiniums.

Mary—Isn't that a heavenly blue! Those are the biggest spikes our delphiniums ever had.

John—Great! (He stops to examine one of the flowers; puts on his glasses and looks at the blossom long and intently.)

Mary—What's the matter? Are the red spiders on them again?

John—No, it isn't that. I was just thinking about this little spur on the flower. That's why the Germans call the delphinium "hennenspuren," or hen-spur.

Mary—Yes? But what of it?

John—Well, I hadn't thought of it until the last few weeks but you know the Germans make words that way, like "hand shoe" for glove. They just put two or three things together to make up a word. They pile up sentences that way, too. You remember Mark Twain saying that they made a sentence as if they were stuffing things into a carpet bag. Now about the Germans—

Mary—I think that compost I put in last year helped them a lot.

John—(startled) The Germans?

Mary—No—the delphiniums, of course.

John—Well, as I was going to say, German etymology shows they are the most literal people in the world. But they are also romantic. That is essentially a juvenile combination.

Mary—That reminds me; I forgot to tell you that Junior has lost his dental brace again.

John—Yes? Well, take Junior for instance. Do you remember when he was just learning to talk he built up words just like the Germans. You know—that way he had of calling a brush a 'hair-broom,' when he was just learning to talk. It is essentially an infantile trait. But this literalness goes with the scientific mind. It was inevitable that they should become a great scientific people. Infantile emotions—self pity, tantrums, romantic urges—are dangerous when combined with technical and organizing capacity. Now—

Mary—Really, John, they are awfully clever.

John—The Germans?

Mary—No, these delphiniums, the way they grow their flowers. Look here. Here's a spike at least nine inches long. See how the full bloom is first on the bottom of the spike and climbs from the bottom up. That's because the blooms at the bottom would get no sun if it started blooming from the top down.

John—They're pretty darned smart aren't they? Anyway, it's great to have a hideout like this where we can forget this terrible war and how most folks seem to feel, and all the rest of it. Where's that old smock of mine—I'm going to tear into these weeds.

Mary—Over on that bench there. I'm going to tie up this wisteria.

John—(Singing, "hi-de-dow-de-diddle-dee-dum-dum," weeding as he sings) This daylight saving is great stuff, get all this nice sunlight—Hey! Mary come here!

Mary—What is it now?

John—Look at that weed. If that isn't a perfect imitation of a delphinium, I'm a Chinaman. They sneaked in here, disguised like delphiniums the minute we did that transplanting. It's the principle of protective form and coloring in nature; if they look just like a delphinium there will be less of a chance of their being pulled up. Now there's your Trojan horse and your fifth column in the garden.

Mary—John, dear, I'm sick of your Trojan horses and your fifth columns. There ought to be a law, against those words. The columnists and the politicians work them to death. You get a new word every once in a while and you make the mistake of thinking you've got something when you haven't. When I get a new flower, I know I've got something.

John—Yes, Mary, and I was saying—

Mary—And just one thing more.

John—Yes?

Mary—Don't forget!

John—Don't forget what?

Mary—Me.

**COOL TELLERS**

ST. PETERSBURG, Fla.—Ever feel sorry for your bank teller who has to wear a collar and tie during the sweltering summer months?

Well, things are different at the Union Trust company here. Employes of the bank wore open-necked sports shirts for one day and the public approved. Now collars and ties are out for the summer.

**HOT WEATHER NOTE**

WINSLOW, Ariz.—An ice famine developed unexpectedly among Charlie Harris' customers and Charlie wasn't able to hold out much hope for immediate relief.

Firmly, he explained that ice or no ice he wasn't going to drive a truckload of bees over the route, and to date he hadn't figured how to get rid of the swarm which selected his truck for living quarters.

**AHUNTING WE GO!**

PHOENIX, Ariz.—Wittman Evans went baboon hunting and to his discomfort almost caught one—or was it the other way around?

Babs, six-year-old baboon, escaped from a private zoo. Evans fired his only two shotgun shells without even frightening her. Then he took refuge in a covered cage, only to discover Babs had that idea first. He jumped out and called sheriff's deputies who captured her.

**MORAL VICTORY**

LINCOLN, Neb.—Sherman Hackenberg of Kansas City shot his gasoline-powered model plane into the air at a recent contest here and watched it sail away so far he couldn't find it.

After seeing other youngsters carry away the prizes, he made a futile search for his plane, then returned home.

His plane, badly damaged, was found five days later in a field 12 miles from the contest site, after making a longer flight than those which copped the prizes.

**HARE LINE DECISION**

BELLEVILLE, Ill.—Sleep-disturbed residents gave police a real puzzler—how to teach howling dogs and rabbits the city limits?

Those who protested didn't object to the nocturnal chase in the country but asked the animals be kept out of Belleville.

Officers decided the easiest solution was to tie up the hounds.

**PUZZLING QUESTION**

## OUR CHILDREN

By Angelo Patri

**NO GUNS FOR CHILDREN**

Shooting at a mark is always challenging but strongly so in childhood and youth. Boys are fascinated by shooting games. I dislike seeing a gun of any description in a child's hands because guns are made for just one purpose, killing. With that idea children can have nothing to do, should never have anything to do.

But the shops show the guns, one with rubber-tipped bullets, and other one with a string tied to the projectile. Arrows are also rubber tipped to assure mothers that they are not dangerous. Well, be that as it may, if one of those rubber missles, or or the rubber-tipped arrows, finds mark on a child's face he is going to think himself hurt. And he might be right.

I should hate to say that all target parctice should be counted out. Many boys become quick and true in their aim, and enjoy their skill in target practice. If one can be sure that the target will be the only mark, and that there will be no "hands up" in the game, it might be allowed. But the assurance that the target shall not be of the human variety must be made doubly sure by the watchful presence of the supervisor or teacher.

**Out Of Sight And Reach**

Somehow a gun, or any of its relatives, stimulates a boy to shoot, or pretend to shoot, his companion. Many a simple target practice has ended in a hunt for the robber bandits, which is not so good. My opinion about the whole matter is that guns should be taken seriously and if boys are to be taught to handle them at all they should learn the art under the watchful eye and skilled hand of the expert. And it is not necessary to begin that training with a boy of five. Make it eighteen, and everybody will feel safer and be safer.

There may be occasions when a gun in the house is necessary, or it may be necessary to have it there always. When this is so it must be kept out of sight and reach of children. Don't take that as a matter of course. Don't let long habit make you careless.

Children take quick action, most unexpected action, at times, and we must be on guard whenever there is a gun anywhere in the house. If they have to know about it let them know too, that it is locked away for safety, and that father himself is afraid to have it about. Don't be loud and grave about a gun when there are youngsters about. They dearly love to be big and brave too, and a gun has great dramatic possibilities.

**Proud But Dangerous**

I never went down three long flights of stairs and across a wide play field as fast in my life as I did the morning little Peter brought his father's revolver to school. There were about two thousand little children scattered over the block, and here was Peter proudly showing his friendsw hat he had.

"'N it's loaded. See?" and he broke open the shining weapon, just as I got to him.

"My, that's a fine gun, Peter. Let me see it?"

He gladly handed it over for my inspection. Father had laid it on top of his dresser and had forgotte to pick it up again as he usually did, and Peter got there first. We can't help having a few lapses of memory because we are human, but we can try mighty hard to remember about guns, big or little, toy or in earnest. They're bad things to have in the family.

## Sunday School Lesson

**SUNDAY SCHOOL LESSON FOR JULY 7**

By William E. Gilroy, D. D.
(Editor of Advance)

Text: Job 2:1-13

The lessons for the third quarter are found in messages from the poets and they begin with three lessons from the book of Job.

These lessons have peculiar timeliness, in view of the present world situation of disaster and suffering in which the problems of Faith and Providence are greatly stressed.

It is true that the book of Job deals with these things as they affect an individual, greatly afflicted and perplexed alike by his sufferings and by the quick and ready-made philosophies with which his friends tried to soothe and help him.

The problem becomes all the more acute when we see it on a vast scale where hundreds of thousands of lives are affected, and whole communities, and even countries, of innocent people are going down with the loss of their goods, the wiping out of the foundations of their daily living, and in many instances bodily injury or actual loss of life. Yet, this vast problem of social disaster comes home to each individual as a problem that he inevitably faces for himself.

As of old, we meet the problem with vain questionings and with vain philosophies. "Why does God permit war?" men ask. A woman is reported as saying that if the Germans swept over peaceful Holland, she would lose her faith in God. It is things of this sort that emphasize the problem which was present to the writer of the Book of Job, and the problem which is emphasized in our lesson which deals with Job's temptation to doubt God's goodness.

We should remember that the Book of Job is a poem, a drama, in which the questionings and answers are brought out through the action and discussion between the personalities. We are not reading the account of something that actually took place, although we are reading a poet's conception of what does really happen in some form in life.

The problem that Job confronted confronts every thoughtful individual. If he is personally assailed by similar afflictions, he is bound to have Job's questionings, and he will be fortunate if he does not have Job's doubts. If he is free from personal affiction, he must surely be blind to the sufferings of his fellowmen, and especially to what innocent people undergo of tragedy, if he is not moved to consider the problem of evil and the problem of pain.

It is perhaps worth while to note that Job never found any real solution to this problem. What he did attain was an attitude of faith that enabled him to say, "Though He slay me, yet will I trust Him." It is doubtful whether there is any solution other than the solution of faith. It was in something of Job's spirit that Christ cried in His agony in the garden, "Father, if it be possible, let the cup pass." Yet, His supreme concern was that the will of God should be done, and He went to the cross in the courage of faith, believing that it was God's way.

The mystery of suffering has never been made plain, and the solutions that modern optimists offer those in affliction are not much more satisfactory than those offered Job of old.

What does help us is the realization that men and women who have suffered greatly have lived lives of great usefulness and helpfulness toward others, and that even where nations have suffered and perished, they have given to the world a heritage of truth and right and liberty.

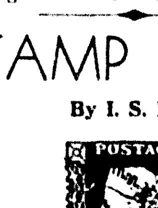
**TOO MANY BIG WORDS IN CHILDREN'S BOOKS**

NORMAN, Okla.—(AP)—After 12 years' study, Dr. Henry Rinsland of University of Oklahoma has concluded many grade school texts are written above the vocabulary range of children.

Writings of 270,000 children in 708 schools were sampled, and more than 6,000,000 words were studied in the survey. Dr. Rinsland says that from the studies will come a children's dictionary, and a basic vocabulary for writing books for children.

## STAMP NEWS

By I. S. Klein



**Britain's Penny Black Started Stamp Parade**

ONE HUNDRED years ago, on May 1, 1840, Great Britain's famous Penny Black, the first adhesive postage stamp, reproduced above, was placed on sale at London. Although not valid for postage until May 6, the stamps sold well, and receipts of $12,500 were recorded on the second day. About half the letters mailed on May 6 bore stamps.

The idea of the adhesive postage stamp was conceived by Sir Rowland Hill, ardent advocate of British postal reform and father of penny postage. The design of the Penny Black was from a commemorative medal picturing 18-year-old Queen Victoria.

The Penny Black remained on sale for nine months, when the color was changed to red, to make cancellation easier.

Although it was the first stamp, the Penny Black is not a rare stamp today. Single used values are common, but unused stamps and used blocks are eagerly sought by collectors.

One man's word is no man's word; we should quietly hear both sides.—Goethe.

## Defense Moves Forward

We as a people are extremists. We are either 'way up or 'way down. We go all the way.

That is not without its advantages in a world which runs with emotion for gasoline. But it has its failings.

It is necessary to rise to high pitches of emotion and enthusiasm. But it is also necessary to follow through—to set a goal and hold grimly to it after the initial enthusiasm begins to ebb away.

Take the matter of defense, for instance. For 20 years, right in the face of a Europe and Asia that were feverishly preparing for the wars that now desolate both, we yawned, and allowed that it was all pretty terrible but it couldn't touch us. During all those 20 years we never built a battleship. We let the army go to seed. We held our air forces, good though they were in quality, down to minimums.

War came to Asia, then to Europe. Even for the first six months of Europe's war we dawdled. "Phony!" some said. Plenty of time.

Then, in all its fury the war broke bounds. Hullabaloo! Hysteria! Lid-off appropriations! All of a sudden, quick like a bunny, we were going to grind out 5,000 airplanes a day from one plant. Nobody even stopped to multiply that by 300 and to realize that it means a million and a half planes in a year, requiring three million pilots and ground staffs of 15,000,000.

Now we are settling down to reality. Level-headed General Marshall, the chief of staff, has pointed out that we have two problems of defense, not one. The first is to get into some kind of formation the defense forces we now have. This is already being done. Bases have been reinforced and further protected. Small forces have been assembled and consolidated into effective units. Reserve officers, of whom we fortunately have a sizable force, are being called up. National Guard training is rapidly being placed on a realistic basis. The country's readiness for an instant emergency is far greater than it was even six weeks ago.

But no long-term program can possibly be ready in time to affect the outcome of Europe's present crisis. That program is aimed at enabling the United States to live in comparative security in whatever kind of world emerges from the present. That is where the follow-through comes in.

### PUBLIC SERVICE 'INTERNES'

Training for public service as one trains for professional service is an ideal much discussed but seldom achieved. For it has been a sort of tenet of government in the United States that the public service is the only kind of service that requires no special training or even aptitude of any kind.

Through the colleges a way is being found to cut into this unintelligent tradition. In Wisconsin, under Governor Phil LaFollette, arrangements were made to take specially qualified students at the state university into state service. And in Los Angeles another experiment has now been operating for seven years. A series of "apprenticeships" by "student technicians" have been opened in both city and county governments, enabling students to get part-time work while studying, and usually full-time work for about a year thereafter. Qualified then both by training and experience, the graduates have usually found it easier to get permanent work in public administration of some kind.

Public service will be more and more important in the years to come, whether we like it or not. There is no reason why it should not be trained and intelligent service.

### SANCTUARY

How all-inclusive the war has become with no place of rest for a refugee in Europe, unless it is in Portugal or Switzerland, neither too secure, appears vividly in the arrival of Holland's Crown Princess Juliana in Canada.

It has been more than a hundred years since a situation overseas has been so unstable that no haven was to be found there by those fleeing the misfortunes of war. In the first World war Holland played a distinguished role in affording sanctuary to the kaiser, who certainly deserved a worse fate.

At the time of the collapse of the Napoleonic adventure some members of the house of Bonaparte—as Napoleon termed the assorted riffraff that composed his relatives—found no continent comfortable save America and so came here. If history has it right Napoleon himself had escape to the United States in mind. A house in the old French section of the city of New Orleans was long pointed out as the dwelling place prepared for him.

Circumstances over which he had no control consigned the tiny but colossal Corsican to a much more humble home on Saint Helena.

As they attempt to divide the world between them, Mussolini is making a lot of gestures but the hand on the carving knife is Hitler's.

## • BRUCE CATTON IN WASHINGTON

WASHINGTON—Barring early adjournment of congress chances are good that the sweeping Wagner act revisions voted by the house of representatives will become law.

Until recently, friends of the Labor Board assumed it didn't matter much what the house did . . .that the senate firmly in control of the administration would block any really hostile action.

Then the picture changed.

Outstanding element in the change was the letter sent to Chairman Howard Smith of the Labor Board Investigating Committee by President William Green of the A. F. of L., in which Green gave his support to the Smith amendments.

By taking the stand Green not only stole a long march on the C. I. O., but also served notice on A. F. of L., friends in both houses that he was in effect abandoning the Labor Board to its fate.

**Then Came Rapprochement**

Another element was the strange apathy in the administration. Until very recently the administration was firmly set on blocking any sweeping revision of the law. Then came the famous rapprochement between the White House and the conservative southern Democrats.

Senator Byrnes of South Carolina was all but publicly crowned as heir apparent to the vice presidency. Senator Harrison of Mississippi plugged for a third term. F. D. R., patted Martin Dies approvingly on the back . . . and administration opposition to the Smith proposals lost its punch

Mary Norton, who fought the fight for the Labor Board in the house was giving away no secrets when she complained the administration had been letting the battle go by default.

Meanwhile the situation stands as a distinct triumph in strategy for Congressman Smith. Throughout he played his cards masterfully.

He began his hearings last fall by questioning the board's moderate members, Dr. William Leiserson and bringing out the full story of dissension within the board.

He spent days bringing out evidence stressing the youthfulness and inexperience of many board employes who had kept positions in administering the law.

Most important, he took full advantage of the split within the board by centering his heaviest fire on the person of David Saposs, head of the research division. Defenders of the board were promptly divided into pro- and anti-Saposs camps.

While they rowed bitterly over a basically unimportant point Smith plugged away at his main target—fundamental revision of the law and abolition of the board as it now stands.

**Board Itself Helped Bring Change**

Should the amendments become law, both the board and the Wagner act would be entirely different. First, there would be a brand-new board of five members. Second, and far more important, the board's judicial and prosecuting functions would be completely divorced, with an administrator handling the latter and the board confined to passing on the evidence submitted by him.

Close friends of the board complain that these changes would emasculate the whole act. Whether or not this is true, it is certain that by refusing to heed criticism, by steering unskillfully through the A. F. of L-C. I. O. split and by devoting its energies to its own internal row, the board has done much to bring on the change.

## JIMMIE FIDLER In Hollywood

HOLLYWOOD, June 29.—Dear Staff: There's fodder for anti-double-billing arguments in the wail of a chap who lives on my street. Both he and his wife are movie fans. Given worth while screen fare, they like to go to the theater three or four times every week. They have no quarrel with the top-notch films now being produced in profusion—but they're being kept away from the box office by double billing.

Almost invariably, he points out, the picture they want to see on any dual program plays first. In order to be there for the opening scenes, they would have to be in the theater by approximately 6:30—and that's impossible since he never gets away from his office before 6 o'clock. If, on the other hand, they go for the final showing, they can't get home until nearly midnight—and he doesn't like to be out that late since he starts work at 8 a.m., takes his job seriously and knows that loss of sleep impairs his efficiency. The third alternative, getting in mid-way through the show, he refuses because it spoils the picture's entertainment value.

I wonder how many American families are staying away from the movies for the same reasons? Enough, I think, to turn box-office profit into box-office disaster. Producers, exhibitors and film salesmen know that dual billing is bad business—individually, they all admit the facts; collectively, they refuse to get together and do something to remedy the situation.

It's all very stupid.

JIMMIE FIDLER.

Dear Boss: Who ever heard of movie big shots getting together on anything? The idea's so absurd that we'll just pass on to the day's gossip and news without wasting comment.

Richard Dix, who's always declared that if his twins become actors 'twill be without his aid, has refused a five-grand bid from Harry Sherman for the boys' services in "Cherokee Strip." . . . Hollywood will learn the meaning of blitzkrieg when it ganders John Beverly's soon-to-be-published tome, "Power and Glory," which shows moviedom no mercy. . . . It's agent Myron Selznick, not hubby Charles Chaplin, who's kicking up a rumpus anent salary terms on which Paramount loaned Paulette Goddard. . . . Why all this foreboding about production curtailment? Metro will have nine pics, all colossals, before the cameras by next week-end!

Eye-gleam analysts in NY insist we should keep a pulse check on Martha Raye and Lionel Stander who've been dating steadily. . . . George Raft, who gains weight each springtime, is Hot Springs-bound to drop at least 15 unwanted pounds. . . . Fay Holden's 26th wedding anniversary was brightened by news that her kid brother, reported missing in the Flanders debacle, has reached England safely. . . . Today's Time-Marches-On note: One-time greats Betty Blythe, Bryant Washburn and Herbert Rawlinson chatting unnoticed in a Republic sound stage corner while visitors focus stares on Johnny Downs.

Spencer Tracy, who recently jaunted east to accept an honorary degree from Ripon college, tells about an elderly westerner who was simultaneously given the same honor for distinguished service as a railroad builder. "Hope we'll be going back on the same train," said Spence, who had found the oldster's conversation interesting. "Train?" snorted the railroad builder. "I haven't ridden a train for 20 years. I fly!"

It's Henry Wilcoxon who's slated for the prize lead in C. B. DeMille's "Reap the Wild Wind." . . . Myrna Loy is planning another visit to her old home town, Helena, Mont. . . . Real reason why Marjorie Weaver gifted her mother with a new car was that mama, driving Marjorie's own car, had run up $90 worth of repair bills in two weeks. . . . With millionaire Alex Thompson flying here to see Betty Grable, his estranged Mrs. left Hollywood, reputedly for Reno and a divorce. . . . Tyrone Power, who's been too busy to use it, has rented that amphibian plane to a commercial company for Catalina passenger service. . . . Looks like a tough summer for Jane Withers—20th Century execs plan to rush her through three pics before resumption of school work again takes half her set-time. . . . Boss, you should have shared our table at the Grace Hayes Lodge the other night—and listened in while Wayne and Bubbles Morris dished out baby advice to prospective parents Ronald Reagan and Jane Wyman.

N. T. G., Florentine Gardens impresario, has nixed an offer from Producer Joe Pasternak, who wanted him for Gloria Jean's next. . . . Renie Riano is revising a book of her poems, published in Australia, for an American printing. . . . Elaine Barrie Barrymore, who's been flu-ing these past three weeks, is up and around. Maybe she'll help the great J. B. sort the toys friends sent him when he was assigned Shirley Temple's dressing room.

### DIALOGUE IN A GARDEN

Mary—I'm glad you caught the four-forty-four. It's so nice here in the garden. You can forget all about wars and politics and money.

John—That's just how I feel. Everything looks so scary everywhere in the world, but here we've got a beautiful little world of our own and we don't need to think about all this trouble. Let's take this path down to the delphiniums.

Mary—Isn't that a heavenly blue! Those are the biggest spikes our delphiniums ever had.

John—Great! (He stops to examine one of the flowers; puts on his glasses and looks at the blossom long and intently.)

Mary—What's the matter? Are the red spiders on them again?

John—No, it isn't that. I was just thinking about this little spur on the flower. That's why the Germans call the delphinium "hennenspuren," or hen-spur.

Mary—Yes? But what of it?

John—Well, I hadn't thought of it until the last few weeks but you know the Germans make words that way, like "hand shoe" for glove. They just put two or three things together to make up a word. They pile up sentences that way, too. You remember Mark Twain saying that they made a sentence as if they were stuffing things into a carpet bag. Now about the Germans—

Mary—I think that compost I put in last year helped them a lot.

John—(startled) The Germans?

Mary—No—the delphiniums, of course.

John—Well, as I was going to say, German etymology shows they are the most literal people in the world. But they are also romantic. That is essentially a juvenile combination.

Mary—That reminds me; I forgot to tell you that Junior has lost his dental brace again.

John—Yes? Well, take Junior for instance. Do you remember when he was just learning to talk he built up words just like the Germans. You know—that way he had of calling a brush a 'hair-broom,' when he was just learning to talk. It is essentially an infantile trait. But this literalness goes with the scientific mind. It was inevitable that they should become a great scientific people. Infantile emotions—self pity, tantrums, romantic urges—are dangerous when combined with technical and organizing capacity. Now—

Mary—Really, John, they are awfully clever.

John—The Germans?

Mary—No, these delphiniums, the way they grow their flowers. Look here. Here's a spike at least nine inches long. See how the full bloom is first on the bottom of the spike and climbs from the bottom up. That's because the blooms at the bottom would get no sun if it started blooming from the top down.

John—They're pretty darned smart aren't they? Anyway, it's great to have a hideout like this where we can forget this terrible war and how most folks seem to feel, and all the rest of it. Where's that old smock of mine—I'm going to tear into these weeds.

Mary—Over on that bench there. I'm going to tie up this wisteria.

John—(Singing, "hi-de-dow-de-diddle-dee-dum-dum," weeding as he sings). This daylight saving is great stuff, get all this nice sunlight—Hey! Mary come here!

Mary—What is it now?

John—Look at that weed. If that isn't a perfect imitation of a delphinium, I'm a Chinaman. They sneaked in here, disguised like delphiniums the minute we did that transplanting. It's the principle of protective form and coloring in nature; if they look just like a delphinium there will be less of a chance of their being pulled up. Now there's your Trojan horse and your fifth column in the garden.

Mary—John, dear, I'm sick of your Trojan horses and your fifth columns. There ought to be a law, against those words. The columnists and the politicians work them to death. You get a new word every once in a while and you make the mistake of thinking you've got something when you haven't. When I get a new flower, I know I've got something.

John—Yes, Mary, and I was saying—

Mary—And just one thing more.

John—Yes?

Mary—Don't forget!

John—Don't forget what?

Mary—Me.

### COOL TELLERS

ST. PETERSBURG, Fla.—Ever feel sorry for your bank teller who has to wear a collar and tie during the sweltering summer months?

Well, things are different at the Union Trust company here. Employes of the bank wore open-necked sports shirts for one day and the public approved. Now collars and ties are out for the summer.

### HOT WEATHER NOTE

WINSLOW, Ariz.—An ice famine developed unexpectedly among Charlie Harris' customers and Charlie wasn't able to hold out much hope for immediate relief.

Firmly, he explained that ice or no ice he wasn't going to drive a truckload of bees over the route, and to date he hadn't figured how to get rid of the swarm which selected his truck for living quarters.

### AHUNTING WE GO!

PHOENIX, Ariz.—Wittman Evans went baboon hunting and to his discomfort almost caught one—or was it the other way around?

Babs, six-year-old baboon, escaped from a private zoo. Evans fired his only two shotgun shells without even frightening her. Then he took refuge in a covered cage, only to discover Babs had that idea first. He jumped out and called sheriff's deputies who captured her.

### MORAL VICTORY

LINCOLN, Neb.—Sherman Hackenberg of Kansas City shot his gasoline-powered model plane into the air at a recent contest here and watched it sail away so far he couldn't find it.

After seeing other youngsters carry away the prizes, he made a futile search for his plane, then returned home.

His plane, badly damaged, was found fve days later in a field 12 miles from the contest site, after making a longer flight than those which copped the prizes.

### HARE LINE DECISION

BELLEVILLE, Ill.—Sleep-disturbed residents gave police a real puzzler—how to teach howling dogs and rabbits the city limits?

Those who protested didn't object to the nocturnal chase in the country but asked the animals be kept out of Belleville.

Officers decided the easiest solution was to tie up the hounds.

## OUR CHILDREN

By Angelo Patri

### NO GUNS FOR CHILDREN

Shooting at a mark is always challenging but strongly so in childhood and youth. Boys are fascinated by shooting games. I dislike seeing a gun of any description in a child's hands because guns are made for just one purpose, killing. With that idea children can have nothing to do, should never have anything to do.

But the shops show the guns, one with rubber-tipped bullets, and other one with a string tied to the projectile. Arrows are also rubber tipped to assure mothers that they are not dangerous. Well, be that as it may, if one of those rubber missles, or or the rubber-tipped arrows, finds mark on a child's face he is going to think himself hurt. And he might be right.

I should hate to say that all target parctice should be counted out. Many boys become quick and true in their aim, and enjoy their skill in target practice. If one can be sure that the target will be the only mark, and that there will be no "hands up" in the game, it might be allowed. But the assurance that the target shall not be of the human variety must be made doubly sure by the watchful presence of the supervisor or teacher.

**Out Of Sight And Reach**

Somehow a gun, or any of its relatives, stimulates a boy to shoot, or pretend to shoot, his companion. Many a simple target practice has ended in a hunt for the robber bandits, which is not so good. My opinion about the whole matter is that guns should be taken seriously and if boys are to be taught to handle them at all they should learn the art under the watchful eye and skilled hand of the expert. And it is not necessary to begin that training with a boy of five. Make it eighteen, and everybody will feel safer and be safer.

There may be occasions when a gun in the house is necessary, or it may be necessary to have it there always. When this is so it must be kept out of sight and reach of children. Don't take that as a matter of course. Don't let long habit make you careless.

Children take quick action, most unexpected action, at times, and we must be on guard whenever there is a gun anywhere in the house. If they have to know about it let them know too, that it is locked away for safety, and that father himself is afraid to have it about. Don't be loud and grave about a gun when there are youngsters about. They dearly love to be big and brave too, and a gun has great dramatic possibilities.

**Proud But Dangerous**

I never went down three long flights of stairs and across a wide play field as fast in my life as I did the morning little Peter brought his father's revolver to school. There were about two thousand little children scattered over the block, and here was Peter proudly showing his friendsw hat he had.

"'N it's loaded. See?" and he broke open the shining weapon, just as I got to him.

"My, that's a fine gun, Peter. Let me see it?"

He gladly handed it over for my inspection. Father had laid it on top of his dresser and had forgotten to pick it up again as he usually did, and Peter got there first. We can't help having a few lapses of memory because we are human, but we can try mighty hard to remember about guns, big or little, toy or in earnest. They're bad things to have in the family.

## Sunday School Lesson

**SUNDAY SCHOOL LESSON FOR JULY 7**

By William E. Gilroy, D. D.
(Editor of Advance)

Text: Job 2:1-13

The lessons for the third quarter are found in messages from the poets and they begin with three lessons from the book of Job.

These lessons have peculiar timeliness, in view of the present world situation of disaster and suffering in which the problems of Faith and Providence are greatly stressed.

It is true that the book of Job deals with these things as they affect an individual, greatly afflicted and perplexed alike by his sufferings and by the quick and ready-made philosophies with which his friends tried to soothe and help him.

The problem becomes all the more acute when we see it on a vast scale where hundreds of thousands of lives are affected, and whole communities, and even countries, of innocent people are going down with the loss of their goods, the wiping out of the foundations of their daily living, and in many instances bodily injury or actual loss of life. Yet, this vast problem of social disaster comes home to each individual as a problem that he inevitably faces for himself.

As of old, we meet the problem with vain questionings and with vain philosophies. "Why does God permit war?" men ask. A woman is reported as saying that if the Germans swept over peaceful Holland, she would lose her faith in God. It is things of this sort that emphasize the problem which was present to the writer of the Book of Job, and the problem which is emphasized in our lesson which deals with Job's temptation to doubt God's goodness.

We should remember that the Book of Job is a poem, a drama, in which the questionings and answers are brought out through the action and discussion between the personalities. We are not reading the account of something that actually took place, although we are reading a poet's conception of what does really happen in some form in life.

The problem that Job confronted confronts every thoughtful individual. If he is personally assailed by similar afflictions, he is bound to have Job's questionings, and he will be fortunate if he does not have Job's doubts. If he is free from personal affiction, he must surely be blind to the sufferings of his fellowmen, and especially to what innocent people undergo of tragedy, if he is not moved to consider the problem of evil and the problem of pain.

It is perhaps worth while to note that Job never found any real solution to this problem. What he did attain was an attitude of faith that enabled him to say, "Though He slay me, yet will I trust Him." It is doubtful whether there is any solution other than the solution of faith. It was in something of Job's spirit that Christ cried in His agony in the garden, "Father, if it be possible, let the cup pass." Yet, His supreme concern was that the will of God should be done, and He went to the cross in the courage of faith, believing that it was God's way.

The mystery of suffering has never been made plain, and the solutions that modern optimists offer those in affliction are not much more satisfactory than those offered Job of old.

What does help us is the realization that men and women who have suffered greatly have lived lives of great usefulness and helpfulness toward others, and that even where nations have suffered and perished, they have given to the world a heritage of truth and right and liberty.

### TOO MANY BIG WORDS IN CHILDREN'S BOOKS

NORMAN, Okla.—(AP)—After 12 years' study, Dr. Henry Rinsland of University of Oklahoma has concluded many grade school texts are written above the vocabulary range of children.

Writings of 270,000 children in 708 schools were sampled, and more than 6,000,000 words were studied in the survey. Dr. Rinsland says that from the studies will come a children's dictionary, and a basic vocabulary for writing books for children.

### Britain's Penny Black Started Stamp Parade

ONE HUNDRED years ago, on May 1, 1840, Great Britain's famous Penny Black, the first adhesive postage stamp, reproduced above, was placed on sale at London. Although not valid for postage until May 6, the stamps sold well, and receipts of $12,500 were recorded on the second day. About half the letters mailed on May 6 bore stamps.

The idea of the adhesive postage stamp was conceived by Sir Rowland Hill, ardent advocate of British postal reform and father of penny postage. The design of the Penny Black was from a commemorative medal picturing 18-year-old Queen Victoria.

The Penny Black remained on sale for nine months, when the color was changed to red, to make cancellation easier.

Although it was the first stamp, the Penny Black is not a rare stamp today. Single used values are common, but unused stamps and used blocks are eagerly sought by collectors.

# GLADNEY SEEKS CONGRESS POST

### Prominent Bastrop Man To Enter September Primary For Nomination

Edward L. (Boots) Gladney, of Bastrop, announced yesterday that he will be a candidate for the Democratic nomination for United States representative from the Fifth congressional district in the September 10 primary.

Mr. Gladney was born at Bastrop on September 16, 1898, is married and the father of two boys. He is active in the Episcopal church at Bastrop. He graduated from Tulane university in 1921 with an A. B. and an L. L. B. degree. He is an attorney and has had 19 years of active experience with problems of agriculture, industry and labor.

Mr. Gladney is immediate past commander of the Louisiana department of the American Legion and is past president of the Fourth Judicial District Bar association. He has been an active worker in the American Red Cross and is titular head of Pelican Boys' state, a citizenship school for high school boys. He served in the United States army during the World war and as state chief of the aircraft warning service, he created and headed the civilian organization in 60 parishes in the late war maneuvers. He served as chairman of the defense committee of the largest veterans' organization in the state.

In announcing his candidacy, Mr. Gladney issued the following statement:

"What counts to the average American is his freedom of thought, of action and of leisure and the security of his home and family. Short-sightedness and sacrifice of these—as dear as life itself—to his immediate interests may cause him to pay a fearful price. France today is a tragic example of such short-sightedness of yesterday.

"Should you elect me to congress I pledge you that I shall always remain an American first, true to my sense of duty and shall treat my office as a place of trust. I shall need, expect and ask your counsel and assistance. I shall always remember that I am your servant and not your master, nor shall I yield to party or personal interest my responsibility to you, the people.

"I favor and advocate an extension of certain social reforms, but such must be in keeping with our American way of life, and subordinate to an adequate program of preparedness.

"I believe that individual opportunity for free enterprise is necessary for fair treatment of industry, and unreasonable shackles placed on business by legislation or administration must be removed. Conservation of the natural resources of this great nation must be protected not only for economic reasons, but for reasons of national security. The soil that sustains life for the many million people of the United States is one of the most important of our natural resources. In these and many other ways our federal government can help keep democracy from being outmoded and outworn. We must indeed progress and not remain static.

"Governments are of two general types, either the government is the servant of the people, or the people are servants of the government. We readily place America in the first type and our potential enemies in the second type."

# RUSTON CHARGES 'LYING DORMANT'

### Charges Against Four May Be Presented To Attorney General

RUSTON, La., June 29—(Special)—Lincoln parish grand jury indictments in connection with charges pertaining to the construction of Louisiana Tech's administration building are still "lying dormant" with respect to others than former Governor Richard W. Leche who was absolved of guilt by a trial jury here this week.

District Attorney Truett L. Scarborough said today that he is "undecided" regarding procedure to follow in disposal of the remaining indictments in the Tech case but added that he "might confer with the state attorney general's office" in the near future.

Leche was tried first and separately from four others named in confidence game and false pretenses indictments. The others are Leon C. Weiss, F. Julius Dreyfous and Solis Seiferth, New Orleans architects, and Monte E. Hart, member of the firm of Caldwell Bros. and Hart, New Orleans contractors. The latter four were also charged in an indictment with "unlawfully receiving and having in their possession $55,955" in connection with the Tech case. None of the four have been formally arraigned in any of the case.

Leche was acquitted on a charge of complicity in an alleged confidence game growing out of the administration building contract. The parish grand jury, returning the indictment last September, also billed Leche on a charge of allegedly obtaining $27,000 "under false pretenses." The latter indictment, Scarborough said, was nolle prossed following Leche's acquittal this week.

CHAPTER VII

When Francie emerged from her cabin next morning, Gusty and Mr. Weston were talking. Her heart sank. Was Gusty reporting his loss? She circled the cabins and hurried into the restaurant without being seen.

Aunt Hat looked up from her eggs and sausage. "What a night! I'm as weak as a rag. Francie, dear, I've been meaning to ask you. You haven't lied to me about the ticket?"

"I—I've got it, Aunt Hat," Francie gulped. "But—"

John Weston entered, wiping his brow. "That boy's got Lucifer's own pride. [illegible] take the money for his cabin."

Francie sighed. "Is . . . that all you talked about?"

Mr. Weston nodded. "Except that I finally persuaded him to be my guest at breakfast. He needs a good meal to get his strength back. He wouldn't eat if he had to pay for it himself."

Gusty came in, minus his usual swagger. His cheeks were still pale, his eyes shadowed. He sat down unsteadily and picked up a menu.

"Never mind that, son," John Weston's eyes twinkled. "I've ordered for you."

Gusty grinned. "Thanks. Guess I need some grub."

The meal was eaten amidst a frosty silence provided by Francie and Aunt Hat. Gusty arose, stumbling over his chair. He passed his hand across his forehead.

"Holy smokes, I'm dizzy as a bat! I'll be driving the old bus around in circles. Any chance of sparing me a driver, Mr. Weston?"

Francie said stubbornly, "I'm not going—"

Mr. Weston took his daughter aside. "I don't intend to argue, Francie. Quarrel or no quarrel, you're to drive Gusty's car for him."

"But—"

"Francie!"

"All right, Pops."

"That's better. We'll hit the little mountain town of Circle about sundown. There's a good hotel listed. You and Gusty can meet us there."

• • •

Presently Francie was rattling westward in Gusty's old roadster. She drove with her chin set at a defiant angle. Gusty slumped on the end of his spine, his feet straight out. In silence he watched the wind whip little tendrils of amber hair from under Francie's bright scarf.

"Aren't you gonna talk?" he demanded finally.

"Why should I?"

"Aw, look, Francie, don't be sore. I shouldn't have popped off last night. You and your dad were swell to me. I told him so, too."

Francie could feel the familiar softening process going on in her heart. She fought it off with a terse, "Skip it."

"Nothing doing. It took a lot of gu—nerve to whang Blubber over the head. I like girls with gu—nerve. Gee, Francie, all we've done lately is scrap. We didn't use to."

"No, we didn't."

"There's just no sense in it," Gusty declared gravely.

They were silent a moment, staring off into the distance. The road stretched ribbon-white across miles of prairie and finally curved into a range of smoke-blue mountains.

"No, there isn't . . ."

Gusty said, "Funny how it all started over that ticket." The roadster swerved. "Hey, what's wrong?"

"N-nothing," Francie said. "Nothing at all."

"You see, it's like this," Gusty continued. "I figure it's a man's place to have the career. That's why I grabbed the ticket. Now take us: suppose we, well, wanted to get married—"

"Married!" Francie's heart beat a wild, joyous, rhythm. "Why, Gusty Gair . . ."

"Oh, sure, it's a silly idea. It's corny. But, gosh, I'm only trying to make a point. Just suppose. You wouldn't want to be a famous star and have a garage mechanic for a husband. No, sir! A man's place is at the head of his family, I say."

"You—you mean that's why you took the ticket?" Francie asked. "Because you wanted to make good for me?"

"Well, I . . ." Gusty reddened. "I wouldn't exactly say that, but . . ."

"It was, Gusty!" Francie cried.

"Okay, it was then," Gusty said gurffly. "You'd better watch your driving."

Suddenly Francie felt as if the ticket were a red mark of shame, a scarlet letter branded upon her. Gusty was a pure knight facing all kinds of hardships for her sake. Oh, why hadn't she realized it before?

Gusty said, "You'd better stop at the next gas station."

Francie obeyed, trembling. When he paid she held her breath. But Gusty didn't look into the part of his wallet where the ticket had been.

Weak with relief, Francie thought, "Nothing must spoil this perfect day."

They drove on, and Gusty, still in a mellow mood, talked. He spoke sorrowfully of the trumpet pin. He'd searched around the camp for it. He sure hated to lose it. Francie told herself she'd hold it for safekeeping until they reached Hollywood, then surprise Gusty.

The afternoon sped by with the miles. It was a perfect day, one Francie would never forget. Not once did Gusty lapse into his role of braggart. Even his donkey laugh was muted. When they stopped for lunch Gusty paid for the hamburgers. He even assisted Francie from the car.

At dusk they reached the mountain range and began a hard climb. Gusty's dizzy spell had long since passed and he was driving. Great barren masses of rock reared upon either side of them as they twisted over a road cut from solid stone.

Francie said, "Gusty, look! Isn't it lovely?"

The moon hung like a huge golden ornament from the topmost peak of the mountain. It laid a thin saffron light over the rugged slopes, making them soft and unreal.

"Boy, that is something!" Gusty agreed. "Let's stop and watch a few minutes."

He pulled the roadster partially off the pavement, drew Francie close. The air was crisp, fragrant. It was just like the night at the airport, only far more romantic.

"Makes you feel kinda small, don't it?" Gusty muttered.

Francie bobbed her head in perfect contentment. She turned her face upward, putting her lips in the most accessible position. Gusty had never kissed her, but tonight she felt that even the most impossible dreams might come true.

"We'll never scrap again, will we?" Gusty said.

"No, Gusty, never." But even as she said it, Francie was frightened. A tiny square of pasteboard cast a huge black shadow over this perfect moment . . . She hesitated, then said faintly, "Gusty, why . . . why don't . . . I mean, wouldn't you like to kiss me?"

"Holy smokes, I—" Gusty bent awkwardly, but his lips never touched Francie's.

• • •

A car had drawn up behind them. Shattering the silence, a heavy voice said, "Hey, what goes on here?" The beam of a flashlight blinded them. "So a necking party? Havent you kids any sense parking here?"

Gusty bridled. "Hold your horses, mister. We're moving right on."

A burly state trooper approached the car. "Suppose somebody came around that curve and didn't see you? You guys from the east ain't got much sense."

"Maybe you western hicks got it all," Gusty fired back.

"Please, Gusty," Francie begged. "He's liable to arrest us."

"Wise young fellow, eh?" the trooper said. "I'd better take you in to Circle and cool you down."

"We're going right away, officer," Francie said. "We didn't mean to—"

Gusty said, "Sure, we wouldn't take your lousy old mountain as a gift!"

"Okay, lad, I've had enough of your lip. I'll follow you in. Ten bucks and a night in the clink may teach you some manners."

"Oh, Gusty," Francie wailed, "why did you have to get smart? You—you can't afford to pay a fine."

White-lipped, Gusty hardened his face into its "so-what?" mask. "I—I'll get to Hollywood all right, Francie. Don't you worry!"

# SWALLOWS NICKEL, DOCTORS REMOVE IT

Miss Ernestine Le Vasseur, 10-year-old daughter of Patrolman and Mrs. Ernest N. Le Vasseur, 207 Malvern street, Monroe, told her mother Saturday afternoon about 4 o'clock that her throat hurt her, the family reported.

Mrs. Le Vasseur immediately called her husband and he took Ernestine to the Vaughn-Wright-Bendel clinic, where X-ray pictures showed that the girl had swallowed a nickel and it was lodged in her throat.

Dr. J. P. Brown and assistants extracted the nickel and Ernestine wanted to go home, her father said. Ernestine is suffering no ill effects from the accident and will be able to go home Sunday, he added.

# D. Y. SMITH IN SEPTEMBER RACE

### State Senator To Seek Nomination For United States Representative

State Senator D. Y. Smith of Sterlington, who last winter waged a successful campaign for nomination for senator from the 29th district, announced yesterday that he would enter the coming campaign for United States representative from the Fifth congressional district.

Senator Smith, who returned here yesterday from Baton Rouge, issued the following statement regarding his candidacy:

"In response to the many inquiries and solicitations from my friends all over the district I desire to announce at this time that I shall be a candidate for the office of representative in congress from the Fifth congressional district in the primary election to be held in September.

"For the past several weeks my undivided time and attention have been devoted to the task of representing my senatorial district in the legislature which is now in session, and until the legislature has completed the important tasks with which it is confronted, I shall not engage in any active campaign for congress. I had in fact intended to defer making any decision with reference to this race until after the legislature's adjournment, but the demands that I submit myself for this office and that I make immediate announcement of my intention to do so have become so insistent that in justice to my friends and supporters all over the district I am making my announcement at the present time.

"Naturally I shall continue to devote myself solely to the solution of the problems which the legislature is facing and this will delay my formulating and announcing any detailed statement of my aims as your representative. But I do wish to state at this time that my campaign for this office will be conducted upon the same broad principles of independent representation [illegible]

"I urge [illegible]

# GLADNEY SEEKS CONGRESS POST

### Prominent Bastrop Man To Enter September Primary For Nomination

SEEKS OFFICE

E. L. GLADNEY

Edward L. (Boots) Gladney, of Bastrop, announced yesterday that he will be a candidate for the Democratic nomination for United States representative from the Fifth congressional district in the September 10 primary.

Mr. Gladney was born at Bastrop on September 16, 1898, is married and the father of two boys. He is active in the Episcopal church at Bastrop. He graduated from Tulane university in 1921 with an A. B. and an L. L. B. degree. He is an attorney and has had 19 years of active experience with problems of agriculture, industry and labor.

Mr. Gladney is immediate past commander of the Louisiana department of the American Legion and is past president of the Fourth Judicial District Bar association. He has been an active worker in the American Red Cross and is titular head of Pelican Boys' state, a citizenship school for high school boys. He served in the United States army during the World war and as state chief of the aircraft warning service, he created and headed the civilian organization in 60 parishes in the late war maneuvers. He served as chairman of the defense committee of the largest veterans' organization in the state.

In announcing his candidacy, Mr. Gladney issued the following statement:

"What counts to the average American is his freedom of thought, of action and of leisure and the security of his home and family. Short-sightedness and sacrifice of these—as dear as life itself—to his immediate interests may cause him to pay a fearful price. France today is a tragic example of such short-sightedness of yesterday.

"Should you elect me to congress I pledge you that I shall always remain an American first, true to my sense of duty and shall treat my office as a place of trust. I shall need, expect and ask your counsel and assistance. I shall always remember that I am your servant and not your master, nor shall I yield to party or personal interest my responsibility to you, the people.

"I favor and advocate an extension of certain social reforms, but such must be in keeping with our American way of life, and subordinate to an adequate program of preparedness.

"I believe that individual opportunity for free enterprise is necessary for fair treatment of industry, and unreasonable shackles placed on business by legislation or administration must be removed. Conservation of the natural resources of this great nation must be protected not only for economic reasons, but for reasons of national security. The soil that sustains life for the many million people of the United States is one of the most important of our natural resources. In these and many other ways our federal government can help keep democracy from being outmoded and outworn. We must indeed progress and not remain static.

"Governments are of two general types, either the government is the servant of the people, or the people are servants of the government. We readily place America in the first type and our potential enemies in the second type."

# RUSTON CHARGES 'LYING DORMANT'

### Charges Against Four May Be Presented To Attorney General

RUSTON, La., June 29.—(Special)—Lincoln parish grand jury indictments in connection with charges pertaining to the construction of Louisiana Tech's administration building are still "lying dormant" with respect to others than former Governor Richard W. Leche who was absolved of guilt by a trial jury here this week.

District Attorney Truett L. Scarborough said today that he is "undecided" regarding procedure to follow in disposal of the remaining indictments in the Tech case but added that he "might confer with the state attorney general's office" in the near future.

Leche was tried first and separately from four others named in confidence game and false pretenses indictments. The others are Leon C. Weiss, F. Julius Dreyfous and Solis Seiferth, New Orleans architects, and Monte E. Hart, member of the firm of Caldwell Bros. and Hart, New Orleans contractors. The latter four were also charged in an indictment with "unlawfully receiving and having in their possession $55,955" in connection with the Tech case. None of the four have been formally arraigned in any of the case.

Leche was acquitted on a charge of complicity in an alleged confidence game growing out of the administration building contract. The parish grand jury, returning the indictment last September, also billed Leche on a charge of allegedly obtaining $27,000 "under false pretenses." The latter indictment, Scarborough said, was nolle prossed following Leche's acquittal this week.

"Okay, lad, I've had enough of your lip. I'll follow you in. Ten bucks and a night in the clink may teach you some manners."

"Oh, Gusty," Francie wailed, "why did you have to get smart? You—you can't afford to pay a fine."

White-lipped, Gusty hardened his face into its "so-what?" mask. "I—I'll get to Hollywood all right, Francie. Don't you worry!"

# SWALLOWS NICKEL, DOCTORS REMOVE IT

Miss Ernestine Le Vasseur, 10-year-old daughter of Patrolman and Mrs. Ernest N. Le Vasseur, 207 Malvern street, Monroe, told her mother Saturday afternoon about 4 o'clock that her throat hurt her, the family reported.

Mrs. Le Vasseur immediately called her husband and he took Ernestine to the Vaughn - Wright - Bendel clinic, where X-ray pictures showed that the girl had swallowed a nickel and it was lodged in her throat.

Dr. J. P. Brown and assistants extracted the nickel and Ernestine wanted to go home, her father said. Ernestine is suffering no ill effects from the accident and will be able to go home Sunday, he added.

# D. Y. SMITH IN SEPTEMBER RACE

### State Senator To Seek Nomination For United States Representative

CANDIDATE

D. Y. SMITH

State Senator D. Y. Smith of Sterlington, who last winter waged a successful campaign for nomination for senator from the 29th district, announced yesterday that he would enter the coming campaign for United States representative from the Fifth congressional district.

Senator Smith, who returned here yesterday from Baton Rouge, issued the following statement regarding his candidacy:

"In response to the many inquiries and solicitations from my friends all over the district, I desire to announce at this time that I shall be a candidate for the office of representative in congress from the Fifth congressional district in the primary election to be held in September.

"For the past several weeks my undivided time and attention have been devoted to the task of representing my senatorial district in the legislature which is now in session; and until the legislature has completed the important tasks with which it is confronted, I shall not engage in any active campaign for congress. I had in fact intended to defer making any decision with reference to this race until after the legislature's adjournment, but the demands that I submit myself for this office and that I make immediate announcement of my intention to do so have become so insistent that in justice to my friends and supporters all over the district I am making my announcement at the present time.

"Naturally I shall continue to devote myself solely to the solution of the problems which the legislature is facing and this will delay my formulating and announcing any detailed statement of my aims as your representative. But I do wish to state at this time that my campaign for this office will be conducted upon the same broad principles of independent representation which the people of my senatorial district have already endorsed by electing me to the office which I now hold.

"I urge the voters of the Fifth congressional district to reserve making a decision among the various candidates for this office until the duties which I am now performing have been gotten out of the way and I have had an opportunity to discuss with the people themselves the principles upon which I shall submit myself for consideration."

# ITALO BALBO DIES IN FIRE WRECKAGE

(Continued from First Page)

from Rome to Chicago and return by way of New York.

Marshal Balbo in 1933 led a historic mass flight of Italian planes to the United States.

He received such an ovation both in the United States and at home as a result of the flight that Premier Mussolini was rumored to have been displeased at his rapid rise in popular favor.

Shortly after his return to Italy in 1933 he was appointed to the Libyan post, a move interpreted in some quarters as designed to remove him from the limelight.

Rome gossip at the time said Balbo was sent to Libya to keep his "political shadow from darkening the Piazza Venezia," where stands the palace of Premier Mussolini.

His apparent decline as one of Fascism's chief heroes coincided with the rise of a new favorite of Il Duce, Foreign Minister Count Galeazzo Ciano, now Mussolini's son-in-law.

Balbo and Mussolini first became friends when they fought together in the World war, in which both won decorations for valor.

At the armistice Balbo returned to civilian life, but not for long. He soon organized the Blackshirt militia in his native region of Ferrara and Emilia, where he was born June 5, 1896.

Balbo was appointed a commander of a Fascist military action squad and, when Mussolini staged his famous March on Rome in October, 1922, Balbo was a leader. When the success of the revolution was established, he was made minister of national economy and general of the Blackshirt militia.

In that capacity, he was credited with "inventing" the Fascists' castor oil treatment for their adversaries.

In swift succession he was appointed to the posts of undersecretary for air, general of the air fleet, and air minister.

He had learned to fly and in 1926, when he was undersecretary for air, obtained a pilot's license. From the day he was appointed air minister in September, 1929, he set about reorganizing the Italian air force.

The first and most important of his moves was to promote mass flights. He organized a flight of 65 planes over the Mediterranean; led 36 bombers on a cruise as far east as Russia's Black sea port of Odessa, and in 1931 headed a flight of 12 seaplanes from Rome to Rio de Janeiro, the greatest mass flight there had been until then.

Then came his historic flight with 24 planes and 96 men from Rome to Chicago. The flight started on June 30, 1933, with the following itinerary:

July 1—Arrived at Amsterdam, 870 miles, in seven hours three minutes.

July 2—Arrived near Londonderry, Ireland, 630 miles, in five hours 20 minutes.

July 5—Left Londonderry, reached Reykjavik, Iceland, 930 miles, in six hours 35 minutes.

July 12—Left Reykjavik, landed at Cartwright, Labrador, 1,500 miles, in 11 hours, 50 minutes.

July 13—Arrived Sheldiac, New Brunswick, 800 miles, in six hours, 11 minutes.

July 14—Arrived at Montreal, 500 miles, in three hours, 34 minutes.

July 15—Arrived in Chicago, 870 miles, in seven hours, 30 minutes.

Four days later the giant armada and its bearded, handsome leader flew over New York as millions turned out to watch. Broadway gave Balbo a tremendous reception. He and his fliers began their homeward flight July 25.

On August 12, they reached Rome, where Balbo was idolized and Mussolini promptly appointed him air marshal. Italians took to raising beards simply because Balbo had one, a fad that didn't wear off until it appeared that the marshal was losing favor with Il Duce because of his very great popularity.

In November of 1933 Balbo was appointed governor of Libya, and in January of the next year he sailed to assume the post. In 1937, the same year that he received the Charles A. Lindberghs as his guests at Tripoli, Balbo was made commander-in-chief of the naval and military command of North Africa.

# NEXT U. S. YEAR TO BE COSTLIEST

(Continued from First Page)

statutory borrowing authority left. But the new defense program carried with it $4,000,000,000 more borrowing power.

Transition of the budget from a peacetime to a preparedness status was marked in many items. In the old year, the treasury spent $1,575,000,000 for defense. In the new year, the bill will approximate $3,600,000,000. Appropriations for next year are much larger, but much of the work won't be paid for until the fiscal year beginning July 1, 1941.

Last year, WPA and other work relief cost $1,840,000,000. Next year it is expected to fall to $1,400,000,000.

Smaller reductions will be made in costs of other non-defense activities.

The larger revenue estimates are due partly to anticipation of greater yield from old taxes, on account of expected better business, and partly from the new defense taxes just enacted. The old taxes are expected to produce about $385,000,000 more than they did last year, while the new levies are figured at $715,000,000.

The new taxes are expected to bring in $994,300,000 a year in the following four years.

The new tax law provides for increases of 10 to 50 per cent in excise levies (taxes of cigarettes, gasoline, etc.), 10 per cent in estate and gift taxes, 10 per cent in individual income taxes, 16.1 to 18 per cent in corporation taxes, and a decrease of 20 per cent in basis income tax exemptions.

The decrease in income tax exemptions, from $2,500 to $2,000 for married couples and from $1,000 to $800 for single persons, is expected to add 2,200,000 income taxpayers to government rolls.

The estate and gift taxes went into effect last Tuesday when President Roosevelt signed the tax bill. Excise taxes are effective next Monday, and income taxes will be payable on 1940 income.

flat assurances that any more penetrations would be stopped.

A number of government bureaus, however, arranged meetings Sunday to discuss plans for an emergency seat of government in the Carpathian mountains.

(Bucharest is in southern Rumania, near the Bulgarian border. A move to the Carpathians would place the government in the approximate center of the country.)

**USE PARACHUTISTS**

MOSCOW, June 30 (Sunday).—(AP)—Parachute troops were used in carrying out yesterday's speedy occupation of the Bessarabian and Bucovina areas obtained from Rumania, Tass, Soviet official news agency reported today.

The news agency said the parachutists occupied Bolgrad, a town in southern Bessarabia, and an area in the vicinity of the confluence of the Prut and Danube rivers.

Foreign correspondents were told that military authorities had taken over the communications system, and military censorship would become effective at midnight Saturday. Some London correspondents and others already have had their telephone connections cut off in the past 24 hours because of stories they filed.

Bessarabia, which the Russians always have called the land of milk and honey, already is under the heavy tread of the Soviet military in a comparatively bloodless occupation.

Russian sources said, too, that the principal cities in northern Bucovina—the other area yielded by Carol under a Moscow ultimatum—are now in control of the Red army.

The chaotic state of affairs and the lack of good communications from Bucharest to the provinces made it difficult to learn at what point in the north the Russians had halted, but the latest semi-official word was that they had pushed on as far as Dorohol, some 15 miles beyond the western boundary of Bessarabia and thus well within old Rumania.

Russian informants declared, however, that this penetration beyond the agreed line was "probably a military error."

There were, at the same time, signs that at least two possible sources of conflict were quieting.

These involved Bulgaria and Hungary, which have claims of their own for Rumanian territory. It seemed clear, from information received by diplomats here, that their demands were being calmed.

In Budapest, Hungary, it was learned that Germany and Italy were urging both Bulgaria and Hungary to stay at peace and continue their production, with the understanding that their demands upon Rumania will be adjusted "in due time."

Nevertheless, King Carol, who already had appealed strongly for Adolf Hitler's help lest his country simply break apart under the Russian-Bulgarian demands, was forming an army of 2,000,000 in a "last-man" mobilization.

The highways of Rumania were jammed with refugees and with hundreds of thousands of Rumanian troops answering the call to service while the Russian soldiers tramped down the winding, muddy roads of Bessarabia, taking control of town after town.

The army of occupation, which started pouring down yesterday from Russian Poland and also over the only bridge over the Dniester river near Kisinev, continued streaming today through these bottlenecks and then spreading into the territory.

Waves of Soviet fighting planes flew overhead as escorts and then landed at Bessarabian airports over which were hoisted the Red flag.

The first Russian units to enter Rumania were corps of heavy tanks followed by light tanks, artillery supply trains, motorized infantry and soldiers on foot.

Eye-witnesses said that a scarcity of supply trucks indicated that the army intended to live on the land.

In some isolated points on the Rumanian frontier forces not informed of the country's capitulation fired on Soviet planes and engaged the advance Red army units.

Other reports told of several scattered machine gun actions in which an undetermined number of Russian soldiers were wounded.

But for the most part the Rumanian frontier force simply stood silently by, watching the entry of troops against whom, for 21 years, their own army had stood guard.

Bessarabia's population of 4,000,000—one of the most conglomerate in Europe—took the occupation with feelings as mixed as their blood connections.

Hundreds of thousands of Jews, who only a few days ago had expressed terror that Rumania's new totalitarian government might become an anti-Semitic as the old Goga regime, were declared by the Russians to have welcomed the Soviet arrival.

These same sources asserted that Russians and Ukrainians—about 1,000,000 of them scattered through the province—cheered the arrival of the Red forces, waving their long-outlawed Red flags, throwing flowers on the troops and giving them wine and black bread.

The Bulgarians—of whom there are 200,000—and Germans—of whom there are 100,000—stood in groups discussing what might lie in store for them.

To millions of Rumanians it was a black day—in contrast to the national day of 21 years ago when Bessarabia was taken from the Russians.

Most of them took it with resignation, but there was some street fighting in the larger cities between Russians, Ukrainians and Rumanians.

The Rumanian airline, which used to take the Rumanian papers to Bessarabia, suspended service 24 hours before Russia had made her demands, and so only a small percentage of the population knew of the developments until the Soviet forces arrived.

As Red troops arrived in the towns, public buildings were taken over and the Red flag immediately run up.

Most Rumanian officials had left, with official documents, securities and money, before the Russians appeared.

LONDON, June 30 (Sunday).—(AP)—German planes dropped bombs on the Midlands, industrial heart of England, early today in another of their after-midnight attacks on Britain. Other enemy craft raided the southeast coastal area.

The air ministry issued a communique saying:

"Enemy aircraft crossed the coast during the night. Anti-aircraft defenses are in action."

Other planes, believed to be German, were heard over northeast England.

ISTANBUL, June 29.—(AP)—Turkey will call to arms at least 1,000,000 men in the event Bulgaria mobilizes, informed military sources said tonight.

The nation went on daylight saving time for the first time in its history to conserve electricity and oil.

The fleet resumed its position at the mouth of the Bosporus after a cruise along the southern tip of Bulgaria's Black sea coast.

Anatolian soldiers marched toward the Bulgarian border.

The general picture in Turkey was that of a nation marshalling its land, sea and air forces to demonstrate her readiness to defend herself against attack if the Balkan powder keg explodes.

The Turkish press emphasized the nation's desire to be friendly with Russia, however.

can assure the buying public that every step possible has been taken by all merchants to give the buyers the greatest bargain ever presented during these next three days" the committee said. "The stores have been very fortunate in being able to get high grade offerings at a vastly reduced price and are ready and waiting to pass them on to the public. All merchants have agreed that the bargains to be offered during this clearance sale will top any of recent years."

Generally speaking, huge crowds are expected to take advantage of these many bargains to be offered and the public is asked to shop early. Such are the values to be offered by the many merchants, that every consumer of North Louisiana is urged to avail himself of the opportunity to get this merchandise to be offered.

The July clearance sale is the third of similiar events sponsored by the merchants division of the Monroe Chamber of Commerce this year, Chairman Silverstein said, and is the greatest undertaking that the division has participated in during recent years.

"Our local merchants have outdone themselves in preparing for this event, and once more I ask that the people of this section take advantage of the offers to be made," Chairman Silverstein added.

tion bill which would have allowed debt moratoriums henceforth through applications to courts.

One of the four major bills in the administration's reorganization program has passed both houses and the other three have cleared the house and will come up for final passage in the senate early next week. The measure passed by both chambers provides $100,000 appropriation for carrying the reorganization plans into effect and making further studies.

The reorganization and fiscal code bills were studied Friday night by a senate committee and will be reported in to the senate with minor amendments when the legislature reconvenes Sunday night. The other administration reorganization bill, proposing a constitutional amendment to make the state auditor elective by the legislature rather than by the people, is in senate committee.

The administration's three civil service bills have passed the house which has about battled through its crush of business successfully, and are ready for passage in the senate, which will find tougher sledding this week.

The measures, providing civil service for the state and city of New Orleans, were somewhat honeyed in senate committee by additional exemptions and by giving war veterans concessions for jobs.

The civil service legislation, which would not go into effect until July 1, 1942, proposes a constitutional amendment making it necessary for two-thirds the members of each house to concur before any changes can be made by a subsequent legislative session. An alternate proposal to put the whole civil service system in the constitution so it could not be changed without a vote of the people was abandoned.

The administration's bill repealing the sales tax effective December 31, its proposed constitutional amendment authorizing reductions in motor vehicle licenses, and its bill reducing automobile licenses to $3 and halving truck license costs have all passed the house and will be on the crowded senate calendar next week.

These measures, fulfilling campaign pledges of the new administration, will result in losing approximately $8,500,000 state revenues.

Replacing these lost funds is the aim of a half dozen or so revenue bills, most having passed the house and in the senate or its committees. These measures in their present form will provide substantially the sum lost in repealing the sales tax and reducing vehicle licenses.

The administration bills to provide additional revenue by eliminating the 3 per cent allowance on gasoline tax collections, after having been amended to give 8 per cent allowance, have met serious opposition in the house and for nearly three weeks have remained dormant on the house calendar. These bills in their amended form would provide about $400,000 annual revenue.

Ready for action in the senate next week are the administration bills, already approved by the house with some fuss, levying a natural gas franchise tax estimated to yield $1,750,000, raising liquor taxes $2,000,000 and income taxes $2,500,000, and increasing severance taxes $1,000,000 and tobacco taxes $750,000.

Other house-approved bills pending in the senate reduce allowances for collecting tobacco and soft drink taxes and bring retailers of beer, tobacco and soft drinks under the occupational license tax. These measures probably would yield an additional $500,000.

Administration leaders have incorporated some of these tax increases into their original program after agreeing to a compromise whereby they reduced their proposed new natural gas franchise tax from 2 1-2 cents to 1-2 cent per 1,000 cubic feet.

the department of welfare, and Melton G. Fleniken, director of the DeSoto parish department of welfare, solicited "assessments and subscriptions for political purposes in the form of subscriptions to The Progress, from five employes of the DeSoto welfare department."

The second count alleges similar solicitations from the same people on June 8, 1939. Fleniken, it is alleged, was aided by L. R. Matthews, assistant state hospital director.

The third count alleges that K. C. Peterson, director of the Sabine parish department of welfare, solicited subscriptions to The Progress from 13 employes of the Sabine welfare department.

The sixth and seventh counts allege that Matthews was assisted in similar solicitation by Mrs. Hilda G. Kemp, director of the Claiborne parish department of public welfare, upon employes of that department.

The eighth and ninth counts deal with the Caddo welfare department. The eighth count alleges that on April 13, 1939, Johnson, through Himbert and Mrs. Maude Bryson, director of the Caddo welfare department, solicited subscriptions to The Progress from welfare employes.

The ninth count charges that on June 9, 1939, Matthews, assisted by Mrs. Bryson, made another solicitation for subscriptions to The Progress from the same employes.

LAKE CHARLES, La., June 29.—(AP)—Jeff Reddell, former maintenance superintendent of the fifth state highway district, was arrested at his laundry in Jennings this morning by Deputy United States Marshal Rene Fuselier.

After arraignment before United States Commissioner Albert Cox here, Reddell was released in $1,500 bail.

## EDUCATIONAL PROGRAM IS PLANNED BY POLICE

A meeting will be held to inaugurate an educational safety program for negroes, sponsored by the traffic department of the Monroe police under Sergeant J. M. Busby, at the Zion Travelers church Tuesday night at 7:30.

An outstanding speaker on safety will be furnished by the traffic department for the occasion, Sergeant Busby said.

All negroes whether they drive cars or not are requested to attend this meeting for the purpose of organizing their own safety committee which will meet monthly with the city police for the discussion of safety programs which they themselves will carry out.

statutory borrowing authority left. But the new defense program carried with it $4,000,000,000 more borrowing power.

Transition of the budget from a peacetime to a preparedness status was marked in many items. In the old year, the treasury spent $1,575,000,000 for defense. In the new year, the bill will approximate $3,600,000,000. Appropriations for next year are much larger, but much of the work won't be paid for until the fiscal year beginning July 1, 1941.

Last year, WPA and other work relief cost $1,840,000,000. Next year it is expected to fall to $1,400,000,000.

Smaller reductions will be made in costs of other non-defense activities.

The larger revenue estimates are due partly to anticipation of greater yield from old taxes, on account of expected better business, and partly from the new defense taxes just enacted. The old taxes are expected to produce about $385,000,000 more than they did last year, while the new levies are figured at $715,000,000.

The new taxes are expected to bring in $994,300,000 a year in the following four years.

The new tax law provides for increases of 10 to 50 per cent in excise levies (taxes of cigarettes, gasoline, etc.), 10 per cent in estate and gift taxes, 10 per cent in individual income taxes, 16.1 to 18 per cent in corporation taxes, and a decrease of 20 per cent in basis income tax exemptions.

The decrease in income tax exemptions, from $2,500 to $2,000 for married couples and from $1,000 to $800 for single persons, is expected to add 2,200,000 income taxpayers to government rolls.

The estate and gift taxes went into effect last Tuesday when President Roosevelt signed the tax bill. Excise taxes are effective next Monday, and income taxes will be payable on 1940 income.

flat assurances that any more penetrations would be stopped.

A number of government bureaus, however, arranged meetings Sunday to discuss plans for an emergency seat of government in the Carpathian mountains.

(Bucharest is in southern Rumania, near the Bulgarian border. A move to the Carpathians would place the government in the approximate center of the country.)

**USE PARACHUTISTS**

MOSCOW, June 30 (Sunday).—(AP)—Parachute troops were used in carrying out yesterday's speedy occupation of the Bessarabian and Bucovina areas obtained from Rumania, Tass, Soviet official news agency reported today.

The news agency said the parachutists occupied Bolgrad, a town in southern Bessarabia, and an area in the vicinity of the confluence of the Prut and Danube rivers.

Foreign correspondents were told that military authorities had taken over the communications system, and military censorship would become effective at midnight Saturday. Some London correspondents and others already have had their telephone connections cut off in the past 24 hours because of stories they filed.

Bessarabia, which the Russians always have called the land of milk and honey, already is under the heavy tread of the Soviet military in a comparatively bloodless occupation.

Russian sources said, too, that the principal cities in northern Bucovina—the other area yielded by Carol under a Moscow ultimatum—are now in control of the Red army.

The chaotic state of affairs and the lack of good communications from Bucharest to the provinces made it difficult to learn at what point in the north the Russians had halted, but the latest semi-official word was that they had pushed on as far as Dorohoi, some 15 miles beyond the western boundary of Bessarabia and thus well within old Rumania.

Russian informants declared, however, that this penetration beyond the agreed line was "probably a military error."

There were, at the same time, signs that at least two possible sources of conflict were quieting.

These involved Bulgaria and Hungary, which have claims of their own for Rumanian territory. It seemed clear, from information received by diplomats here, that their demands were being calmed.

In Budapest, Hungary, it was learned that Germany and Italy were urging both Bulgaria and Hungary to stay at peace and continue their production, with the understanding that their demands upon Rumania will be adjusted "in due time."

Nevertheless, King Carol, who already had appealed strongly for Adolf Hitler's help lest his country simply break apart under the Russian-Bulgarian demands, was forming an army of 2,000,000 in a "last-man" mobilization.

The highways of Rumania were jammed with refugees and with hundreds of thousands of Rumanian troops answering the call to service while the Russian soldiers tramped down the winding, muddy roads of Bessarabia, taking control of town after town.

The army of occupation, which started pouring down yesterday from Russian Poland and also over the only bridge over the Dniester river near Kisinev, continued streaming today through these bottlenecks and then spreading into the territory.

Waves of Soviet fighting planes flew overhead as escorts and then landed at Bessarabian airports over which were hoisted the Red flag.

The first Russian units to enter Rumania were corps of heavy tanks followed by light tanks, artillery supply trains, motorized infantry and soldiers on foot.

Eye-witnesses said that a scarcity of supply trucks indicated that the army intended to live on the land.

In some isolated points on the Rumanian frontier forces not informed of the country's capitulation fired on Soviet planes and engaged the advance Red army units.

Other reports told of several scattered machine gun actions in which an undetermined number of Russian soldiers were wounded.

But for the most part the Rumanian frontier force simply stood silently by, watching the entry of troops against whom, for 21 years, their own army had stood guard.

Bessarabia's population of 4,000,000—one of the most conglomerate in Europe—took the occupation with feelings as mixed as their blood connections.

Hundreds of thousands of Jews, who only a few days ago had expressed terror that Rumania's new totalitarian government might become an anti-Semitic as the old Goga regime, were declared by the Russians to have welcomed the Soviet arrival.

These same sources asserted that Russians and Ukrainians—about 1,000,000 of them scattered through the province—cheered the arrival of the Red forces, waving their long-outlawed Red flags, throwing flowers on the troops and giving them wine and black bread.

The Bulgarians—of whom there are 200,000—and Germans—of whom there are 100,000—stood in groups discussing what might lie in store for them.

To millions of Rumanians it was a black day—in contrast to the national day of 21 years ago when Bessarabia was taken from the Russians.

Most of them took it with resignation, but there was some street fighting in the larger cities between Russians, Ukrainians and Rumanians.

The Rumanian airline, which used to take the Rumanian papers to Bessarabia, suspended service 24 hours before Russia had made her demands, and so only a small percentage of the population knew of the developments until the Soviet forces arrived.

As Red troops arrived in the towns, public buildings were taken over and the Red flag immediately run up.

Most Rumanian officials had left, with official documents, securities and money, before the Russians appeared.

LONDON, June 30 (Sunday).—(AP)—German planes dropped bombs on the Midlands, industrial heart of England, early today in another of their after-midnight attacks on Britain. Other enemy craft raided the southeast coastal area.

The air ministry issued a communique saying:

"Enemy aircraft crossed the coast during the night. Anti-aircraft defenses are in action."

Other planes, believed to be German, were heard over northeast England.

ISTANBUL, June 29.—(AP)—Turkey will call to arms at least 1,000,000 men in the event Bulgaria mobilizes, informed military sources said tonight.

The nation went on daylight saving time for the first time in its history to conserve electricity and oil.

The fleet resumed its position at the mouth of the Bosporus after a cruise along the southern tip of Bulgaria's Black sea coast.

Anatolian soldiers marched toward the Bulgarian border.

The general picture in Turkey was that of a nation marshalling its land, sea and air forces to demonstrate her readiness to defend herself against attack if the Balkan powder keg explodes.

The Turkish press emphasized the nation's desire to be friendly with Russia, however.

# CLEARANCE SALES WILL DRAW MANY

can assure the buying public that every step possible has been taken by all merchants to give the buyers the greatest bargain ever presented during these next three days" the committee said. "The stores have been very fortunate in being able to get high grade offerings at a vastly reduced price and are ready and waiting to pass them on to the public. All merchants have agreed that the bargains to be offered during this clearance sale will top any of recent years."

Generally speaking, huge crowds are expected to take advantage of these many bargains to be offered and the public is asked to shop early. Such are the values to be offered by the many merchants, that every consumer of North Louisiana is urged to avail himself of the opportunity to get this merchandise to be offered.

The July clearance sale is the third of similiar events sponsored by the merchants division of the Monroe Chamber of Commerce this year, Chairman Silverstein said, and is the greatest undertaking that the division has participated in during recent years.

"Our local merchants have outdone themselves in preparing for this event, and once more I ask that the people of this section take advantage of the offers to be made," Chairman Silverstein added.

# JONES' SCHEDULE JUMPED HURDLES

(Continued from First Page)

tion bill which would have allowed debt moratoriums henceforth through applications to courts.

One of the four major bills in the administration's reorganization program has passed both houses and the other three have cleared the house and will come up for final passage in the senate early next week. The measure passed by both chambers provides $100,000 appropriation for carrying the reorganization plans into effect and making further studies.

The reorganization and fiscal code bills were studied Friday night by a senate committee and will be reported in to the senate with minor amendments when the legislature reconvenes Sunday night. The other administration reorganization bill, proposing a constitutional amendment to make the state auditor elective by the legislature rather than by the people, is in senate committee.

The administration's three civil service bills have passed the house which has about battled through its crush of business successfully, and are ready for passage in the senate, which will find tougher sledding this week.

The measures, providing civil service for the state and city of New Orleans, were somewhat honeyed in senate committee by additional exemptions and by giving war veterans concessions for jobs.

The civil service legislation, which would not go into effect until July 1, 1942, proposes a constitutional amendment making it necessary for two-thirds the members of each house to concur before any changes can be made by a subsequent legislative session. An alternate proposal to put the whole civil service system in the constitution so it could not be changed without a vote of the people was abandoned.

The administration's bill repealing the sales tax effective December 31, its proposed constitutional amendment authorizing reductions in motor vehicle licenses, and its bill reducing automobile licenses to $3 and halving truck license costs have all passed the house and will be on the crowded senate calendar next week.

These measures, fulfilling campaign pledges of the new administration, will result in losing approximately $8,500,000 state revenues.

Replacing these lost funds is the aim of a half dozen or so revenue bills, most having passed the house and in the senate or its committees. These measures in their present form will provide substantially the sum lost in repealing the sales tax and reducing vehicle licenses.

The administration bills to provide additional revenue by eliminating the 3 per cent allowance on gasoline tax collections, after having been amended to give 8 per cent allowance, have met serious opposition in the house and for nearly three weeks have remained dormant on the house calendar. These bills in their amended form would provide about $400,000 annual revenue.

Ready for action in the senate next week are the administration bills, already approved by the house with some fuss, levying a natural gas franchise tax estimated to yield $1,750,000, raising liquor taxes $2,000,000 and income taxes $2,500,000, and increasing severance taxes $1,000,000 and tobacco taxes $750,000.

Other house-approved bills pending in the senate reduce allowances for collecting tobacco and soft drink taxes and bring retailers of beer, tobacco and soft drinks under the occupational license tax. These measures probably would yield an additional $500,000.

Administration leaders have incorporated some of these tax increases into their original program after agreeing to a compromise whereby they reduced their proposed new natural gas franchise tax from 2 1-2 cents to 1-2 cent per 1,000 cubic feet.

# JOHNSON, CASON FACING CHARGES

(Continued from First Page)

the department of welfare, and Melton G. Fleniken, director of the DeSoto parish department of welfare, solicited "assessments and subscriptions for political purposes in the form of subscriptions to The Progress, from five employes of the DeSoto welfare department."

The second count alleges similar solicitations from the same people on June 8, 1939. Fleniken, it is alleged, was aided by L. R. Matthews, assistant state hospital director.

The third count alleges that K. C. Peterson, director of the Sabine parish department of welfare, solicited subscriptions to The Progress from 13 employes of the Sabine welfare department.

The sixth and seventh counts allege that Matthews was assisted in similar solicitation by Mrs. Hilda G. Kemp, director of the Claiborne parish department of public welfare, upon employes of that department.

The eighth and ninth counts deal with the Caddo welfare department. The eighth count alleges that on April 13, 1939, Johnson, through Himbert and Mrs. Maude Bryson, director of the Caddo welfare department, solicited subscriptions to The Progress from welfare employes.

The ninth count charges that on June 9, 1939, Matthews, assisted by Mrs. Bryson, made another solicitation for subscriptions to The Progress from the same employes.

LAKE CHARLES, La., June 29.—(AP)—Jeff Reddell, former maintenance superintendent of the fifth state highway district, was arrested at his laundry in Jennings this morning by Deputy United States Marshal Rene Fuselier.

After arraignment before United States Commissioner Albert Cox here, Reddell was released in $1,500 bail.

# EDUCATIONAL PROGRAM IS PLANNED BY POLICE

A meeting will be held to inaugurate an educational safety program for negroes, sponsored by the traffic department of the Monroe police under Sergeant J. M. Busby, at the Zion Travelers church Tuesday night at 7:30.

An outstanding speaker on safety will be furnished by the traffic department for the occasion, Sergeant Busby said.

All negroes whether they drive cars or not are requested to attend this meeting for the purpose of organizing their own safety committee which will meet monthly with the city police for the discussion of safety programs which they themselves will carry out.

## De Gaulle Estimates Nearly Million Men Taken At Flanders, In France

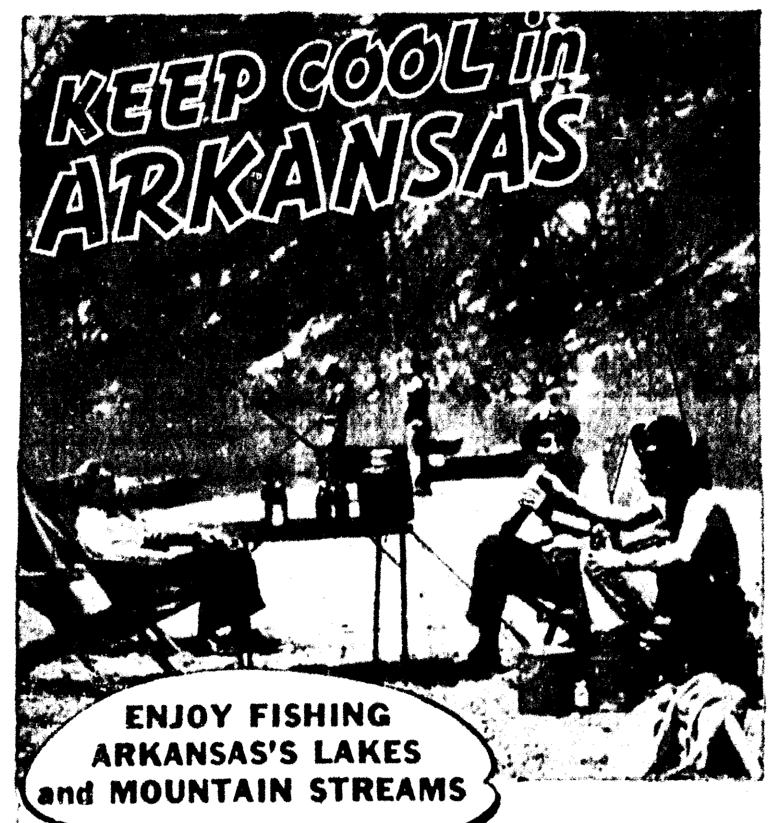
LONDON, June 29.—(AP)—French General Charles De Gaulle estimated today that the German forces captured 1,353,000 men in the Flanders phase of the big battle in Belgium and France and 600,000 in the "battle of France," killing 60,000 and wounding about 300,000.

The figures were issued by Professor Denis Saurat, director of the French institute.

De Gaulle was quoted by Saurat as asserting the French army was beaten without being able to fight because the German tanks behind the front line destroyed supply convoys, because the civil population made the roads unpassable and because in many cases troops had to surrender because of lack of ammunition.

De Gaulle's estimate on casualties included all allied troops. Presumably it did not count final actions after Premier Petain announced he was suing for an armistice.

Columbia university conferred 5,345 degrees in June, largest number since its founding in 1754 as King's college.



DEAR JOHN:

These fishing float trips down clear Arkansas mountain streams are the life! Besides good fishing during the day, nights are delightfully cool as you sleep on a clean gravel bar under the stars - sans mosquitoes.

I left the family at one of the nearby rustic but modern state parks for the past two days which have been spent floating and fishing.

It's a marvelous feeling to be away from every care and worry! I feel ten years younger already... Why don't you plan to bring your family immediately and join us? You'll never have so much genuine fun for so little money!

# The War Today

By DeWitt MacKenzie
(Associated Press Foreign Affairs Writer)

Europe continues hopeful speculation on the possibility of peace growing out of the rapidly changing conditions.

The lull in the German attack would tend to give peace feelers an opportunity of circulating, and may in fact be calculated in part to do exactly that. Such constant pulse-taking is a part of practically every war.

Yesterday both Germany and Britain got rocked back on their heels by developments which likely will have a marked effect on the trend of affairs.

Russia's invasion of Rumania can be taken largely as a strategic move against Germany. It's immediate effect will be to deprive the Reich of badly needed supplies, may easily precipitate a Balkan upheaval, and might mean war between the Nazis and Bolshevists—a gift from the gods for Britain.

England, on the other hand, received a heavy blow when General Mittelhauser, French commander in Syria, decided that his army of 500,000 would lay down its arms to Germany.

This great force was the keystone of the Allied land defense or the Near East and was vital to possible operations against Germany through the Balkans.

Obviously anything can happen under such conditions—peace or utter chaos. This is a bad time for the speculator to gamble on futures.

While we are on the subject of war and peace, I feel bound to call your attention to another event of world importance.

On this last day of June, in the year of the great Hitlerian blitzkrieg, we have to record the death—or at least the passage into a state of suspended animation—of the League of Nations as at present constituted.

Secretary General Avenol early this week notified all employes of the organization that their resignations must be in hand by today.

Thus the first concerted effort of man to preserve the peace of the world by a congress of sovereign states comes to an untimely end. It has been killed by war (among other things), and the great marble palace which workers for good-will built on the shore of Lake Geneva as a monument to universal brotherhood now becomes the mausoleum of the league in its present shape.

I doubt if actually we are entitled to speak with finality in chronicling this event, although the globe is afflicted with warfare which is much more terrible than anything it ever has known before. The men and women who have struggled faithfully through a score of hopeful years to bring to fruition the dream of our own President Wilson refuse to abandon hope that the league will be restored in some form.

Whatever the outcome, I think they are right in believing the spirit of the league isn't dead. Despite the wave of wrong-thinking which has produced this scourge of war, we are entitled to believe that the world as a whole still is right-thinking and wants peace.

The league did many good deeds. It is credited with having averted several wars. It put Austria, Hungary and Greece on a sound financial basis. It curbed the drug and white slave traffics, reduced child labor, improved international health, and in many other ways contributed to progress.

But its critics say that heavy politics crept into the league—that hostile blocs of nations were formed within the membership. Germany, Italy and others charged that the organization was under the domination of England and France, and that these two great powers were using it to further their own interests.

It was with this most unfavorable background that the league came up against its first big crisis—Japan's invasion of Manchuria in 1931. The league sent a mission to Manchuria under chairmanship of Britain's Lord Lytton.

This mission made a report condemning Japan as an aggressor. Lord Lytton took the floor in the assembly, called Nippon out of its name a dozen different ways, and urged league action against aggression. But nothing further happened.

There are many who feel that this marked the beginning of the decline of the league, and that this failure did indeed afford encouragement for other acts of aggression which followed in rapid succession until finally we have most of Europe and much of Asia in flames.

Whatever truth there may be in that, to my mind the league was born either too soon or too late. It made its advent at a time when the world was in a ferment which was a sure breeder for changes by force of arms. It is difficult to envisage any organization which could hav survived this period of upheaval.

I watched the birth of the league at Versailles, and spent long hours with Lord Robert Cecil (now Viscount Cecil of Chelwood) who was one of the main architects of the organization to implement the Wilsonian dream. As long as the fall of 1937 Lord Cecil told me in effect that the league had better pull up its socks if it wanted to stay in business.

He felt that grave damage had been done the prestige of the league by the failures of the organization in handling the Manchurian and Chino-Japanese situations, and Mussolini's conquest of Ethiopia.

Anyway, the league did try to make good. Better luck next time!

# FOUR-H MEMBERS ARE BACK HOME

## End Week's Encampment At Camp Walker; 185 Are In Attendance

Thirty 4-H club members of Ouachita parish returned Friday afternoon from a week's encampment at Camp Walker, Pollock, accompanied by D. L. Bornman, county agent, and Mrs. Jewel McQuiller, county home demonstration agent.

Enrollment at the camp for the week totaled 185 boys and girls from the six parishes of this district, Mrs. McQuiller said.

The girls were divided into age groups for the various camp activities. The smaller children worked, making picture frames and mounting pictures under the leadership of Mrs. Mairetta Harrell, home demonstration agent of Union parish. The intermediate group did raffia work under the direction of Mrs. McQuiller and various other activities in handicraft were taken by members of the older group, under the supervision of Miss Pearl LeFevre.

All camp activities were under the direction of C. W. Davis, district agent of the extension department, and Hazel Bratley, state extension nutrition director.

Members of the camp were organized into "tribes for various contests, entertainments and night performances. Friday night Johnny Coon, Okaloosa, "tribe" leader, presented the program in observance of visitors' night.

The mornings at camp were devoted to the study of wild life by both the boys and girls, under the direction of J. S. Campbell, wild life conservation specialist. Singing classes were conducted by Mrs. Harrell and rhythm classes were held by W. C. Abbott, state 4-H club agent.

Campers all agreed that the best part of the camp was the food prepared by Mrs. Louise Butler, home demonstration agent of West Carroll parish.

## JONES ASKS PAIR TO STAY ON BOARD

BATON ROUGE, La., June 29.—(AP)—Governor Sam Jones, announcing the entire five-man Board of Commissioners of the Port of Lake Charles had offered their resignations, said he accepted three of them but asked the other two to remain.

The three whose resignations he said he accepted were W. P. Weber, E. R. Kaufman and Guy Beatty.

Rudolph Krause and Frank Roberts were the members he asked to continue on the board.

The governor said he appointed two new members, Sam M. Richards, Lake Charles banker, and Harry G. Chalkley, president of the Louisiana Farm Bureau federation.

# COUNTRY'S CLAIMS PAID BY MEXICANS

WASHINGTON, June 29.—(AP)—Mexico made a $1,000,000 payment to the United States today on claims of this country's citizens for lands expropriated since August 30, 1927, under the Mexican agrarian program.

Mexican Ambassador Francisco Castillo Najera handed the check to Secretary of State Hull and later described the payment as "another demonstration that Mexico strives to meet all its international obligations and desires to settle all pending foreign questions."

The claims involved are being adjudicated by Mexican and United States commissioners and a final determination of the total amount involved is expected within a month.

### CLOSE WHITE HOUSE

WASHINGTON, June 29.—(AP)—The White House will be closed to visitors from July 1 to September 15 to permit repairs and extensive house cleaning, it was announced today.

The area of the Soviet Union, largest country in the world, is more than eight million square miles.

# WAYNE MORRIS, WIFE SEPARATE ON COAST

HOLLYWOOD, June 29.—(AP)—Wayne Morris, young motion picture actor, said today that he and his society girl wife, Leonora (Bubbles) Schinasi, had separated.

Morris moved into a Hollywood apartment.

"I feel very badly about the whole thing," he said. "Right now I can't say any more."

Soy beans yield about 19 per cent oil, used for food and in paint.

## TURNS DOWN PRAYER BEFORE HIS EXECUTION

MOUNDSVILLE, W. Va., June 29.—(AP)—Saying "There is no hereafter—I don't care," Byzentine Hartman, 28, coldly refused a chaplain's offer of spiritual comfort as he walked to death on the gallows Friday night.

He was executed for slaying a deputy sheriff who attempted to arrest him on a charge of beating his elderly mother.

# FOUR-H MEMBERS ARE BACK HOME

## End Week's Encampment At Camp Walker; 185 Are In Attendance

Thirty 4-H club members of Ouachita parish returned Friday afternoon from a week's encampment at Camp Walker, Pollock, accompanied by D. L. Bornman, county agent, and Mrs. Jewel McQuiller, county home demonstration agent.

Enrollment at the camp for the week totaled 185 boys and girls from the six parishes of this district, Mrs. McQuiller said.

The girls were divided into age groups for the various camp activities. The smaller children worked, making picture frames and mounting pictures under the leadership of Mrs. Mairetta Harrell, home demonstration agent of Union parish. The intermediate group did raffia work under the direction of Mrs. McQuiller and various other activities in handicraft were taken by members of the older group, under the supervision of Miss Pearl LeFevre.

All camp activities were under the direction of C. W. Davis, district agent of the extension department, and Hazel Bratley, state extension nutrition director.

Members of the camp were organized into "tribes for various contests, entertainments and night performances. Friday night Johnny Coon, Okaloosa, "tribe" leader, presented the program in observance of visitors' night.

The mornings at camp were devoted to the study of wild life by both the boys and girls, under the direction of J. S. Campbell, wild life conservation specialist. Singing classes were conducted by Mrs. Harrell and rhythm classes were held by W. C. Abbott, state 4-H club agent.

Campers all agreed that the best part of the camp was the food prepared by Mrs. Louise Butler, home demonstration agent of West Carroll parish.

## JONES ASKS PAIR TO STAY ON BOARD

BATON ROUGE, La., June 29.—(AP)—Governor Sam Jones, announcing the entire five-man Board of Commissioners of the Port of Lake Charles had offered their resignations, said he accepted three of them but asked the other two to remain.

The three whose resignations he said he accepted were W. P. Weber, E. R. Kaufman and Guy Beatty.

Rudolph Krause and Frank Roberts were the members he asked to continue on the board.

The governor said he appointed two new members, Sam M. Richards, Lake Charles banker, and Harry G. Chalkley, president of the Louisiana Farm Bureau federation.

## COUNTRY'S CLAIMS PAID BY MEXICANS

WASHINGTON, June 29.—(AP)—Mexico made a $1,000,000 payment to the United States today on claims of this country's citizens for lands expropriated since August 30, 1927, under the Mexican agrarian program.

Mexican Ambassador Francisco Castillo Najera handed the check to Secretary of State Hull and later described the payment as "another demonstration that Mexico strives to meet all its international obligations and desires to settle all pending foreign questions."

The claims involved are being adjudicated by Mexican and United States commissioners and a final determination of the total amount involved is expected within a month.

# PARIS BUSINESSES START REOPENING

## Once-Gay Shops, Cafes, Bars Have Tills Practically Empty

PARIS, June 26. – Delayed) — (By Courier Plane to Berlin)—(AP)—The once-gay shops, cafes and bars are reopening in Paris and tills are virtually empty.

Well dressed persons are stopping total strangers on the boulevards and asking for money.

The prefect of the Seine department, where most of the French financial institutions are concentrated, has stopped withdrawal of bank funds indefinitely.

A neutral banker explained the step merely was a legalization of the bank closings which occurred before the German occupation took place.

Arrangements for limited withdrawals are expected to be made later. Some talk of municipal money being used was heard. In Versailles such money already was reported in use.

A 30-day moratorium on negotiable paper and merchandise bills also is in effect.

The effort of Paris to be brave with a gay display of brightly painted chairs and tables on the terraces, colorful summer awnings, and smart shop windows is offset by the staggering number of unemployed.

One newspaper estimated 1,200,000 persons are jobless in the Paris area. When the 600,000 persons who fled from the area return along with innumerable demobilized soldiers the total unemployed will be much higher.

Of those without jobs a third have no funds. The others have resources which might last from two weeks to a month.

The French made no demonstrations upon receiving the announcement of the signing of the armistice. Most citizens want to return as quickly as possible to something approximating normal life and to forget the terrible weeks of the spring of 1940.

Following the signing of the armistice fewer German soldiers were seen in Paris, the boulevards became somewhat busier and more shops took down their shutters and opened for trade.

# Farmers Band Together In Tomato Growing Projects

## Northeast Louisiana Cooperatives Ship Highest Quality Product

Despite the fact that the 1940 season hasn't been as profitable as in previous years, the tomato crop has developed into one of northeast Louisiana's chief money producers for farmers of this area, thanks to a group of growers who decided to band together in a cooperative movement for advancement of the program.

The soil in the section of Louisiana lying west of the Ouachita river is ideally suited to the growing of tomatoes, and today sheds at Chatham, Jonesboro, Sikes, Ruston, Grayson, Farmerville and other points within forty miles west, south and north of Monroe are scenes of feverish activity as the tomatoes are graded, packed and shipped to the markets.

This year the price of tomatoes hasn't been as high as in previous seasons, but Wednesday the government stepped in to alleviate the situation, and, through the Surplus Commodity administration, started buying the surplus crop. The first car was shipped from Chatham Friday morning. The government is paying farmers 31 cents per lug of 75 per cent No. 1s, 20 per cent No. 2s and 5 per cent culls. The government is allowing 29 cents for handling and packing of the tomatoes, which do not have to be wrapped or carefully sized.

The government will give these tomatoes to relief agencies, and the farmer will be paid on the basis of two-third of the place when shipment is received and the balance in 10 days.

The northeast Louisiana tomatoes shipped to the markets, however, are of the highest quality, carefully graded and wrapped. The quality is unsurpassed, according to agricultural experts.

Tomato growing in this section was inaugurated in Jackson and Winn parishes in 1931 through the efforts of the agricultural department of the Tremont and Gulf railroad, which served much of the territory. Farmers of the section were taught the fundamentals of successful tomato growing, and it soon became a major crop. Two or three years later, Union parish, taking the tip from its neighbors on the south, also became interested in the project and found it just as successful as in Winn and Jackson parishes. The acreage throughout these three parishes, as well as in adjacent communities, has consideraby increased since the movement was first started.

So far this year, the Chatham Truck Growers association has shipped 20 cars to market. Through this cooperative, a price of $1.50 per hundred was obtained on the last car shipped, as against 75 cents per hundred offered by cash buyers.

So succesfu has been the cooperative movement that equipment at all the packing sheds has been improved. For instance, last year the Chatham association bought a tomato grader costing $716.11 and a potato grader costing $55, and then had a surplus at the end of the season of approximately $600.

As a result of the success with the tomato project, the Chatham association will expand its activities so that four money truck crops will be available for farmers of that section. Irish potatoes, tomatoes, cantaloupes and sweet potatoes will provide a better living for those who participate in the program. Shipping of potatoes starts about June 1, tomatoes about June 15, cantaloupes about July 10 and sweet potatoes about August 15. And then it will be cotton picking time.

Six cars of Irish potatoes were shipped from Chatham this year, with the first car bringing $1 per 100 pounds, and the others 90 cents. The cost of production estimated by a member of the association on tomatoes is 75 cents to $1 per hundred pounds, on Irish potatoes from 25 cents to 50 cents per hundred, and on sweet potatoes about 50 cents per hundred pounds.

Plans for the cantaloupe project have not been completed and it is not expected that this project will be in full swing until next year.

Incidentally, the association is now considering plans for a canning factory.

Despite the fact that this season has been termed the "hardest year on tomatoes," members of the association realize that "off years" are to be expected and they plan no decrease in acreage.

The success of tomato growers throughout the section indicates what can be done when a cooperative movement is launched through the concerted efforts of farmers who will benefit by such a program. The associations have demonstrated that there's money in diversification, and cotton is no longer "king" west of the Ouachita.

# THIRTY TRAINING IN PLANE COURSE

## Make Up Quota Allowed Centenary College By Air Authority

SHREVEPORT, La., June 29.—(Special)—Thirty patriotic and robust young men who make up the quota allowed Centenary college in its summer student-pilot training course by the Civil Aeronautics authority are learning to fly for the preservation of their country.

As one student put it when he, with other members of the class, was asked his personal reason for wanting to register in the CAA-Centenary conducted course, "I'm taking the student pilot training course to prepare myself for whatever emergency might confront our nation and democracy."

Although the federally-financed course is an adjunct to the emergency national defense program, it does not involve enlistment in any military service, and could be studied as preparation for civil aviation or as science credit toward graduation from college. But two-thirds of the students answered the interview question by expressing a desire to acquire from the course elementary training for the army or navy air service in defense of the United States. Most of these revealed an intention to enlist, whether or not this country is involved in war, but a few said they would consider enlistment only in the event of war.

The "minority group" whose main interest in the course was not as a preparation for enlistment had various reasons for having enrolled. Most of them said they had long been interested in aviation and that the free course offered by the CAA had given them the opportunity to "do something about" their interest, to "obtain the best instruction in aeronautics available today," as one said. Five want to learn to fly as a hobby, three look forward to careers in civil aviation, one wants to enter a manufacturing field connected with aviation, and another will use knowledge of flight "as a means of transportation in future business."

Even the minority took into consideration the possibility of the United States' going to war and signified their willingness to enlist in the ar service under such circumstances.

# MONROE SLUGS OUT 12-5 WIN OVER HELENA

## Turner Pitches Cincinnati Reds To Important Victory

### Sports Chatter

By GEORGE V LOFTON

'APPRECIATION NIGHT'

The sports committee of the Chamber of Commerce has decided to sponsor an "Appreciation Night" for the Monroe baseball club to be held on July 11. On this occasion tickets will go for one buck a throw, and it is hoped that at least 2,000 tickets will be sold. An intensive campaign will be waged to sell that many tickets, and at a meeting Friday Monroe merchants pledged their wholehearted support.

Frankly, it's about time that something was done to help those who have carried the baseball burden here for the past three years. A class C club is always in the "red" and Monroe is no exception. After all, it's a civic proposition and an excellent advertisement for a town.

Monroe has been fortunate in that three or four sports-minded individuals have assumed the obligations of a baseball club, but they've about reached the breaking point. Despite the fact that the White Sox have finished up there each season, the local sponsors find themselves on the short end of the count, with notes in each bank. In other words, baseball in Monroe is a losing proposition, just as it is in other minor league cities.

The owners of the Monroe club took over the franchise without any idea of making a profit, no matter what some wolves may tell you. They hoped only for an even break, but patronage that a winning ball club deserves has not been forthcoming.

You know and we know that approximately 99 per cent of the small minor league clubs in the nation are supported by public subscription. It was true in the old days in Monroe and it's true in other minor loop towns today.

Only recently more than 800 Pine Bluff fans pledged $2 a month each to carry the Judges through the schedule. Only recently more than 2,500 Hot Springs fans paid $1 each into the treasury to keep the Bathers in the race. Only recently Clarksdale officials announced that there was but $81 in the treasury, and Red Sox fans hopped to the rescue to the tune of more than $1,000. Inclement weather has held down attendance all around the circuit, and Monroe is no exception.

Tomorrow is another pay day, and owners of the Monroe club will sign another note and meet that obligation. That isn't as it should be. A club which is leading the league and playing bang-up ball should receive at least enough support at the gate to pay the players.

There'll be another pay day on July

## TONY NOT STRONG NOW, GODOY SAYS

### Chilean Explodes Theory That Galento Can Take Stomach Punch

NEW YORK, June 29.—(AP)—Arturo Godoy, still looking like he had been hit by a cleaver, sat at the ringside out at Madame Bey's training emporium yesterday and watched Tony Galento clown around in preparation for his fight with Max Baer Tuesday in Jersey City.

It had been eight days since the Chilean sampled Joe Louis' fists, but his left cheek bone still was puffed and hidden by sticking plaster, and there was a long, brown scar where a dozen stitches had been taken in his eyebrow. Having fought aand licked Galento twice, Arturo could not be expected to go into raptures about the Orange round man—and he didn't.

"I don't think he's so strong as when he fought me" he volunteered in his new found English. "They can't be so strong again after having pneumonia. My brother in Chile had it once and he never was so good again.

"No. Tony don't hit like Louis. He hit me a left hook in our first fight that hurt, but he hits heavy punches, not sharp like Louis."

Whereupon Arturo proceeded to explode another theory about Tony, to wit, that it is useless to work on the Galento mid-section.

"I hit him once good in the stomach in our first fight, and he didn't like it," Godoy recalled.

Arturo said he couldn't make a guess on the winner between Galento and Baer, because he never had seen Max in action.

Galento jumped on the scales just before yesterday's workout and when the springs finally settled down again Tony grunted: "Two hunnert forty-eight, and wit' my clothes on."

## OLE MISS, TENNESSEE TO PLAY IN MEMPHIS

MEMPHIS, Tenn., June 29.—(AP)—The Universities of Tennessee and Mississippi have been tendered contracts for a five-year series of football games in Crump stadium here, starting in November, 1942, Chairman Joe Brennan of the park commission said today.

At Ole Miss, Coach Harry Mehre said the contract had been received and indicated only minor details straightening out before it was signed.

Recently enlarged, Crump stadium now has a seating capacity of approximately 27,000.

## PROTECT SLIGHT LEAD WHIPPING CHICAGO, 4 TO 1

### Reds Make Most Of Five Hits, Four Of Them Go For Doubles

CINCINNATI, June 29. — (AP) — Jim Turner, who came here from Boston in a trade for a man now punching the clock in the minors, pitched the Cincinnati Reds to a very useful 4 to 1 victory over the Chicago Cubs today, protecting the Reds' infinitesimal first place margin over Brooklyn.

The Reds made the most of five hits —four of them doubles. In the sixth Ival Goodman doubled, slid into third on Ernie Lombardi's grounder to Mattick, and scored on a fielder's choice.

Eddie Joost opened the Reds' seventh with a double and scored on an infield play and a fly. In the eighth, with two out, Lombardi doubled, Harry Craft was purposely passed, and Morrie Arnovich crossed up the strategy by doubling them both home.

### GIANTS BLANK PHILS

PHILADELPHIA, June 29. — (AP) — The New York Giants stayed in the thick of the National league pennant race today with a 5 to 0 victory over the Phillies as Bill Lohrman hurled Bill Terry's men to their second straight shutout.

A double by Mickey Witek, singles by Whitehead and Johnny Rucker along with an infield out chased in the first two runs in the third. The others resulted from another of Whitehead's hits, two sacrifices, as many walks and Tony Cuccinello's single in the eighth.

### DODGERS WHIP BEES

BROOKLYN, June 29.—(AP)—Home runs almost proved the undoing of Brooklyn again today but in the end it was a pair of circuit clouts that figured prominently in the Dodgers' 10 to 4 victory over the Boston Bees.

As late as the sixth inning the Dodgers were trailing 4-2 as the result of home runs by Gene Moore and Chet Ross, the latter with one on. In the seventh, however, Babe Phelps' homer with one mate aboard featured a four-run assault on Bill Posedel and in the eighth Dixie Walker cleared the loaded sacks with his second home run of the season.

## Dempsey, Wrestler To Slug It Out In 'Grudge' Match

### Ageing Mauler May Be Thinking Of Traveling Comeback Trail

By Kenneth Gregory

ATLANTA, June 29.—(AP)—It is hard to believe, and a lot of folks are skeptical, but nevertheless Jack Dempsey, one of the greatest fight champions, will return to the ring here Monday night to slug it out with a wrestler, Clarence (Cowboy) Luttrell.

The bout, bringing out of eight-year retirement the ageing Manassa Mauler who lost a four-round decision to King Levinsky at Chicago in 1932, was born of a recent wrestling brawl in an Atlanta ring. Luttrell, a tactless "villain" of the grapplers, tangled with Referee Dempsey and got a solid punch flush on the jaw.

Even this may have been part of the buildup, for the cowboy forthwith challenged the former heavyweight champion to settle their feud and Dempsey, who reached his 45th birthday this week, unhesitatingly accepted. So there it is, and barring rain the feudists will have it out with regulation six-ounce gloves in Atlanta's baseball park for ten rounds, or less.

There has been talk—and just talk so far—that Dempsey will test his punch, legs and wind in shows like this and others looking toward a possible serious "comeback" and perhaps an engagement with World Heavyweight Champion Joe Louis.

Arriving by train this afternoon, Dempsey was given an enthusiastic welcome followed by a downtown parade to his hotel headquarters. Luttrell, a 34-year-old former boxer who has been wrestling for some four or five years, returned to Atlanta at noon from the Great Smoky mountains in east Tennessee, where he spent the week training.

"They may call me an old man," said Dempsey, "but I've got plenty of dynamite left in this old right hand. I think I can settle this thing in a round or two. I'm not so sure how my wind and legs will hold out, so I'm counting on getting it over in a hurry."

Luttrell, a native of Jacksboro, Tex., who is noted for his wildnes in wrestling bouts, said he was all set "to knock Dempsey's teeth out." He asked, "What have I got to lose?"

"If I can keep my chin away from that right of his for two or three rounds, it's goodbye Mr. Dempsey. He's in no condition to go the limit. Why, he even wanted the fight to go only six rounds. I'm not going to hold back a thing, for if I can win this fight it'll make me."

Dempsey's manager, Max Waxman, said no funny tactics would be allowed. He said the city boxing commissioner would be requested to see to it that no such things as kicking, biting, flying tackles and the like of wrestling be permitted.

Promoter Jim Downing said this main attraction will go on about 11:30 p.m., central standard time. Rules of the city commission will apply, with a round being taken away for a low blow. If rain comes, the show is to go on Tuesday night.

A turnout of around 20,000 has been forecast. Fans will pay a top price of $5.50 for ringside seats and the Red Cross war relief fund will receive a small cut of the gate.

### MAKING MALTED MILK

Malted milk was invented in 1883. It is mainly a whole milk combination, with the liquid separated from a mash of ground barley and wheat flour. Heated to 125 degrees F. in vacuum pans,, it then is dried, sifted, and ground.

## CUNNINGHAM LOSES IN 'LAST' EFFORT

FRESNO, Calif., June 29.—(AP)—Veteran Glenn Cunningham, making his final appearance of a long and brilliant foot-racing career, failed to achieve an ambition tonight but in losing to Walter Mehle in the 1,500-meter run of the National A. A. U. Track and Field championships he forced the latter to a new American record.

Mehle, overtaking the 31-year-old Cunningham in the last 35 yards, broke the tape in 3 minutes 47.9 seconds. It was only one-tenth of a second slower than the world's record set in the 1936 Olympic games by Jack Lovelock of New Zealand.

The old American and senior A. A. U. records were 3:48.8, made in 1934 by Bill Bonthron of Princeton university. Cunningham, winding up many years of competition, set the pace until the finish line loomed. He had shaken off two bids for the lead by Paul Moore of Stanford but as the latter fell back, Mehle put on a sprint that carried him past Cunningham and on to a great victory.

The former University of Wisconsin star had too much of a finishing kick for Cunningham. The rugged Kansan had hoped to complete his career by winning the A. A. U. "metric mile" for the sixth time. The distance is 1,640 yards 1 foot 3 inches.

John Munski of Columbia, Mo., ran fourth and Gene Venske of the New York A. A. was fifth. Andrew Neidnig of the Millrose A. A., New York, took sixth, while Blaine Rideout, former North Texas State Teachers star and defending A. A. U. champion, was seventh, out of the point scoring. Rideout now competes for the Shore Athletic Club of New Jersey.

## NEVILLE STADIUM ACCEPTED BY CITY

### Hope That Playing Field Will Be Completed For First Game

The new Neville High school stadium was accepted by the city authorities and the completion of the playing field is hoped for by the time of the first football game this fall, it was anounced yesterday.

The new turtle-backed playing field is being constructed under the supervision of Coach Percy Brown, who stated that he expects to have the turf in good shape for the opening contest.

Unique in design, the new stadium conforms with the architecture of the Neville High school building and is one of the most modern structures in this section of the state.

Outstanding in its features is the visibility offered from all points. The seats constructed of pressure treated timbers, the only wood used in the construction of the stadium, are so arranged as to give the greatest possible visibility from all heights and positions, with no place a better place to see the game from than another.

Another feature is that of its construction of select materials to afford the slightest maintenance costs.

In addition to a seating capacity of 2,500, the new stadium boasts dressing rooms, lockers and offices for both the home team and visiting teams. Arrangements were made for the turning into dormitories of space on the upper floor. On the lower floor is the public concourse and space for concessions. The press box is soundproof and offers space for both radio and press representatives.

### Sox Put First Game In Ice With Seven Runs In Fourth Inning

**TWO GAMES TODAY**

Clarksdale's Red Sox, with L. L. "Cowboy" Jones still in the saddle, invades Casino park today for a double header, the first two games of a four-game series. The first tilt today starts at 2 o'clock.

Manager Doug Taitt said last night that he was undecided on his two hurlers, but he added that Tom Perry, the league's leading hurler, probably would pitch the first game.

Clarksdale started slowly in the Cotton States race this season but they've been winning more than their share of victories lately and a hard fought series is expected. The Red Sox starters also have not been announced.

game was called at midnight at the end of three and one-half innings. League rules prevent starting an inning after midnight. The Arkansians were leading in the second contest, 4 to 1.

The Sox put the first game on ice in the fourth inning by scoring seven runs. Six Helena errors were largely responsible for the topheavy Monroe score. Kelton Maxfield, who relieved "Major" Bowles in the first inning, received credit for the victory. The Sox touched three Seaporter hurlers for 13 hits, while the Helena club got to Bowles and Maxfield for 11 bingles.

The Seaporters made short work of chasing Charles Bowles in the first frame, pushing over four runs. With one out, Billy Speas singled and Allen Zarilla doubled for successive hits. Dexter Savage worked Bowles for a free pass to first, filling the bases. Manager Bud Clancy also walked, forcing Speas across the plate. Mike Surgent then singled to center, scoring Zarilla and Savage. That finished

# MONROE SLUGS OUT 12-5 WIN OVER HELENA

## Turner Pitches Cincinnati Reds To Important Victory

### Sports Chatter

By GEORGE V LOFTON

**'APPRECIATION NIGHT'**

The sports committee of the Chamber of Commerce has decided to sponsor an "Appreciation Night" for the Monroe baseball club to be held on July 11. On this occasion tickets will go for one buck a throw, and it is hoped that at least 2,000 tickets will be sold. An intensive campaign will be waged to sell that many tickets, and at a meeting Friday Monroe merchants pledged their wholehearted support.

Frankly, it's about time that something was done to help those who have carried the baseball burden here for the past three years. A class C club is always in the "red" and Monroe is no exception. After all, it's a civic proposition and an excellent advertisement for a town.

Monroe has been fortunate in that three or four sports-minded individuals have assumed the obligations of a baseball club, but they've about reached the breaking point. Despite the fact that the White Sox have finished up there each season, the local sponsors find themselves on the short end of the count, with notes in each bank. In other words, baseball in Monroe is a losing proposition, just as it is in other minor league cities.

The owners of the Monroe club took over the franchise without any idea of making a profit, no matter what some wolves may tell you. They hoped only for an even break, but patronage that a winning ball club deserves has not been forthcoming.

You know and we know that approximately 99 per cent of the small minor league clubs in the nation are supported by public subscription. It was true in the old days in Monroe and it's true in other minor loop towns today.

Only recently more than 800 Pine Bluff fans pledged $2 a month each to carry the Judges through the schedule. Only recently more than 2,500 Hot Springs fans paid $1 each into the treasury to keep the Bathers in the race. Only recently Clarksdale officials announced that there was but $81 in the treasury, and Red Sox fans hopped to the rescue to the tune of more than $1,000. Inclement weather has held down attendance all around the circuit, and Monroe is no exception.

Tomorrow is another pay day, and owners of the Monroe club will sign another note and meet that obligation. That isn't as it should be. A club which is leading the league and playing bang-up ball should receive at least enough support at the gate to pay the players.

There'll be another pay day on July

## TONY NOT STRONG NOW, GODOY SAYS

### Chilean Explodes Theory That Galento Can Take Stomach Punch

NEW YORK, June 29.—(AP)—Arturo Godoy, still looking like he had been hit by a cleaver, sat at the ringside out at Madame Bey's training emporium yesterday and watched Tony Galento clown around in preparation for his fight with Max Baer Tuesday in Jersey City.

It had been eight days since the Chilean sampled Joe Louis' fists, but his left cheek bone still was puffed and hidden by sticking plaster, and there was a long, brown scar where a dozen stitches had been taken in his eyebrow. Having fought aand licked Galento twice, Arturo could not be expected to go into raptures about the Orange round man—and he didn't.

"I don't think he's so strong as when he fought me" he volunteered in his new found English. "They can't be so strong again after having pneumonia. My brother in Chile had it once and he never was so good again.

"No. Tony don't hit like Louis. He hit me a left hook in our first fight that hurt, but he hits heavy punches, not sharp like Louis."

Whereupon Arturo proceeded to explode another theory about Tony, to wit, that it is useless to work on the Galento mid-section.

"I hit him once good in the stomach in our first fight, and he didn't like it," Godoy recalled.

Arturo said he couldn't make a guess on the winner between Galento and Baer, because he never had seen Max in action.

Galento jumped on the scales just before yesterday's workout and when the springs finally settled down again Tony grunted: "Two hunnert forty-eight, and wit' my clothes on."

## OLE MISS, TENNESSEE TO PLAY IN MEMPHIS

MEMPHIS, Tenn., June 29.—(AP)—The Universities of Tennessee and Mississippi have been tendered contracts for a five-year series of football games in Crump stadium here, starting in November, 1942, Chairman Joe Brennan of the park commission said today.

At Ole Miss, Coach Harry Mehre said the contract had been received and indicated only minor details straightening out before it was signed.

Recently enlarged, Crump stadium now has a seating capacity of approximately 27,000.

## PROTECT SLIGHT LEAD WHIPPING CHICAGO, 4 TO 1

### Reds Make Most Of Five Hits, Four Of Them Go For Doubles

CINCINNATI, June 29.—(AP)—Jim Turner, who came here from Boston in a trade for a man now punching the clock in the minors, pitched the Cincinnati Reds to a very useful 4 to 1 victory over the Chicago Cubs today, protecting the Reds' infinitesimal first place margin over Brooklyn.

The Reds made the most of five hits—four of them doubles. In the sixth Ival Goodman doubled, slid into third on Ernie Lombardi's grounder to Mattick, and scored on a fielder's choice.

Eddie Joost opened the Reds' seventh with a double and scored on an infield play and a fly. In the eighth, with two out, Lombardi doubled, Harry Craft was purposely passed, and Morrie Arnovich crossed up the strategy by doubling them both home.

PHILADELPHIA, June 29.—(AP)—The New York Giants stayed in the thick of the National league pennant race today with a 5 to 0 victory over the Phillies as Bill Lohrman hurled Bill Terry's men to their second straight shutout.

A double by Mickey Witek, singles by Whitehead and Johnny Rucker along with an infield out chased in the first two runs in the third. The others resulted from another of Whitehead's hits, two sacrifices, as many walks and Tony Cuccinello's single in the eighth.

**DODGERS WHIP BEES**

BROOKLYN, June 29.—(AP)—Home runs almost proved the undoing of Brooklyn again today but in the end it was a pair of circuit clouts that figured prominently in the Dodgers' 10 to 4 victory over the Boston Bees.

As late as the sixth inning the Dodgers were trailing 4-2 as the result of home runs by Gene Moore and Chet Ross, the latter with one on. In the seventh, however, Babe Phelps' homer with one mate aboard featured a four-run assault on Bill Posedel and in the eighth Dixie Walker cleared the loaded sacks with his second home run of the season.

The tourney was played at Jackson, Miss.

## Dempsey, Wrestler To Slug It Out In 'Grudge' Match

### Ageing Mauler May Be Thinking Of Traveling Comeback Trail

By Kenneth Gregory

ATLANTA, June 29.—(AP)—It is hard to believe, and a lot of folks are skeptical, but nevertheless Jack Dempsey, one of the greatest fight champions, will return to the ring here Monday night to slug it out with a wrestler, Clarence (Cowboy) Luttrell.

The bout, bringing out of eight-year retirement the ageing Manassa Mauler who lost a four-round decision to King Levinsky at Chicago in 1932, was born of a recent wrestling brawl in an Atlanta ring. Luttrell, a tactless "villain" of the grapplers, tangled with Referee Dempsey and got a solid punch flush on the jaw.

Even this may have been part of the buildup, for the cowboy forthwith challenged the former heavyweight champion to settle their feud and Dempsey, who reached his 45th birthday this week, unhesitatingly accepted. So there it is, and barring rain the feudists will have it out with regulation six-ounce gloves in Atlanta's baseball park for ten rounds, or less.

There has been talk—and just talk so far—that Dempsey will test his punch, legs and wind in shows like this and others looking toward a possible serious "comeback" and perhaps an engagement with World Heavyweight Champion Joe Louis.

Arriving by train this afternoon, Dempsey was given an enthusiastic welcome followed by a downtown parade to his hotel headquarters. Luttrell, a 34-year-old former boxer who has been wrestling for some four or five years, returned to Atlanta at noon from the Great Smoky mountains in east Tennessee, where he spent the week training.

"They may call me an old man," said Dempsey, "but I've got plenty of dynamite left in this old right hand. I think I can settle this thing in a round or two. I'm not so sure how my wind and legs will hold out, so I'm counting on getting it over in a hurry."

Luttrell, a native of Jacksboro, Tex., who is noted for his wildnes in wrestling bouts, said he was all set "to knock Dempsey's teeth out." He asked, "What have I got to lose?"

"If I can keep my chin away from that right of his for two or three rounds, it's goodbye Mr. Dempsey. He's in no condition to go the limit. Why, he even wanted the fight to go only six rounds. I'm not going to hold back a thing, for if I can win this fight it'll make me."

Dempsey's manager, Max Waxman, said no funny tactics would be allowed. He said the city boxing commissioner would be requested to see to it that no such things as kicking, biting, flying tackles and the like of wrestling be permitted.

Promoter Jim Downing said this main attraction will go on about 11:30 p.m., central standard time. Rules of the city commission will apply, with a round being taken away for a low blow. If rain comes, the show is to go on Tuesday night.

A turnout of around 20,000 has been forecast. Fans will pay a top price of $5.50 for ringside seats and the Red Cross war relief fund will receive a small cut of the gate.

**MAKING MALTED MILK**

Malted milk was invented in 1883. It is mainly a whole milk combination, with the liquid separated from a mash of ground barley and wheat flour. Heated to 125 degrees F. in vacuum pans, it then is dried, sifted, and ground.

## CUNNINGHAM LOSES IN 'LAST' EFFORT

FRESNO, Calif., June 29.—(AP)—Veteran Glenn Cunningham, making his final appearance of a long and brilliant foot-racing career, failed to achieve an ambition tonight but in losing to Walter Mehle in the 1,500-meter run of the National A. A. U. Track and Field championships he forced the latter to a new American record.

Mehle, overtaking the 31-year-old Cunningham in the last 35 yards, broke the tape in 3 minutes 47.9 seconds. It was only one-tenth of a second slower than the world's record set in the 1936 Olympic games by Jack Lovelock of New Zealand.

The old American and senior A. A. U. records were 3:48.8, made in 1934 by Bill Bonthron of Princeton university. Cunningham, winding up many years of competition, set the pace until the finish line loomed. He had shaken off two bids for the lead by Paul Moore of Stanford but as the latter fell back, Mehle put on a sprint that carried him past Cunningham and on to a great victory.

The former University of Wisconsin star had too much of a finishing kick for Cunningham. The rugged Kansan had hoped to complete his career by winning the A. A. U. "metric mile" for the sixth time. The distance is 1,640 yards 1 foot 3 inches.

John Munski of Columbia, Mo., ran fourth and Gene Venske of the New York A. A. was fifth. Andrew Neidnig of the Millrose A. A., New York, took sixth, while Blaine Rideout, former North Texas State Teachers star and defending A. A. U. champion, was seventh, out of the point scoring. Rideout now competes for the Shore Athletic Club of New Jersey.

## NEVILLE STADIUM ACCEPTED BY CITY

### Hope That Playing Field Will Be Completed For First Game

The new Neville High school stadium was accepted by the city authorities and the completion of the playing field is hoped for by the time of the first football game this fall, it was anounced yesterday.

The new turtle-backed playing field is being constructed under the supervision of Coach Percy Brown, who stated that he expects to have the turf in good shape for the opening contest.

Unique in design, the new stadium conforms with the architecture of the Neville High school building and is one of the most modern structures in this section of the state.

Outstanding in its features is the visibility offered from all points. The seats constructed of pressure treated timbers, the only wood used in the construction of the stadium, are so arranged as to give the greatest possible visibility from all heights and positions, with no place a better place to see the game from than another.

Another feature is that of its construction of select materials to afford the slightest maintenance costs.

In addition to a seating capacity of 2,500, the new stadium boasts dressing rooms, lockers and offices for both the home team and visiting teams. Arrangements were made for the turning into dormitories of space on the upper floor. On the lower floor is the public concourse and space for concessions. The press box is soundproof and offers space for both radio and press representatives.

## CALL SCHEDULED SECOND GAME ON MIDNIGHT RULING

### Sox Put First Game In Ice With Seven Runs In Fourth Inning

Monroe's White Sox walloped the Helena Seaporters, 12 to 5, in the first game of a scheduled double header at Casino park last night. The second game was called at midnight at the end of three and one-half innings. League rules prevent starting an inning after midnight. The Arkansians were leading in the second contest, 4 to 1.

The Sox put the first game on ice in the fourth inning by scoring seven runs. Six Helena errors were largely responsible for the topheavy Monroe score. Kelton Maxfield, who relieved "Major" Bowles in the first inning, received credit for the victory. The Sox touched three Seaporter hurlers for 13 hits, while the Helena club got to Bowles and Maxfield for 11 bingles.

The Seaporters made short work of chasing Charles Bowles in the first frame, pushing over four runs. With one out, Billy Speas singled and Allen Zarilla doubled for successive hits. Dexter Savage worked Bowles for a free pass to first, filling the bases. Manager Bud Clancy also walked, forcing Speas across the plate. Mike Surgent then singled to center, scoring Zarilla and Savage. That finished

**TWO GAMES TODAY**

Clarksdale's Red Sox, with L. L. "Cowboy" Jones still in the saddle, invades Casino park today for a double header, the first two games of a four-game series. The first tilt today starts at 2 o'clock.

Manager Doug Taitt said last night that he was undecided on his two hurlers, but he added that Tom Perry, the league's leading hurler, probably would pitch the first game.

Clarksdale started slowly in the Cotton States race this season but they've been winning more than their share of victories lately and a hard fought series is expected. The Red Sox starters also have not been announced.

# FELLER WINS 12TH OF SEASON FOR CLEVELAND

## STRIKES OUT 7 AS INDIANS WIN FROM SOX, 7-3

### Bob Drives In Second And Third Run With Double In Second

CHICAGO, June 29—(AP)—Bob Feller of Cleveland won his 12th game of the season today, holding Chicago to eight hits and striking out 11 batsmen as the Indians coasted to a 7 to 3 victory over the White Sox at Comiskey park.

Cleveland made 10 hits off Thornton Lee, big lefthander, Hal Trosky getting two singles and a double. No other Indian had more than one hit.

In three games this season the Sox have made only 16 hits off Feller. On opening day, the Iowa farm boy held them hitless and on April 25 they made the same number of hits as they made today—eight.

Feller played a big part in the victory. Aside from his hurling, he drove in the second and third Indian runs in the second inning with a double after Lee had walked Ken Keltner to load the bases.

### YANKS BEAT A'S

NEW YORK, June 29—(AP)—The world champions were the Yankees of old today and they had to be to blast out a 12 to 9 decision over the Athletics for their third straight victory.

After blowing a six-run lead, built up by counting seven times in the second, the Yanks came from behind to win. Trailing 8 to 3 going into the seventh the Athletics drove Spud Chandler from the mound and continued their assault on Bump Hadley. Not until Johnny Murphy appeared on the scene in the seventh were the Mackmen stopped. Murphy received credit for the victory.

## MONROE DEFEATS HELENA, 12 TO 5

(Continued from Tenth Page)

Bowles and Kelton Maxfield, a southpaw, took the mound for the White Sox. Sam Arico greeted Maxfield with a single, scoring Clancy and sending Surgent to third. Alex Boden then hit into a fast double play, Maxfield to Eagar to Medak, to end the rally.

The Sox came right back in the last of the first frame and scored two tallies. Joe Eagar was safe when Savage juggled his grounder at third. Bob Burt fanned but Bob Hill walked. Dale Englehorn came through with a single to right field, scoring Eagar and sending Hill to third. Ed Knight struck out, but on the third strike Englehorn stole second and when Lucas missed Catcher Boden's throw to second, Hill scored. Pete Medak skied to center for the third out.

Helena threatened in the second but failed to score. After Lloyd Finck, Seaporter hurler, grounded out, Jimmy Lucas singled to left and Speas followed with his second straight bingle, a single to right, but Zarilla fanned and Savage flied out to Hill in center.

The White Sox went out in front in the last of the third inning, scoring three runs. Burt led off with a single to left and with Hill up, Burt stole second. Hill followed with a single to center, scoring Burt. With Englehorn up, Hill was thrown out attempting to steal second, but Englehorn drew a pass. Knight singled to center, sending Englehorn to third. Medak walked, filling the bases, and then Guy Pruitt rapped a single to left, scoring Englehorn and Knight. Bobby Schang was walked purposely and the strategy worked when Maxfield hit into a double play, Arico tagging Schang as he came into second base and then tossing to Clancy at first in time to retire Maxfield.

The Sox routed Finck in the fourth stanza, scoring seven runs. Eagar led off with a single and Burt walked. That was enough for Finck, and Thomas, a southpaw, took the mound for Helena. Hill sacrificed Eagar and Burt up a base and when Surgent dropped Englehorn's fly to left, Eagar scored. Burt went to third and Englehorn pulled up at second. Knight followed with a single to right, scoring Burt and Englehorn. Medak was hit by a pitched ball and Pruitt walked, loading the sacks again. Thomas still couldn't locate the plate, and Schang walked, forcing Knight across the plate with the fourth run. Maxfield followed with a single to center, scoring Medak and Pruitt and sending Schang to third. Eagar, up for the second time in the inning, flied to right and Schang scored from third after the catch. Burt followed with a single to left, sending Maxfield to second, and that sent Thomas to the showers. Bobby Salveson, Seaporter utility player, going in to pitch for the Arkansans. Hill greeted Salveson with a bunt down the third base line that went for a hit when Hill beat it out, loading the bases. Englehorn ended the orgy by grounding out to Clancy at first, unassisted.

The Seaporters came to life in the sixth and scored one run, their first off Maxfield. With one away, Salveson walked and Lucas followed with a triple just inside the left field foul line, scoring Salveson. Speas fanned and Zarilla lined to Pruitt to end the threat.

With both hurlers bearing down, that was the end of the scoring in the first contest.

In the second game, Ted Hoemann's wildness got him in trouble right off the bat. With one out, Speas walked. Zarilla popped to Schang but Savage, Clancy and Surgent worked Hoemann for free trips to first, with the pass to Surgent forcing Speas across the plate. Arico skied to Burt back of second for the third out.

Hoemann still had trouble locating the plate in the second frame and it cost the White Sox two runs and sent the young righthander to the showers. Boden, first up, walked. Pitcher Pete Raymond fanned but Lucas walked. With Speas up, Hoemann uncorked a wild pitch and Boden went to third and Lucas to second. Speas flied to Englehorn in left field and Boden scored after the catch, Lucas going to third. Zarilla singled to center, scoring Lucas. With Savage up, Zarilla stole second and then went on to third when Schang threw the ball into center field. Savage walked and when Clancy was donated a base on balls, the eighth in less than two full innings, Manager Doug Taitt pulled Hoemann and sent Floyd Speer to relieve him on the mound. Speer forced Surgent to pop to Burt to end it.

Monroe got three men on with nobody out in the last of the second but failed to score. Knight and Medak walked in succession and Pruitt got an infield hit on a slow roller to second base. Schang, however, rolled weakly to Pitcher Raymond, who threw to the plate to force Knight and Boden relayed the ball to Clancy at first in time to get Schang and complete a double play. Speer then skied to right for the third out.

The Seaporters added another run in the third. Arico walked to start the frame and Boden singled to left, sending Arico to third. Raymond forced Boden at second, Pruitt to Burt, with Arico holding third. Lucas hit to Eagar, who bobbled, and Arico scored. Speas slapped a grounder to Burt, who tossed to Eagar, who muffed the throw. Raymond tried to score on the error but a throw from Eagar to Schang nipped him at the plate. Zarilla skied to Englehorn for the third out.

The Sox scored a run in the last of the third. Eagar was safe on an error by Arico. Burt doubled to center, scoring Eagar, but was trapped between second and third trying to stretch the hit into a triple and was tagged out by Arico. Hill popped to Catcher Boden. Englehorn struck out but Boden dropped the ball and Englehorn went all the way to second when the throw got away from Clancy. It was an error for Boden. The rally ended, however, when Knight whiffed.

After the Seaporters had batted in the fourth frame, Umpire Thomasson called the game at 11:59 p. m. and the second tilt was not an official game. The Cotton States league rules stipulate that no inning may be started after midnight and in view of the fact that only three and one-half innings had been played, the White Sox did not bat in the last of the fourth. There was no chance of playing five innings, which constitute an official game.

## GAME YOUNGSTER COMES BACK TO BEAT HAVERSTICK

### Downs Swarthmore Expert, 1 Up, Over Ekwanok Club Course

By Bill King

MANCHESTER, Vt., June 29.—(AP)—A 20-year-old University of Virginia gamester, who refused to give up even when he appeared hopelessly beaten, is the new National Collegiate golf king.

He is F. Dixon Brooke, who came back from being 4 down to win the title in a 36-hole match from Harry Haverstick of Swarthmore by 1 up, over the Ekwanock club's rolling course today.

Haverstick, who has played in five of the last six National Amateurs and qualified for two National Opens, fired a eight-over-par 78 this morning to gain his 4-up lead over Brooke, who scrambled around in 82 strokes.

On the second 18, however, Brooke got hold of his game, wiped out that deficit at the 27th, and then went on to win with a neat 73 as Haverstick's game fell apart and he took an 80—his poorest round of the tourney.

Brooke, the first Cavalier to win the coveted title, saw the temporary lead he managed at the 27th go glummering at the 33rd, where Haverstick got a par four. Then Brooke got that lead back at the 35th when he dropped a 17-foot putt for a birdie three.

Brooke needed a half on the home green to win—but he probably never saw a longer-looking five-foot putt than the one he was called upon to make. He had to sink it, for Haverstick had a beautiful chance to square the match if Brooke faltered.

But he stepped up and rapped it in smartly for his half—and the championship of the 43rd annual tourney.

The new champion has been playing golf since he was 7, and numbers among his previous outstanding feats winning the Tennessee Interscholastic title and going to the semi-finals of the 1937 Alabama State Amateur tournament.

## Zydowski Takes Batting Lead In Cotton States

### Hot Springs Slugger Hitting .390; Tom Perry Leading Hurler

Making 12 hits, including five homers, during the most recent seven-day stretch, Eddie Zydowski of Hot Springs boomed into the leadership in the Cotton States league batting free-for-all. Zydowski has now made 89 hits in 228 times at bat for a mark of .390. He leads the league in total bases with 160 and in runs batted in with 76 and shares top honors in homers, both he and Teammate Lamont Duncan having 15 circuit clouts.

Other ranking batters are Tom Gwin of Pine Bluff, last week's pace-setter, with .379; Thurman Tucker of Clarksdale with .375, Allen Zarilla of Helena with .364 and Pete Medak of Monroe with .358. Tucker is the leader in runs scored with 64, in hits with 96 and in stolen bases with 24.

Tom Perry of Monroe has the best pitching record, 11 wins and two losses.

But these statistics fail to tell other highlights of the week. On June 20 Dale Englehorn, Monroe outfielder, stole four bases. June 22 Clarksdale completed the league's second triple play of the season. Roy Viers, second baseman, and Hal Grant, first sacker, figured in the play against El Dorado.

In the June 22 Hot Springs-Greenwood game, Verne Hudson, Hot Springs second baseman, handled 13 assists, for a probable league record for a nine-inning encounter. In that same contest, Zydowski hit three homers and drove in eight runs while his teammate, Duncan, hit two for the circuit and drove home four runs as Hot Springs triumphed, 20 to 2.

The averages, including games of last Sunday:

## SPORTS ROUNDUP

By Eddie Brietz

NEW YORK, June 29.—(AP)—Week's wash: Dodger pitchers have served up 58 home run balls in 56 games. . . . La Didrikson, who shot a 3-under-par 72 in the Western Women's open, blew up at Milwaukee the other day and took a nine on one hole. . . . Hans Vopel and Gustax Kilian, the German six-day bike stars, are indigantly denying they were quizzed by the G-men. . . . One Broadway sport got $800 to his $200 today that Galento stops Baer and Armstrong kayos Lew Jenkins. . . . Atlanta was all set to welcome Jack Dempsey today with a huge street parade. . . . Wes Ferrell (remember him) is playing exhibition golf matches through North Carolina.

**TODAY'S GUEST STAR**

Shirley Povich, Washington Post: "Oscar Vitt and his players are simply too nice to each other. . . . The bench reeks with hypocrisy and if they are patting each other on the back the suspicion is they are seeking a soft place for what they have in their other hands."

Duke has bagged Ed Schreiber, 18-year-old Charlotte (N. C.) golfer who went to the finals in the southern championships. . . . Judge Landis will ask the managers not to pitch their all-star selections after July 4 so they'll have four days' rest for the big tilt on July 9. . . . P. O. Dept.: Yes, Sammy Kaye, the band leader, is the same guy who won football, basketball and track letters at Ohio university.

Ragtime news review.
Miss Berg will wander to and fro
Performing as a golfing pro;
The N. B. A. gives us a scolding
For saying it considers folding;
The Yanks, those erstwhile kings of swat,
Once more are home again—so what?

Those up-state reports that the N. B. A. will call it quits turned out to be fairy stories. Colonel Harvey Miller, the president, wires the association is more virile and healthier than ever and will continue to push its policy that boxing should be a sport and not a monopolized business. All right, colonel and more power to you. . . . Ford Frick may not wait until the summer meeting of the National league to poll the magnates on the use of helmets. . . . Detroit papers say fans out there don't want night ball and they can't understand why Owner W. O. Briggs hopped on the bandwagon.

**EXTRA!**

Mabbee Clark Griffith and Connie Mack can begin rehearsing taking bows. . . . They predicted the Yanks would crack this year. . . . Now the New York papers are joining in the chorus. . . . Today the Post headlined: "Yanks haven't got it—won't win pennant—champs washed up, ready to fold."

The Legion of Honor was founded by Napoleon in 1802 as a civil and military order of merit.

# FELLER WINS 12TH OF SEASON FOR CLEVELAND

## STRIKES OUT 7 AS INDIANS WIN FROM SOX, 7-3

### Bob Drives In Second And Third Run With Double In Second

CHICAGO, June 29.—(AP)—Bob Feller of Cleveland won his 12th game of the season today, holding Chicago to eight hits and striking out 11 batsmen as the Indians coasted to a 7 to 3 victory over the White Sox at Comiskey park.

Cleveland made 10 hits off Thornton Lee, big lefthander, Hal Trosky getting two singles and a double. No other Indian had more than one hit.

In three games this season the Sox have made only 16 hits off Feller. On opening day, the Iowa farm boy held them hitless and on April 25 they made the same number of hits as they made today—eight.

Feller played a big part in the victory. Aside from his hurling, he drove in the second and third Indian runs in the second inning with a double after Lee had walked Ken Keltner to load the bases.

### YANKS BEAT A'S

NEW YORK, June 29.—(AP)—The world champions were the Yankees of old today and they had to be to blast out a 12 to 9 decision over the Athletics for their third straight victory.

After blowing a six-run lead, built up by counting seven times in the second, the Yanks came from behind to win. Trailing 8 to 3 going into the seventh the Athletics drove Spud Chandler from the mound and continued their assault on Bump Hadley. Not until Johnny Murphy appeared on the scene in the seventh were the Mackmen stopped. Murphy received credit for the victory.

## MONROE DEFEATS HELENA, 12 TO 5

(Continued from Tenth Page)

Bowles and Kelton Maxfield, a southpaw, took the mound for the White Sox. Sam Arico greeted Maxfield with a single, scoring Clancy and sending Surgent to third. Alex Boden then hit into a fast double play, Maxfield to Eagar to Medak, to end the rally.

The Sox came right back in the last of the first frame and scored two tallies. Joe Eagar was safe when Savage juggled his grounder at third. Bob Burt fanned but Bob Hill walked. Dale Englehorn came through with a single to right field, scoring Eagar and sending Hill to third. Ed Knight struck out, but on the third strike Englehorn stole second and when Lucas missed Catcher Boden's throw to second, Hill scored. Pete Medak skied to center for the third out.

Helena threatened in the second but failed to score. After Lloyd Finck, Seaporter hurler, grounded out, Jimmy Lucas singled to left and Speas followed with his second straight bingle, a single to right, but Zarilla fanned and Savage flied out to Hill in center.

The White Sox went out in front in the last of the third inning, scoring three runs. Burt led off with a single to left and with Hill up, Burt stole second. Hill followed with a single to center, scoring Burt. With Englehorn up, Hill was thrown out attempting to steal second, but Englehorn drew a pass. Knight singled to center, sending Englehorn to third. Medak walked, filling the bases, and then Guy Pruitt rapped a single to left, scoring Englehorn and Knight. Bobby Schang was walked purposely and the strategy worked when Maxfield hit into a double play, Arico tagging Schang as he came into second base and then tossing to Clancy at first in time to retire Maxfield.

The Sox routed Finck in the fourth stanza, scoring seven runs. Eagar led off with a single and Burt walked. That was enough for Finck, and Thomas, a southpaw, took the mound for Helena. Hill sacrificed Eagar and Burt up a base and when Surgent dropped Englehorn's fly to left, Eagar scored, Burt went to third and Englehorn pulled up at second. Knight followed with a single to right, scoring Burt and Englehorn. Medak was hit by a pitched ball and Pruitt walked, loading the sacks again. Thomas still couldn't locate the plate, and Schang walked, forcing Knight across the plate with the fourth run. Maxfield followed with a single to center, scoring Medak and Pruitt and sending Schang to third. Eagar, up for the second time in the inning, flied to right and Schang scored from third after the catch. Burt followed with a single to left, sending Maxfield to second, and that sent Thomas to the showers, Bobby Salveson, Seaporter utility player, going in to pitch for the Arkansans. Hill greeted Salveson with a bunt down the third base line that went for a hit when Hill beat it out, loading the bases. Englehorn ended the orgy by grounding out to Clancy at first, unassisted.

The Seaporters came to life in the sixth and scored one run, their first off Maxfield. With one away, Salveson walked and Lucas followed with a triple just inside the left field foul line, scoring Salveson. Speas fanned and Zarilla lined to Pruitt to end the threat.

With both hurlers bearing down, that was the end of the scoring in the first contest.

In the second game, Ted Hoemann's wildness got him in trouble right off the bat. With one out, Speas walked. Zarilla popped to Schang but Savage, Clancy and Surgent worked Hoemann for free trips to first, with the pass to Surgent forcing Speas across the plate. Arico skied to Burt back of second for the third out.

Hoemann still had trouble locating the plate in the second frame and it cost the White Sox two runs and sent the young righthander to the showers. Boden, first up, walked. Pitcher Pete Raymond fanned but Lucas walked. With Speas up, Hoemann uncorked a wild pitch and Boden went to third and Lucas to second. Speas flied to Englehorn in left field and Boden scored after the catch, Lucas going to third. Zarilla singled to center, scoring Lucas. With Savage up, Zarilla stole second and then went on to third when Schang threw the ball into center field. Savage walked and when Clancy was donated a base on balls, the eighth in less than two full innings, Manager Doug Taitt pulled Hoemann and sent Floyd Speer to relieve him on the mound. Speer forced Surgent to pop to Burt to end it.

Monroe got three men on with nobody out in the last of the second but failed to score. Knight and Medak walked in succession and Pruitt got an infield hit on a slow roller to second base. Schang, however, rolled weakly to Pitcher Raymond, who threw to the plate to force Knight and Boden relayed the ball to Clancy at first in time to get Schang and complete a double play. Speer then skied to right for the third out.

The Seaporters added another run in the third. Arico walked to start the frame and Boden singled to left, sending Arico to third. Raymond forced Boden at second, Pruitt to Burt, with Arico holding third. Lucas hit to Eagar, who bobbled, and Arico scored. Speas slapped a grounder to Burt, who tossed to Eagar, who muffed the throw. Raymond tried to score on the error but a throw from Eagar to Schang nipped him at the plate. Zarilla skied to Englehorn for the third out.

The Sox scored a run in the last of the third. Eagar was safe on an error by Arico. Burt doubled to center, scoring Eagar, but was trapped between second and third trying to stretch the hit into a triple and was tagged out by Arico. Hill popped to Catcher Boden. Englehorn struck out but Boden dropped the ball and Englehorn went all the way to second when the throw got away from Clancy. It was an error for Boden. The rally ended, however, when Knight whiffed.

After the Seaporters had batted in the fourth frame, Umpire Thomasson called the game at 11:59 p. m. and the second tilt was not an official game. The Cotton States league rules stipulate that no inning may be started after midnight and in view of the fact that only three and one-half innings had been played, the White Sox did not bat in the last of the fourth. There was no chance of playing five innings, which constitute an official game.

## GAME YOUNGSTER COMES BACK TO BEAT HAVERSTICK

### Downs Swarthmore Expert, 1 Up, Over Ekwanok Club Course

By Bill King

MANCHESTER, Vt., June 29.—(AP)—A 20-year-old University of Virginia gamester, who refused to give up even when he appeared hopelessly beaten, is the new National Collegiate golf king.

He is F. Dixon Brooke, who came back from being 4 down to win the title in a 36-hole match from Harry Haverstick of Swarthmore by 1 up, over the Ekwanock club's rolling course today.

Haverstick, who has played in five of the last six National Amateurs and qualified for two National Opens, fired a eight-over-par 78 this morning to gain his 4-up lead over Brooke, who scrambled around in 82 strokes.

On the second 18, however, Brooke got hold of his game, wiped out that deficit at the 27th, and then went on to win with a neat 73 as Haverstick's game fell apart and he took an 80—his poorest round of the tourney.

Brooke, the first Cavalier to win the coveted title, saw the temporary lead he managed at the 27th go glimmering at the 33rd, where Haverstick got a par four. Then Brooke got that lead back at the 35th when he dropped a 17-foot putt for a birdie three.

Brooke needed a half on the home green to win—but he probably never saw a longer-looking five-foot putt than the one he was called upon to make. He had to sink it, for Haverstick had a beautiful chance to square the match if Brooke faltered.

But he stepped up and rapped it in smartly for his half—and the championship of the 43rd annual tourney.

The new champion has been playing golf since he was 7, and numbers among his previous outstanding feats winning the Tennessee Interscholastic title and going to the semi-finals of the 1937 Alabama State Amateur tournament.

## Zydowski Takes Batting Lead In Cotton States

### Hot Springs Slugger Hitting .390; Tom Perry Leading Hurler

Making 12 hits, including five homers, during the most recent seven-day stretch, Eddie Zydowski of Hot Springs boomed into the leadership in the Cotton States league batting free-for-all. Zydowski has now made 89 hits in 228 times at bat for a mark of .390. He leads the league in total bases with 160 and in runs batted in with 76 and shares top honors in homers, both he and Teammate Lamont Duncan having 15 circuit clouts.

Other ranking batters are Tom Gwin of Pine Bluff, last week's pacesetter, with .379; Thurman Tucker of Clarksdale with .375; Allen Zarilla of Helena with .364 and Pete Medak of Monroe with .358. Tucker is the leader in runs scored with 64, in hits with 96 and in stolen bases with 24.

Tom Perry of Monroe has the best pitching record, 11 wins and two losses.

But these statistics fail to tell other highlights of the week. On June 20 Dale Englehorn, Monroe outfielder, stole four bases. June 22 Clarksdale completed the league's second triple play of the season. Roy Viers, second baseman, and Hal Grant, first sacker, figured in the play against El Dorado.

In the June 22 Hot Springs-Greenwood game, Verne Hudson, Hot Springs second baseman, handled 13 assists, for a probable league record for a nine-inning encounter. In that same contest, Zydowski hit three homers and drove in eight runs while his teammate, Duncan, hit two for the circuit and drove home four runs as Hot Springs triumphed, 20 to 2.

## SPORTS ROUNDUP

By Eddie Brietz

NEW YORK, June 29.—(AP)—Week's wash: Dodger pitchers have served up 58 home run balls in 56 games. . . . La Didrikson, who shot a 3-under-par 72 in the Western Women's open, blew up at Milwaukee the other day and took a nine on one hole. . . . Hans Vopel and Gustax Kilian, the German six-day bike stars, are indigantly denying they were quizzed by the G-men. . . . One Broadway sport got $800 to his $200 today that Galento stops Baer and Armstrong kayos Lew Jenkins. . . . Atlanta was all set to welcome Jack Dempsey today with a huge street parade. . . . Wes Ferrell (remember him) is playing exhibition golf matches through North Carolina.

### TODAY'S GUEST STAR

Shirley Povich, Washington Post: "Oscar Vitt and his players are simply too nice to each other. . . . The bench reeks with hypocrisy and if they are patting each other on the back the suspicion is they are seeking a soft place for what they have in their other hands."

Duke has bagged Ed Schreiber, 18-year-old Charlotte (N. C.) golfer who went to the finals in the southern championships. . . . Judge Landis will ask the managers not to pitch their all-star selections after July 4 so they'll have four days' rest for the big tilt on July 9. . . . P. O. Dept.: Yes, Sammy Kaye, the band leader, is the same guy who won football, basketball and track letters at Ohio university.

Ragtime news review.
Miss Berg will wander to and fro
Performing as a golfing pro;
The N. B. A. gives us a scolding
For saying it considers folding;
The Yanks, those erstwhile kings of swat,
Once more are home again—so what?

Those up-state reports that the N. B. A. will call it quits turned out to be fairy stories. Colonel Harvey Miller, the president, wires the association is more virile and healthier than ever and will continue to push its policy that boxing should be a sport and not a monopolized business. All right, colonel and more power to you. . . . Ford Frick may not wait until the summer meeting of the National league to poll the magnates on the use of helmets. . . . Detroit papers say fans out there don't want night ball and they can't understand why Owner W. O. Briggs hopped on the bandwagon.

### EXTRA!

Mabbee Clark Griffith and Connie Mack can begin rehearsing taking bows. . . . They predicted the Yanks would crack this year. . . . Now the New York papers are joining in the chorus. . . . Today the Post headlined: "Yanks haven't got it—won't win pennant—champs washed up, ready to fold."

The Legion of Honor was founded by Napoleon in 1802 as a civil and military order of merit.

## BAER, GALENTO FIGHT FOR CRACK AT BROWN BOMBER

### Feder Picks Tony To Flatten Maxie In Six Or Seven Rounds

By Sid Feder

JERSEY CITY, N. J., June 29.—(AP)—The weird "war of the bums" will be fought out here Tuesday night on a 24-foot square canvas battleground, pitched near second base at the local ball park—with no extra charge of laughs.

You have it on the best authority that this is the guaranteed, one-and-only, dyed-in-the-wool battle of the bums. The two principals tell you so in whispers you can hear, Max Baer bellows that Tony Galento is as big a bum as he ever saw, and Two-Ton calls Madcap Maxie the same, double in spades and one-eyed jacks wild.

On paper, this is one of the strangest sock-shows ever put together for the benefit of the cash customers, the Marquis of Queensbury's good intentions to the contrary notwithstanding.

And the fact that the winner will be served to Joe Louis in September, doesn't make it any more serious. For the Brown Bomber has flattened both of them, each in four rounds.

Some 30,000 to 40,000 of the faithful are expected to attend. It's a cinch it won't take all 15 of the scheduled "ballots" to decide it. Tony will be pitching that left hand from Hoboken and Max will be tossing his right from somewhere around the George Washington bridge. Since neither ever has been known as an elusive will o' the wisp, both figure to get in the way of these high hard ones early and often. So it all depends who lands where and when.

This corner likes Two-Ton Tony to do that thing to the curly-haired one-time night club specialist in, say, six or seven rounds, no more.

Neither takes training seriously. Galento probably wouldn't be able to fight his fight if he didn't have his elbow-bending exercise right up to the day of the bout. Maxie's manly frame still draws those "oohs" and "ahs" from the feminine sections, but in his workouts he hasn't appeared to resemble the fellow who climbed to the world's heavyweight championship so many years ago.

The national guard has about 230,500 enlisted men and 15,000 officers, subject to duty within the United States only.

15. Results of "Appreciation Night" will determine in a large measure whether or not this payroll will be met. And results of "Appreciation Night" will determine in a large measure whether or not Monroe keeps its ball club.

Let's all get behind the sports committee and make "Appreciation Night" a huge success.

**THOSE R. B. I.'s**

In an article published a few days ago in a national magazine, George Sisler recommends that a change be made in scoring rules of baseball to stress the importance of runs batted in. Sisler's thought, and we agree, is that a batter who drives in 100 runs, for instance, and whose batting average is .270, is worth more to a club than the slugger who bats .340 and sends only 40 runs across the plate.

Here's an example. Until this week's Cotton States league averages turned up, Tom Gwin, of Pine Bluff, had led the league in hitting consistently. Today's averages show Gwin batting .379, yet he has driven in only 29 runs. On the basis of Sisler's plan, little Bobby Burt, Monroe second sacker, who's hitting a mere .210, is more valuable to his club, and again we agree. Burt has driven in 30 runs. In addition, Burt has scored 52 runs, although he's made but 51 hits, while Gwin has crossed the plate only 40 times on 77 hits.

Delving deeper into the subject, Burt, who is hitting .210, has driven in 30 runs, as stated, and Bob Hill, batting .329, has punched over only 29, the same number driven in by Guy Pruitt, whose current average is .306. Pete Medak is the top Monroe batsman, with a .358 mark, and he also has driven in more runs than any other member of the White Sox club, 56.

We agree that the fellow who gets the most hits is likely to score more runs, but after all it's the player who delivers in the clutch who should be given due recognition. Monroe is on top because of a preponderance of good pitching, plus the ability of our "light hitters" to come through with men on the sacks.

Pay tribute if you will to the lads who are "up there" in the batting averages, but let's take time out to doff our bonnet to the boys who hit when a hit means a run.

The most prevalent major crimes in the United States, in order, are larcany, burglary, auto theft, robbery.

## SHINE O'NIGHT STUNS BETTORS AT ARLINGTON

CHICAGO, June 29.—(AP)—Arlington park, scene of the overthrow of scores of short-priced favorites, produced another startling upset today when Shine O'Night, at 76 to 1 in the wagering, ran to victory in the $7,500 Matron Stakes before a stunned crowd of 25,000.

The winner, owned and bred by W. C. Hobson, retired businessman of Nashville, Tenn., returned $155.20, $53.20, $330.80 for two dollars across the board. Hobson, who owns a couple of brood mares, dabbles in breeding merely for the sport of it. Previous to today's victory Shine O'Night, a 3-year-old daughter of Man O'Night and Noah's Daughter, had only won one race in four starts this season. She captured a cheap allowance race in the mud at Lincoln Fields three weeks ago.

## BEN DOWNING, JR., DEFENDING CHAMP IN ANNUAL EVENT

### Qualifying Rounds May Be Played Until Noon Opening Day

BASTROP, June 29.—(Special)—Qualifiers thus far in the 10th Annual Kraft Paper Golf tournament to be held at the Morehouse Country club here July 3-5, were announced today by J. C. Young, tournament chairman.

All amateurs are eligible to participate in the tourney, Chairman Young said, but for the pro-amateur event, only professionals employed by recognized golf clubs are eligible.

Professionals who have announced they will compete include Jimmie Fossick, Tallulah; Winnie Cole, Vicksburg; Jimmie McConegill, Shreveport Country club; Bob Mena, El Dorado Country club; Ned White, Broadmoor Country club, Shreveport; Frank Cook, Shreveport Municipal Golf club; Jean Shirah, Monroe Municipal Golf club, and Fred Hines, Hodge Country club.

The qualifying rounds for amateurs will be 18 holes of medal play, and then flights of eight players each will be made from the list of qualifiers. The championship first and second flights will play 18-hole matches. All other flights will play nine-hole matches.

There will be a prize for the medalist and three prizes for each flight—for winner, runner-up and consolation winner.

The tourney will include an 18-hole best ball medal play match for pro-amateur teams. Each team will consist of a professional and amateur from the same club. The professionals on the teams winning first and second places will receive $50 and $25 and the amateurs on the two teams will receive prizes.

Entrants may play their qualifying round any time until noon July 4.

Program for the three-day event follows:

Wednesday, July 3:

1:30 p. m.—Pro-Amateur, 18-hole match.

9:30 p. m.—Dance.

Thursday, July 4:

8 a. m.—Qualifying round (must be finished by 12 noon).

1 p. m.—First round matches, all flights.

3 p. m.—Rumpus room.

7:30 p. m.—Chicken barbecue.

Friday, July 5:

8 a. m.—Semi-final matches, all flights.

First round consolation matches, all flights.

1:30 p. m.—Finals, all flights.

Consolation finals, all flights.

6:30 p. m.—Awarding of prizes.

Four hundred dollars in prizes will be awarded to amateurs, and professionals will receive $75 cash, the tourney committee has announced.

Amateurs qualifying to date and their scores follow:

J. B. Tisdale, 84, Ed Hemphill, 102, Dr. Garner, 84, F. W. Hawthorn, 91, Jimmie Collins, 98, Harry Hawthorn, 92, Dr. Rawles, 98, J. M. Menefee, 87, Ben Downing, Sr., 92, W. P. Douglas, 92, Bryce Pirtle, 89, Earl Newton, 104, James Madison, 104, M. F. Hill, 85, Joe Pate, Jr., 83, Allan Andrews, 85, Harold McClendon, 86, and Arthur McMeans, Jr., 89.

The defending amateur champion is Ben Downing, Jr., of Monroe.

## BAER, GALENTO FIGHT FOR CRACK AT BROWN BOMBER

### Feder Picks Tony To Flatten Maxie In Six Or Seven Rounds

By Sid Feder

JERSEY CITY, N. J., June 29.—(AP)—The weird "war of the bums" will be fought out here Tuesday night on a 24-foot square canvas battleground, pitched near second base at the local ball park—with no extra charge of laughs.

You have it on the best authority that this is the guaranteed, one-and-only, dyed-in-the-wool battle of the bums. The two principals tell you so in whispers you can hear, Max Baer bellows that Tony Galento is as big a bum as he ever saw, and Two-Ton calls Madcap Maxie the same, double in spades and one-eyed jacks wild.

On paper, this is one of the strangest sock-shows ever put together for the benefit of the cash customers, the Marquis of Queensbury's good intentions to the contrary notwithstanding.

And the fact that the winner will be served to Joe Louis in September, doesn't make it any more serious. For the Brown Bomber has flattened both of them, each in four rounds.

Some 30,000 to 40,000 of the faithful are expected to attend. It's a cinch it won't take all 15 of the scheduled "ballots" to decide it. Tony will be pitching that left hand from Hoboken and Max will be tossing his right from somewhere around the George Washington bridge. Since neither ever has been known as an elusive will o' the wisp, both figure to get in the way of these high hard ones early and often. So it all depends who lands where and when.

This corner likes Two-Ton Tony to do that thing to the curly-haired one-time night club specialist in, say, six or seven rounds, no more.

Neither takes training seriously. Galento probably wouldn't be able to fight his fight if he didn't have his elbow-bending exercise right up to the day of the bout. Maxie's manly frame still draws those "oohs" and "ahs" from the feminine sections, but in his workouts he hasn't appeared to resemble the fellow who climbed to the world's heavyweight championship so many years ago.

The national guard has about 230,500 enlisted men and 15,000 officers, subject to duty within the United States only.

## BEN DOWNING, JR., DEFENDING CHAMP IN ANNUAL EVENT

### Qualifying Rounds May Be Played Until Noon Opening Day

BASTROP, June 29.—(Special)—Qualifiers thus far in the 10th Annual Kraft Paper Golf tournament to be held at the Morehouse Country club here July 3-5, were announced today by J. C. Young, tournament chairman.

All amateurs are eligible to participate in the tourney, Chairman Young said, but for the pro-amateur event, only professionals employed by recognized golf clubs are eligible.

Professionals who have announced they will compete include Jimmie Fossick, Tallulah; Winnie Cole, Vicksburg; Jimmie McConegill, Shreveport Country club; Bib Miena, El Dorado Country club; Ned White, Broadmoor Country club, Shreveport; Frank Cook, Shreveport Municipal Golf club; Jean Shirah, Monroe Municipal Golf club; and Fred Hines, Hodge Country club.

The qualifying rounds for amateurs will be 18 holes of medal play, and then flights of eight players each will be made from the list of qualifiers. The championship first and second flights will play 18-hole matches. All other flights will play nine-hole matches.

There will be a prize for the medalist and three prizes for each flight—for winner, runner-up and consolation winner.

The tourney will include an 18-hole best ball medal play match for pro-amateur teams. Each team will consist of a professional and amateur from the same club. The professionals on the teams winning first and second places will receive $50 and $25 and the amateurs on the two teams will receive prizes.

Entrants may play their qualifying round any time until noon July 4.

Program for the three-day event follows:

Wednesday, July 3:

1:30 p. m.—Pro-Amateur, 18-hole match.

9:30 p. m.—Dance.

Thursday, July 4:

8 a. m.—Qualifying round (must be finished by 12 noon.)

# TWO PHYSICIANS OFF TO FRANCE

## Will Aid Red Cross To Alleviate Suffering Of War Refugees

Dr. Edgar Kahn of Ann Arbor, brain surgeon, and Dr. John M. Converse of New York, left June 12 and 15, respectively, for France, where they were assigned to work in Pau. Wires received from Red Cross representatives indicated there was great need of medical service, the local chapter announced.

The United States lines received a wireless from the Red Cross mercy ship's captain, Vernon L. Jubb, giving his position as 380 miles west of Bilbao, Spain, and stating that "all's well."

Total contributions to the American Red Cross war relief fund today were $15,633,253.

Contributions from the inmates of two prisons were announced. Inmates of Clinton prison sent $200 to the Dannemora branch of the Au Sable Forks, New York chapter. Inmates of the federal reformatory for women, Alderson, W. Va., contributed $113.

The Kay Jewelry stores, with executive offices in Washington, and operating throughout the nation, today contributed $4,000 representing its "family of stores."

Recent contributors to the local chapter of the Red Cross are R. E. Blatterman, Julian Blunt, F. B. Chase, D. H. Marshall, G. B. Studdard and H. L. Collens.

The total of contributions has reached $4,819 in Monroe.

# WAR BULLETINS

(Continued from First Page)

Sweden's iron ore for Germany, were given prison sentences today.

Afred Frederick Rickman and Ernest John Biggs, Englishmen, were sentenced to eight and five years, respectively, and Arne Erich Behrisch, a German printer, and Elsa Johansson, three and a half years each.

**FUSED BOMBS**

BERLIN, June 29.—(AP)—DNB, German news agency, said today the German air force dropped bombs with time fuses in its war on Britain because the royal air force for months has dropped such bombs on German soil.

**SUBS SUNK**

LONDON, June 29.—(AP)—The admiralty announced today "two more" Italian submarines had been sunk.

A brief communique said:

"The commander-in-chief, East Indies, reports further successes by his forces. Two more Italian U-boats have been destroyed."

**POLES JOIN BRITISH**

LONDON, June 29.—(AP)—Six thousand Polish troops have crossed the Syrian frontier into Palestine and joined the British forces there, the Polish government announced today through British official sources.

**ASKS TRIO TO QUIT**

LONDON, June 29.—(AP)—Lord Strabolgi, Labor leader in the house of lords, released an open letter to British editors today in which he said that if former Prime Minister Chamberlain, Foreign Secretary Lord Halifax and Sir Samuel Hoare, ambassador to Spain, would retire it would be the greatest service they could do their country and its cause.

**FEEL OWN BOMBS**

LONDON, June 29.—(AP)—Experts who examined bombs dropped by German planes in Scotland Thursday night declared today that they were "made in Britain." The bombs presumably were part of the booty which fell to the Germans in Flanders.

**ARREST LADY DIANA**

LONDON, June 29.—(AP)—Lady Diana Mosley, wife of Sir Oswald Mosley and sister of Unity Freeman-Mitford, was arrested this afternoon at her home, Savetay farm, Denham, Buckinghamshire. Plainclothes men detained Lady Diana under defense regulations. Her husband, Sir Oswald, was jailed May 23.

Sir Oswald is the leader of British Fascists. Miss Freeman-Mitford is an admirer of Adolf Hitler who returned to England from Munich last January, suffering from a bullet wound in her neck which never was publicly explained.

**SIGN PACT**

BERLIN, June 29.—(AP)—Trade negotiations between Germany and Finland ended with an agreement today.

**CONFERENCE HELD**

LONDON, June 30 (Sunday)—(AP)—A German radio broadcast heard here early today said German, Italian, Rumanian, Bulgarian, Yugoslav and Hungarian representatives conferred in Rome yesterday "to discuss transport and trade questions arising from recent events."

# NEW U. S. TAXES START ON MONDAY

(Continued from First Page)

cars, from 3 to 3 1-2 per cent; and so on for 30-odd other items.

Amusement admission taxes will begin at 21 cents, instead of 41. The scale of 1 cent for each 10 cents of admission price will continue. A total of 2,200,000 new income taxpayers will join the 2,900,000 to whom the government already sends "please remit" notices every March 15.

They will be made subject to tax on their 1940 incomes as result of lowering the personal exemptions of married persons from $2,500 to $2,000 and of single persons from $1,000 to $800.

In addition, a "super-tax" of 10 per cent of the normal income is imposed.

Chief products of Italian mines are sulphur, mercury, zinc and iron.

# 'Kid' Cupid Lags In June With 78 Weddings In Area

'Kid' Cupid, the bow and arrow boy of the heartstrings, virtually had no more luck in Monroe during June—usually his most promising period of romance—than he did during other months of 1940. However, the number of June brides increased over June of last year.

This was revealed here yesterday by vital statistics in the clerk of court's office.

From June 15, 1938, to June 15, 1939, there were 723 weddings in the city of Monroe, 62 of these taking place in the month of June.

June 15, 1939, to June 15, 1940, saw a slight increase, there being a total of 831 marriages during this 12-month period. Only 78 of these were in June. This number only slightly exceeds the average number of marriages for the other months of the year.

Perhaps our idea that June is the romantic climax of the year came, like so many other things, from some ancient Greek or Roman legend.

# FONTENOT SLATED FOR STATE OFFICE

(Continued from First Page)

velt, Fontenot collected more than $300,000,000 federal taxes.

After serving several clerkships in Washington during his early career, Fontenot served as chief of the federal income tax division at New Orleans in 1914. He resigned to become secretary at Washington of former Senator Joseph E. Ransdell of Louisiana.

From 1919 to 1921, Fontenot served as internal revenue collector in Louisiana, then resigned and entered business in Shreveport as a public accountant and tax consultant. Seriously injured in a railroad wreck in 1925, he was forced into temporary retirement from business. He went to Texas to regain his health.

In 1933, Fontenot returned to Louisiana as assistant collector of internal revenue, advancing to head of the office in 1934, a position he has held up to his resignation this morning.

Fontenot married in 1910 to the former Viola Warner of New Orleans. They have two daughters, Mrs. Homer R. Robinson, New Orleans, and Mrs. John M. Green, Beaumont, Tex.

Cooper has been receiving $7,500 annual salary but, under state law, the collector's salary is fixed by the governor. Fontenot's appointment to the state position has been expected for weeks and several members of his New Orleans federal staff have taken positions in the state department.

**ACTING COLLECTOR**

NEW ORLEANS, June 29.—(AP)—Grady C. Durham, assistant United States collector of internal revenue for Louisiana, will become acting collector Monday pending installation of a successor to Rufus W. Fontenot, who resigned the office to become collector of revenue for the state of Louisiana.

Durham, a native of Winnfield, is a graduate of Louisiana college and a former newspaper reporter in Alexandria. He has been assistant collector for four years.

## DEATHS

**THOMAS H. WADE**

Thomas H. Wade, 80, died at his home, 207 Louise Anne avenue, Saturday about 12:30 p.m. after an extended illness.

Funeral services will be held at the Dixie Funeral chapel at 2:30 p.m. Sunday, with Rev. L. T. Hastings officiating. Interment will be in the Hadley cemetery.

Mr. Wade is survived by his widow, Mrs. Betty Wade, and one sister, Betty Bistery of Palestine, Tex.

Pallbearers will be Clarence Judy, Henry Deal, J. B. Mitchell, B. E. Averett, L. H. Averett and W. W. Boxley.

# LANTERN PARADE IS SET THURSDAY

The annual lantern parade and a baby bathing revue will be held at the Forsythe park Thursday night, sponsored by the Monroe Recreation department as part of the city's celebration of the Fourth of July, Miss Lucyle Godwin, superintendent, announced yesterday.

Registrations for entrance in the baby bathing revue may be made at the recreation center, 124 1-2 DeSiard, and the only requirement is that the entrant be between the walking age and kindergarten age.

Lanterns for the parade will be made by children at their respective playgrounds. Should any child who does not participate in any of the playground activities wish to make a lantern and enter it in the parade, they may do so, Miss Godwin said.

The baby bathing revue will be held at the city swimming pool at 7:30 Thursday and the lantern parade on the Forsythe park walk at 8:30 p.m.

**TIGERS WIN, TIE**

ST. LOUIS, June 29.—(AP)—A free-scoring second game of a double-header between the Detroit Tigers and the St. Louis Browns today was called at the end of nine innings on account of darkness, with the score tied at 9-all. The Tigers won the opener, 9 to 5.

In the nightcap Walt Judnich's single off Alton Benton scored George McQuinn with the tying run in the eighth after the Browns had scored four runs on four hits and an error, including Judnich's twelfth homer, in the seventh.

A three-run St. Louis uprising routed Schoolboy Rowe in the third inning, with Roy Cullenbine's home run leading the attack.

The Tigers loaded the bases right pop out of the box against Elden Auker in the first game and Hank Greenberg cleared them with a home run. Bruce Campbell hit for the circuit in the same inning, and Dick Bartell got two singles, the second driving in another run, and it was all over for practical purposes.

**NATS BEAT BOSTON**

BOSTON, June 29.—(AP)—Rapping out 18 hits off five Boston pitchers, the Washington Senators won their second straight game from the Red Sox today, 9-7, despite home runs by Ted Williams and Bobby Doerr.

The game was decided in the eighth by Zeke Bonura's double into the left-field corner with the bases loaded. John Welaj started the inning by singling as a pinchhitter for Sid Hudson. Fred Ostermueller, who wound up the losing pitcher, fanned George Case, but Buddy Lewis and Gerald Walker singled to load the sacks and bring in Relief Pitcher Emerson Dickman, who was promptly tagged for Bonura's two-bagger.

## MARKETS AT A GLANCE

NEW YORK, June 29.—(AP)—Stocks irregular; demand for leaders wanes. Bonds mixed; weekend quiet rules. Foreign exchange unsettled; sterling slumps. Cotton soft; hedge and Bombay pressure. Metals quiet; domestic copper price improves. Wool tops easy; trade and commission house selling.

CHICAGO—Wheat lower. Corn lower. Cattle steady. Hogs steady.

## NEW YORK STOCKS

NEW YORK, June 29.—(AP)—Buying demand faltered in today's stock market and many traders stepped aside to await further developments in politics, business and the European war.

A portion of yesterday's rally seeped into the list at the start, when fractional gains were registered in most departments. At the close prices were spotty with several leaders down a shade to around a point.

Dealings were inconsequential throughout. Transfers for the two hours approximated 200,000 shares.

Wall Street, generally, retained much of its optimism engendered by the Willkie presidential nomination but it was realized the campaign had a long way to go.

Among restraining influences listed in brokerage quarters were: possibility of a devastating German blast at England, chances of an early peace involving important alterations in the nature of American export trends, and practical certainty of a thorough revision of the federal tax structure before the end of the year.

Bonds were uneven, as were commodities. "Free" sterling weakened in terms of the dollar.

Backward in the curb were Aluminum of America, Electric Bond and Share, Brewster Aero and American Gas. Up at one time were American Cyanamid "B", Glen Alden Coal, New Jersey Zinc and Phoenix Securities.

# TWO PHYSICIANS OFF TO FRANCE

## Will Aid Red Cross To Alleviate Suffering Of War Refugees

Dr. Edgar Kahn of Ann Arbor, brain surgeon, and Dr. John M. Converse of New York, left June 12 and 15, respectively, for France, where they were assigned to work in Pau. Wires received from Red Cross representatives indicated there was great need of medical service, the local chapter announced.

The United States lines received a wireless from the Red Cross mercy ship's captain, Vernon L. Jubb, giving his position as 380 miles west of Bilbao, Spain, and stating that "all's well."

Total contributions to the American Red Cross war relief fund today were $15,633,253.

Contributions from the inmates of two prisons were announced. Inmates of Clinton prison sent $200 to the Dannemora branch of the Au Sable Forks, New York chapter. Inmates of the federal reformatory for women, Alderson, W. Va., contributed $113.

The Kay Jewelry stores, with executive offices in Washington, and operating throughout the nation, today contributed $4,000 representing its "family of stores."

Recent contributors to the local chapter of the Red Cross are R. E. Blatterman, Julian Blunt, F. B. Chase, D. H. Marshall, G. B. Studdard and H. L. Collens.

The total of contributions has reached $4,819 in Monroe.

# WAR BULLETINS

Sweden's iron ore for Germany, were given prison sentences today.

Afred Frederick Rickman and Ernest John Biggs, Englishmen, were sentenced to eight and five years, respectively, and Arne Erich Behrisch, a German printer, and Elsa Johansson, three and a half years each.

### FUSED BOMBS

BERLIN, June 29.—(AP)—DNB, German news agency, said today the German air force dropped bombs with time fuses in its war on Britain because the royal air force for months has dropped such bombs on German soil.

### SUBS SUNK

LONDON, June 29.—(AP)—The admiralty announced today "two more" Italian submarines had been sunk.

A brief communique said:

"The commander-in-chief, East Indies, reports further successes by his forces. Two more Italian U-boats have been destroyed."

### POLES JOIN BRITISH

LONDON, June 29.—(AP)—Six thousand Polish troops have crossed the Syrian frontier into Palestine and joined the British forces there, the Polish government announced today through British official sources.

### ASKS TRIO TO QUIT

LONDON, June 29.—(AP)—Lord Strabolgi, Labor leader in the house of lords, released an open letter to British editors today in which he said that if former Prime Minister Chamberlain, Foreign Secretary Lord Halifax and Sir Samuel Hoare, ambassador to Spain, would retire it would be the greatest service they could do their country and its cause.

### FEEL OWN BOMBS

LONDON, June 29.—(AP)—Experts who examined bombs dropped by German planes in Scotland Thursday night declared today that they were "made in Britain." The bombs presumably were part of the booty which fell to the Germans in Flanders.

### ARREST LADY DIANA

LONDON, June 29.—(AP)—Lady Diana Mosley, wife of Sir Oswald Mosley and sister of Unity Freeman-Mitford, was arrested this afternoon at her home, Savetay farm, Denham, Buckinghamshire. Plainclothes men detained Lady Diana under defense regulations. Her husband, Sir Oswald, was jailed May 23.

Sir Oswald is the leader of British Fascists. Miss Freeman-Mitford is an admirer of Adolf Hitler who returned to England from Munich last January, suffering from a bullet wound in her neck which never was publicly explained.

### SIGN PACT

BERLIN, June 29.—(AP)—Trade negotiations between Germany and Finland ended with an agreement today.

### CONFERENCE HELD

LONDON, June 30 (Sunday)—(AP)—A German radio broadcast heard here early today said German, Italian, Rumanian, Bulgarian, Yugoslav and Hungarian representatives conferred in Rome yesterday "to discuss transport and trade questions arising from recent events."

# NEW U. S. TAXES START ON MONDAY

cars, from 3 to 3 1-2 per cent; and so on for 30-odd other items.

Amusement admission taxes will begin at 21 cents, instead of 41. The scale of 1 cent for each 10 cents of admission price will continue. A total of 2,200,000 new income taxpayers will join the 2,900,000 to whom the government already sends "please remit" notices every March 15.

They will be made subject to tax on their 1940 incomes as result of lowering the personal exemptions of married persons from $2,500 to $2,000 and of single persons from $1,000 to $800.

In addition, a "super-tax" of 10 per cent of the normal income is imposed.

# 'Kid' Cupid Lags In June With 78 Weddings In Area

"Kid" Cupid, the bow and arrow boy of the heartstrings, virtually had no more luck in Monroe during June—usually his most promising period of romance—than he did during other months of 1940. However, the number of June brides increased over June of last year.

This was revealed here yesterday by vital statistics in the clerk of court's office.

From June 15, 1938, to June 15, 1939, there were 723 weddings in the city of Monroe, 62 of these taking place in the month of June.

June 15, 1939, to June 15, 1940, saw a slight increase, there being a total of 833 marriages during this 12-month period. Only 78 of these were in June. This number only slightly exceeds the average number of marriages for the other months of the year.

Perhaps our idea that June is the romantic climax of the year came, like so many other things, from some ancient Greek or Roman legend.

# FONTENOT SLATED FOR STATE OFFICE

(Continued from First Page)

velt, Fontenot collected more than $300,000,000 federal taxes.

After serving several clerkships in Washington during his early career, Fontenot served as chief of the federal income tax division at New Orleans in 1914. He resigned to become secretary at Washington of former Senator Joseph E. Ransdell of Louisiana.

From 1919 to 1921, Fontenot served as internal revenue collector in Louisiana, then resigned and entered business in Shreveport as a public accountant and tax consultant. Seriously injured in a railroad wreck in 1925, he was forced into temporary retirement from business. He went to Texas to regain his health.

In 1933, Fontenot returned to Louisiana as assistant collector of internal revenue, advancing to head of the office in 1934, a position he has held up to his resignation this morning.

Fontenot married in 1910 to the former Viola Warner of New Orleans. They have two daughters, Mrs. Homer R. Robinson, New Orleans, and Mrs. John M. Green, Beaumont, Tex.

Cooper has been receiving $7,500 annual salary but, under state law, the collector's salary is fixed by the governor. Fontenot's appointment to the state position has been expected for weeks and several members of his New Orleans federal staff have taken positions in the state department.

### ACTING COLLECTOR

NEW ORLEANS, June 29.—(AP)—Grady C. Durham, assistant United States collector of internal revenue for Louisiana, will become acting collector Monday pending installation of a successor to Rufus W. Fontenot, who resigned the office to become collector of revenue for the state of Louisiana.

Durham, a native of Winnfield, is a graduate of Louisiana college and a former newspaper reporter in Alexandria. He has been assistant collector for four years.

# LANTERN PARADE IS SET THURSDAY

The annua llantern parade and a baby bathing revue will be held at the Forsythe park Thursday night, sponsored by the Monroe Recreation department as part of the city's celebration of the Fourth of July, Miss Lucyle Godwin, superintendent, announced yesterday.

Registrations for entrance in the baby bathing revue may be made at the recreation center, 124 1-2 DeSiard, and the only requirement is that the entrant be between the walking age and kindergarten age.

Lanterns for the parade will be made by children at their respective playgrounds. Should any child who does not participate in any of the playground activities wish to make a lantern and enter it in the parade, they may do so, Miss Godwin said.

The baby bathing revue will be held at the city swimming pool at 7:30 Thursday and the lantern parade on the Forsythe park walk at 8:30 p.m.

### TIGERS WIN, TIE

ST. LOUIS, June 29.—(AP)—A free-scoring second game of a doubleheader between the Detroit Tigers and the St. Louis Browns today was called at the end of nine innings on account of darkness, with the score tied at 9-all. The Tigers won the opener, 9 to 5.

In the nightcap Walt Judnich's single off Alton Benton scored George McQuinn with the tying run in the eighth after the Browns had scored four runs on four hits and an error, including Judnich's twelfth homer, in the seventh.

A three-run St. Louis uprising routed Schoolboy Rowe in the third inning, with Roy Cullenbine's home run leading the attack.

The Tigers loaded the bases right pop out of the box against Elden Auker in the first game and Hank Greenberg cleared them with a home run. Bruce Campbell hit for the circuit in the same inning, and Dick Bartell got two singles, the second driving in another run, and it was all over for practical purposes.

### NATS BEAT BOSTON

BOSTON, June 29.—(AP)—Rapping out 18 hits off five Boston pitchers, the Washington Senators won their second straight game from the Red Sox today, 9-7, despite home runs by Ted Williams and Bobby Doerr.

The game was decided in the eighth by Zeke Bonura's double into the left-field corner with the bases loaded. John Welaj started the inning by singling as a pinchhitter for Sid Hudson. Fred Ostermueller, who wound up the losing pitcher, fanned George Case, but Buddy Lewis and Gerald Walker singled to load the sacks and bring in Relief Pitcher Emerson Dickman, who was promptly tagged for Bonura's two-bagger.

### MARKETS AT A GLANCE

NEW YORK, June 29.—(AP)—Stocks irregular; demand for leaders wanes. Bonds mixed; weekend quiet rules. Foreign exchange unsettled; sterling slumps. Cotton soft; hedge and Bombay pressure. Metals quiet; domestic copper price improves. Wool tops easy; trade and commission house selling.

CHICAGO—Wheat lower. Corn lower. Cattle steady. Hogs steady.

## NEW YORK STOCKS

NEW YORK, June 29.—(AP)—Buying demand faltered in today's stock market and many traders stepped aside to await further developments in politics, business and the European war.

A portion of yesterday's rally seeped into the list at the start, when fractional gains were registered in most departments. At the close prices were spotty with several leaders down a shade to around a point.

Dealings were inconsequential throughout. Transfers for the two hours approximated 200,000 shares.

Wall Street, generally, retained much of its optimism engendered by the Willkie presidential nomination but it was realized the campaign had a long way to go.

Among restraining influences listed in brokerage quarters were: possibility of a devastating German blast at England, chances of an early peace involving important alterations in the nature of American export trends, and practical certainty of a thorough revision of the federal tax structure before the end of the year.

Bonds were uneven, as were commodities. "Free" sterling weakened in terms of the dollar.

Backward in the curb were Aluminum of America, Electric Bond and Share, Brewster Aero and American Gas. Up at one time were American Cyanamid "B", Glen Alden Coal, New Jersey Zinc and Phoenix Securities.

# EXPLAIN FINANCES IN TECH'S BUDGET

## Business Manager Tells Of Appropriation Listed In State Bill

RUSTON, La., June 29 —(Special)— Explanation of the sum of $822,000, as listed in the legislature's general appropriation bill for Louisiana Tech each year of the next biennium, has been made by A. McFarland, business manager at Tech.

The figure, he stated, includes a state appropriation of $545,000 annually and a sum of $277,000 based on receipts and expenditures of all departments and agencies connected with the college the past year. The sum of $822,000 thus represents Tech's budget annually for the next two years.

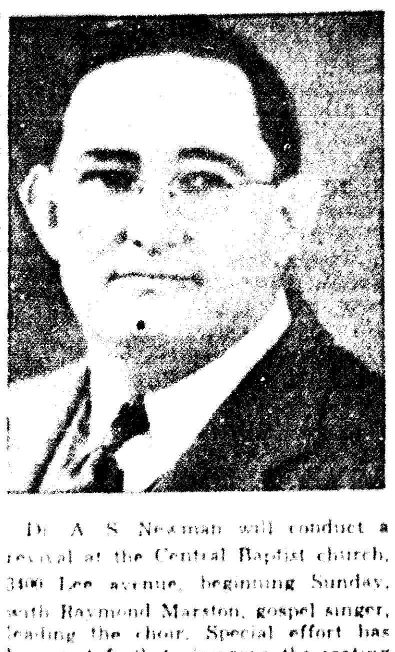
During the last college year, the state funds granted to Tech amounted to an appropriation of $425,000, a special fund of $45,000 for salaries of additional teachers, and $27,500 given for student help, or a total of $497,500. The appropriation included in the budget for the next biennium, therefore, is an increase of $47,500 above the total funds received from the state by Tech last year, Mr. McFarland pointed out.

The budget is said to have been approved by the appropriations committee of the state house of representatives and is awaiting passage in the house and senate.

The new setup provides for the receipts from the various Tech agencies and departments to be forwarded to Baton Rouge, it was said.

Details concerning disbursements of funds have not been announced here.

## PREACHER



Dr. A. S. Newman will conduct a revival at the Central Baptist church, 3400 Lee avenue, beginning Sunday, with Raymond Marston, gospel singer, leading the choir. Special effort has been put forth to improve the seating capacity of the auditorium in the hope that a very large congregation may be accommodated, Rev. D. D. Cantrell announced.

# CONGRESS FACES QUITTING ACTION

## New Talk For Adjournment Circulating On Washington Fronts

WASHINGTON, June 29 —(AP)— Talk of a new administration drive for congressional adjournment circulated on Capitol Hill today as the legislators began returning after the week's recess for the Republican convention.

Senator Ellender, Democrat, Louisiana, usually an administration follower, reported increasing sentiment for congress to quit.

"There is no real reason to stay here," Ellender said. "Our job is done and public hysteria is quieting down."

Senator McNary, Republican, Oregon, minority leader and his party's vice-presidential candidate, said the Republicans would continue to oppose adjournment, but would agree to a 16-day recess for the Democratic convention at Chicago beginning July 15, rather than only a week's recess.

Indications are that little will be accomplished in congress next week aside from committee, and possibly senate, consideration of President Roosevelt's nominations of Colonel Frank Knox to be secretary of the navy, and Henry L. Stimson to be secretary of war.

McNary said he expected the senate to meet Monday, recess until Wednesday, then recess again—over the Fourth of July—to Friday.

Knox and Stimson are to appear before the naval and military committees respectively on Tuesday morning. Chairman Walsh, Democrat, Massachusetts, of the naval committee said that Knox's testimony would be received at a closed session and Chairman Sheppard, Democrat, Texas, said it was probable that Stimson also would be questioned in private.

## RANKIN'S STATEMENT ON WILLKIE'S NAMING

WASHINGTON, June 29 —(AP)— Representative Rankin, Democrat, Mississippi, said in a statement today that as a result of the "power trust blitzkrieg" at Philadelphia, "the octopus" should be substituted for the elephant as the Republican party's emblem.

He said the Republican nomination of Wendell Willkie, utilities executive, would make "the power question" the outstanding issue of the campaign.

## ACTORS TO CHRISTEN TECH STAGE

Pictured above are Louisiana Tech theater players, who will present the first play on the stage of the spacious new Harry Howard auditorium at the college in Ruston on July 15. An umbrella scene from the show, entitled "Our Town," is shown in the upper center. Among the student actors in the cast are: Upper left, Evelyn McGee, Bernice; upper right, Frank Voelker, Lake Providence; middle row, left to right, Margaret Templeton, Ruston, Maurice Ursery, Arcadia, and Juanita Jones, Hodge; lower row, Harry Kudrick, Ruston, Miss Maurice Smith, West Monroe, and John Wiley, Long Island, N. Y.

# DYNAMITE PETE WILL GET WIFE

## She Answers His Letter, He Goes To Town To Fetch Her

OMAHA, Neb., June 29 —(AP)— Dynamite Pete Everett—he's what he calls a sport hermit—can stand on his head and play the fiddle, and he's fair on his way to get the bride he wants.

The 80-year-old recluse came to town, seeking a wife to share the dugout he calls home on Pawnee creek near South Bend.

Myrtle Mason, 41, whose 80-year-old husband died last year, read of Pete's longings in a newspaper, and got a friend to write him a letter. (She isn't very good with words, she says.)

Pete answered promptly. Myrtle sent him another letter and a picture, saying it's all O. K. She told Pete she has red curly hair and blue eyes.

And Pete, stirred by the realization of his ambition, wrote in his three-page letter:

"Will answer the best I can. I like women but I know no one would come out in the woods and live with me. . . . I get an old age pension check once a month. . . . I get government commodity stuff twice a month. . . .

"I have been in over 14 states years ago. I can walk 25 miles a day. I am healthy. Can stand on my head. I can play my old fiddle. . . .

"I am what they call a sport hermit. I am full of fun. I like my beer. I never quarrel. If I had a wife she could do as she pleased, and all, outside of men friends."

Myrtle says all Pete has to do is come and get her.

## TWIN CITIES GROUP OFFERS ITS SERVICES

In a letter to President Franklin D. Roosevelt, C. C. Boardman, president of the Monroe Chamber of Commerce appropriations committee for national defense, stated that the Chambers of Commerce of Monroe and West Monroe had formed a city committee for national defense, which is ready to perform any service within "its power to defend and preserve our nation, the freedom of American people and the blessings of democracy."

"We await your command," President Boardman said in the letter.

Members of the committee are C. H. McHenry, chairman; C. W. Wallace, Roger White and Fred F. Millsaps.

## SHE KNOWS SYMPTOMS, CALLS HER MATE, DIES

HEMPSTEAD, N. Y., June 29 —(AP)— As a former Holyoke, Mass., superintendent of nurses, 51-year-old Mrs. Mabel Alice Johnson Curran knew what had happened when paralysis began to creep over her body.

Calmly, she reached for the telephone in her bedroom and called her husband:

"It's come, Frank, but I have 15 minutes or so anyhow before I lose consciousness."

She asked that a physician be summoned and her daughter notified. She died of a stroke a few minutes after all had arrived at her bedside.

## JOHN M'KEE PRESIDENT OF PARISH RADIO CLUB

Officers for the next six months were elected by the Ouachita Valley Amateur Radio club at its regular meeting Thursday at Northeast Junior college.

John P. McKee, W5AKJ, West Monroe, succeeds E. S. (Red) Wells who held the office of president for the past year.

C. McCoy, W5DXL, is the new first vice-president, and E. G. Pringle, W5HOS, the second vice-president.

Other officers are Bernie Wilenzick, W5IVF, secretary; Mrs. E. S. Wells, W5HEK, treasurer, and J. W. Cunningham, publicity manager.

# Happenings At Capital

By Ben Grant

PHILADELPHIA, June 29 —(AP)— The conservative Democrat is the catch hopeful Republican leaders from the south are angling for this year.

And they are allowing themselves the hope that there are enough dissatisfied Democrats waiting to be lured away to put the south in 1940's doubtful column.

To break the south's one-party tradition has been the dream of Republican chieftains for many years. They left this convention city today vowing to each other that the time was ripe.

The party's candidate himself, they argued, has set the pace. Wendell Willkie turned Republican when New Deal doctrines displeased him. And Willkie, assert the men who nominated him, is the sort who can persuade others to walk out on the party.

With the very fact of Willkie's nomination, they argued, Republicans can prove that the party stands ready to take newcomers into the inner councils. Failure to recognize the "Hoovercrats" of 1928 in some substantial way was said by many to have destroyed Republican gains in the south.

George Norwood, South Carolina banker and national committeeman, said hundreds of "former Democrats" had telegraphed him they were ready to work for Willkie's election. He added, "I think it is entirely possible for the solid south to be broken this year."

From Henry A. Wise, Virginia national committeeman, came the assertion that thousands of southerners were willing "to discard old prejudices" and vote for Willkie. He added that the Republican party had discarded a prejudice of its own in nominating a former Democrat.

"Considering the demands made on me in the course of this convention from all parts of Virginia," Wise said, "I am encouraged to believe we can carry Virginia for Willkie."

John E. Jackson, Louisiana committeeman, called for the appointment of a southerner in Willkie's cabinet. This and other "proper recognition" of the south, he declared, would be "a long step toward making the south doubtful if not Republican." Jackson said Louisiana would poll more than 100,000 votes for the Republican nominee this year.

B. L. Noojin, Alabama committeeman, said conservative Democrats all over the south were "looking for a party because they have been deserted by their own." He cautioned the party against the attitude it took toward the 1928 "Hoovercrats."

Georgians asserted the Democratic party, still broken apart because of President Roosevelt's ill-fated "purge" of 1938, was ripe for Republican inroads this year.

"We'll break up that one-party system yet," said Committeeman James W. Arnold of Georgia. "The Republican party is growing in our state. The young folks are coming over to us."

J. Leonard Replogle, Florida committeeman, said there was "a mighty good chance" for Florida to go Republican this year. All over the state, he declared, Democrats are dissatisfied, particularly with the sugar quota system and the trade agreements program.

C. H. McNulty, chairman of Florida's convention delegation, told the party, "If you ever break the solid south, Florida will be the entering wedge."

# EXPLAIN FINANCES IN TECH'S BUDGET

## Business Manager Tells Of Appropriation Listed In State Bill

RUSTON, La., June 29.—(Special)—Explanation of the sum of $822,000, as listed in the legislature's general appropriation bill for Louisiana Tech each year of the next biennium, has been made by A. McFarland, business manager at Tech.

The figure, he stated, includes a state appropriation of $545,000 annually and a sum of $277,000 based on receipts and expenditures of all departments and agencies connected with the college the past year. The sum of $822,000 thus represents Tech's budget annually for the next two years.

During the last college year, the state funds granted to Tech amounted to an appropriation of $425,000, a special fund of $45,000 for salaries of additional teachers, and $27,500 given for student help, or a total of $497,500. The appropriation included in the budget for the next biennium, therefore, is an increase of $47,500 above the total funds received from the state by Tech last year, Mr. McFarland pointed out.

The budget is said to have been approved by the appropriations committee of the state house of representatives and is awaiting passage in the house and senate.

The new setup provides for the receipts from the various Tech agencies and departments to be forwarded to Baton Rouge, it was said.

Details concerning disbursements of funds have not been announced here.

## PREACHER

Dr. A. S. Newman will conduct a revival at the Central Baptist church, 3400 Lee avenue, beginning Sunday, with Raymond Marston, gospel singer, leading the choir. Special effort has been put forth to improve the seating capacity of the auditorium in the hope that a very large congregation may be accommodated, Rev. D. D. Cantrell announced.

# CONGRESS FACES QUITTING ACTION

## New Talk For Adjournment Circulating On Washington Fronts

WASHINGTON, June 29.—(AP)—Talk of a new administration drive for congressional adjournment circulated on Capitol Hill today as the legislators began returning after the week's recess for the Republican convention.

Senator Ellender, Democrat, Louisiana, usually an administration follower, reported increasing sentiment for congress to quit.

"There is no real reason to stay here," Ellender said. "Our job is done and public hysteria is quieting down."

Senator McNary, Republican, Oregon, minority leader and his party's vice-presidential candidate, said the Republicans would continue to oppose adjournment, but would agree to a 10-day recess for the Democratic convention at Chicago beginning July 15, rather than only a week's recess.

Indications are that little will be accomplished in congress next week aside from committee, and possibly senate, consideration of President Roosevelt's nominations of Colonel Frank Knox to be secretary of the navy, and Henry L. Stimson to be secretary of war.

McNary said he expected the senate to meet Monday, recess until Wednesday, then recess again—over the Fourth of July—to Friday.

Knox and Stimson are to appear before the naval and military committees respectively on Tuesday morning. Chairman Walsh, Democrat, Massachusetts, of the naval committee said that Knox's testimony would be received at a closed session and Chairman Sheppard, Democrat, Texas, said it was probable that Stimson also would be questioned in private.

## RANKIN'S STATEMENT ON WILLKIE'S NAMING

WASHINGTON, June 29.—(AP)—Representative Rankin, Democrat, Mississippi, said in a statement today that as a result of the "power trust blitzkrieg" at Philadelphia, "the octopus" should be substituted for the elephant as the Republican party's emblem.

He said the Republican nomination of Wendell Willkie, utilities executive, would make "the power question" the outstanding issue of the campaign.

## ACTORS TO CHRISTEN TECH STAGE

Pictured above are Louisiana Tech theater players, who will present the first play on the stage of the spacious new Harry Howard auditorium at the college in Ruston on July 15. An umbrella scene from the show, entitled "Our Town," is shown in the upper center. Among the student actors in the cast are: Upper left, Evelyn McGee, Bernice; upper right, Frank Voelker, Lake Providence; middle row, left to right, Margaret Templeton, Ruston, Maurice Ursery, Arcadia, and Juanita Jones, Hodge; lower row, Harry Kudrick, Ruston, Miss Maurice Smith, West Monroe, and John Wiley, Long Island, N. Y.

# Happenings At Capital

By Ben Grant

PHILADELPHIA, June 29.—(AP)—The conservative Democrat is the catch hopeful Republican leaders from the south are angling for this year.

And they are allowing themselves the hope that there are enough dissatisfied Democrats waiting to be lured away to put the south in 1940's doubtful column.

To break the south's one-party tradition has been the dream of Republican chieftains for many years. They left this convention city today vowing to each other that the time was ripe.

The party's candidate himself, they argued, has set the pace. Wendell Willkie turned Republican when New Deal doctrines displeased him. And Willkie, assert the men who nominated him, is the sort who can persuade others to walk out on the party.

With the very fact of Willkie's nomination, they argued, Republicans can prove that the party stands ready to take newcomers into the inner councils. Failure to recognize the "Hoovercrats" of 1928 in some substantial way was said by many to have destroyed Republican gains in the south.

George Norwood, South Carolina banker and national committeeman, said hundreds of "former Democrats" had telegraphed him they were ready to work for Willkie's election. He added, "I think it is entirely possible for the solid south to be broken this year."

From Henry A. Wise, Virginia national committeeman, came the assertion that thousands of southerners were willing "to discard old prejudices" and vote for Willkie. He added that the Republican party had discarded a prejudice of its own in nominating a former Democrat.

"Considering the demands made on me in the course of this convention from all parts of Virginia," Wise said, "I am encouraged to believe we can carry Virginia for Willkie."

John E. Jackson, Louisiana committeeman, called for the appointment of a southerner in Willkie's cabinet. This and other "proper recognition" of the south, he declared, would be "a long step toward making the south doubtful if not Republican." Jackson said Louisiana would poll more than 100,000 votes for the Republican nominee this year.

B. L. Noojin, Alabama committeeman, said conservative Democrats all over the south were "looking for a party because they have been deserted by their own." He cautioned the party against the attitude it took toward the 1928 "Hoovercrats."

Georgians asserted the Democratic party, still broken apart because of President Roosevelt's ill-fated "purge" of 1938, was ripe for Republican inroads this year.

"We'll break up that one-party system yet," said Committeeman James W. Arnold of Georgia. "The Republican party is growing in our state. The young folks are coming over to us."

J. Leonard Replogle, Florida committeeman, said there was "a mighty good chance" for Florida to go Republican this year. All over the state, he declared, Democrats are dissatisfied, particularly with the sugar quota system and the trade agreements program.

C. H. McNulty, chairman of Florida's convention delegation, told the party, "If you ever break the solid south, Florida will be the entering wedge."

# DYNAMITE PETE WILL GET WIFE

## She Answers His Letter, He Goes To Town To Fetch Her

OMAHA, Neb., June 29.—(AP)—Dynamite Pete Everett—he's what he calls a sport hermit—can stand on his head and play the fiddle, and he's fair on his way to get the bride he wants.

The 80-year-old recluse came to town, seeking a wife to share the dugout he calls home on Pawnee creek near South Bend.

Myrtle Mason, 41, whose 80-year-old husband died last year, read of Pete's longings in a newspaper, and got a friend to write him a letter. (She isn't very good with words, she says.)

Pete answered promptly. Myrtle sent him another letter and a picture, saying it's all O. K. She told Pete she has red curly hair and blue eyes.

And Pete, stirred by the realization of his ambition, wrote in his three-page letter:

"Will answer the best I can. I like women but I know no one would come out in the woods and live with me. . . . I get an old age pension check once a month. . . . I get government commodity stuff twice a month. . . .

"I have been in over 14 states years ago. I can walk 25 miles a day. I am healthy. Can stand on my head. I can play my old fiddle. . . .

"I am what they call a sport hermit. I am full of fun. I like my beer. I never quarrel. If I had a wife she could do as she pleased, and all, outside of men friends."

Myrtle says all Pete has to do is come and get her.

## TWIN CITIES GROUP OFFERS ITS SERVICES

In a letter to President Franklin D. Roosevelt, C. C. Boardman, president of the Monroe Chamber of Commerce appropriations committee for national defense, stated that the Chambers of Commerce of Monroe and West Monroe had formed a city committee for national defense, which is ready to perform any service within "its power to defend and preserve our nation, the freedom of American people and the blessings of democracy."

"We await your command," President Boardman said in the letter.

Members of the committee are C. H. McHenry, chairman; C. W. Wallace, Roger White and Fred F. Millsaps.

## SHE KNOWS SYMPTOMS, CALLS HER MATE, DIES

HEMPSTEAD, N. Y., June 29.—(AP)—As a former Holyoke, Mass., superintendent of nurses, 51-year-old Mrs. Mabel Alice Johnson Curran knew what had happened when paralysis began to creep over her body.

Calmly, she reached for the telephone in her bedroom and called her husband:

"It's come, Frank, but I have 15 minutes or so anyhow before I lose consciousness."

She asked that a physician be summoned and her daughter notified. She died of a stroke a few minutes after all had arrived at her bedside.

## JOHN M'KEE PRESIDENT OF PARISH RADIO CLUB

## Stubbs Reception Is Outstanding Affair

### Beautiful Setting Marks Event Following Wedding; Thoughts Of Monroyans Turn To Summer Pleasures

By Eve C. Bradford

IT is summer, the season of our delight. All thoughts of war, all doubts and fears, "the weary weight of this unintelligible world" pass away under the influence of summer days. Lovely peaceful summer is the antidote for fear and hysteria. There is another world all about us, as common as the grass and the winds, where we find, according to the poet Wordsworth, "a presence that disturbs us with the joy of elevated thoughts."

• • •

"The still, sad music of humanity" was lost in the overtones of the summer evening in the gardens of the Stubbs' home on Riverside, where the reception following the marriage of Carolyn Stubbs to Dr. Clyde Lynch took place last night following the ceremony. The word of nature in this beautiful garden was like a benediction. The tall trees, standing ground in this garden for generations, no doubt, stirred memories — intimate precious memories of days when Carolyn was a little girl—days when family parties were enjoyed beneath the spreading branches. Grand old trees are the noblest handiwork of nature —the longer you live with these stalwart and magnificent old "characters" the more beloved they become. The magnolias are exceptionally beautiful in the Stubbs gardens, and especially at this time when the blossoms steep the night in fragrance.

So many lovely, sentimental things were associated with Carolyn's wedding—the gold cross she wore, for instance, was brought back from France by her father, the late Colonel Frank Stubbs who served so bravely overseas during the World war. The cross was misplaced for a time, and Carolyn despaired of ever finding it. Her husband-to-be, however, was ready for such an emergency with a beautiful pearl cross that has been in the Lynch family for generations. He presented it to her as a wedding gift.

Maud Stubbs, the bride's mother, looked almost too young to have a daughter old enough to marry. She was wearing one of the loveliest gowns imaginable. It was fashioned of chartreuse chiffon and lace with purple orchids offering color contrast.

Didn't you love Carolyn's wedding gown? It was so charmingly naivete with it's Peter Pan collar and quite devoid of trimming.

A spirit of sentimentality pervaded the ceremony like a lingering fragrance—the prayer book Carolyn carried belonged to her great great grandmother, and is a cherished possession of the Stubbs family. Then there was the question of flowers—dewy fresh, straight from the garden as befitting an out-of-door wedding reception. Pages could be written about this lovely, romantic June wedding, but there are other things to write about, just as important and just as interesting. Virginia Faulk's wedding for instance, earlier in the week. She was a romantic looking bride in diaphanous marquisette, with a cloud of tulle enveloping her. Her sister, Barbara, wore one of the loveliest summer gowns we have ever seen. It, too, was made of diaphanous marquisette, embroidered in garlands of pastel-colored blossoms. Marion Faulk, the bride's mother, never looked as lovely as on her daughter's wedding day. She wore aqua and white with a smart little hat of aqua, vastly becoming.

Five Faulk brothers and four sisters, were in attendance at the wedding. A splendid representative family, by the way.

Mothers and daughters walked down the aisle at the Methodist church, where the ceremony took place. Never have we seen so many really lovely mothers and daughters. There was Ethel Boardman and daughter, Joan; Anna Speed and daughter, Vada; Birdie Farmer and daughter, Marjorie; Daisy Terzia and daughters, Jane and Nancy; Louise Kellogg and daughters, Mary Stuart and Rhoda; Wilhelmina Inabnet and daughter, Mary Lavinia; Lynn Kugler and daughter, Kay; Josephine Millsaps and daughter, Ellen Kent; Katie Mae Thornhill and daughter, Martha Jane; Mary Hudson and daughter, Doll, and so one, ad infinitum.

• • •

More "Home Sweet Home" mottoes are being tacked up along Island drive. Sue and King Stubbs are watching with breathless anticipation the foundation being laid for their new home. In architecture it will be Louisiana colonial, and will be ready for occupancy the first of October.

The scene along Island drive is one of blissful domesticity. There is one part of the day in particular when motorists move along with great precaution—it is the time when all the young fry are taken out in their perambulators in charge of their nurses. Not all ride in perambulators however—several have reached the interesting walking stage, and love to gambol on the green banks sloping down to the bayou's edge. A narrow wire fencing has been placed along this enclosure recently, thus assuring a medium of safety for the youngsters. Little Sue Stubbs will be a distinct acquisition to these beautiful children found in almost every home along Island drive.

• • •

Have you an extra sewing machine that you are not using all the time? Have you a few dollars you are not using? Have you a few hours each week that you can spend outside your home—or in it for that matter, doing work for men, women and children in distress? If you have some spare time, the Red Cross needs you.

Monroe women are responding to the call of the Red Cross in a way that makes one proud of them. The call for workers is a little different than it would be if the United States were at war, but it is just as urgent, just as necessary, and quite as definite.

• • •

Jean Terzia, lovely daughter of the Fensky Terzias, hasn't yet recaptured her breath after her whirlwind trip to New York City with Mary Hudson, Doll and Fred Hudson. It was a conituuous round of gaiety—morning in the swanky shops in search of glamorous trousseau clothes for Doll—matinees—night clubs and a bus ride along Fifth avenue, the high adventure of the day. Riding up Fifth avenue atop a bus never ceases to interest even the most sophisticated. There is always something new, something exciting and interesting in the throng as viewed from the top of a bus.

Jean's cup of joy ran over when she found one of her best friends, a former roommate at Sophie Newcomb, waiting for her in the lobby of her hotel one day. She was vacationing in Canada and paused in New York to visit Jean.

## Hubert P. Warden Weds Miss Meta Wood

Friends of Hubert P. Warden of Delhi, La., will learn with interest of his marriage to Miss Meta Wood of New York City on Thursday, June 27, at the home of Mr. and Mrs. Claud F. Clayton of Arlington, Va.

Dr. Andrew Bird, pastor of the Southern Presbyterian church of the Pilgrims, Washington, D. C., performed the ceremony in the presence of immediate relatives. The ceremony was followed by a wedding breakfast.

Miss Wood, who is the daughter of the late Dr. Roger B. Wood of Fulton, Mo., taught mathematics in Hunter college, New York City. She is a graduate of Synodical college, Fulton, Mo., and taught there for a number of years. She holds the degrees of A. B. and A. M. from the University of Wisconsin where she was elected to membership in Phi Beta Kappa. Miss Wood is a member of the Daughters of the American Revolution and of the American Association of University Women.

Mr. Warden, who holds the degree of LL.B. from the University of Missouri, and who practiced law for many years in Mexico, Mo., has resided in the state of Louisiana for some years where he is engaged in the operation of his plantations.

Out-of-town guests included Mrs. Roger B. Wood, the bride's mother, of Fulton, Mo.; Mr. and Mrs. Edward Wood and daughter, of Aux Vasse, Mo.; Mr. and Mrs. Charles W. Warden of Washington, D. C.; Miss Mary Ashby Slaughter, of Washington, Va.; Mr. and Mrs. George Baker of New York City; Miss Betty Virginia and Mr. John Clayton of Arlington.

Mr. and Mrs. Warden will make their home in Delhi.

## Miss Alloyse Wall Marries Lieut. Beall

Of interest was the wedding of Miss Alloyse Blanche Wall of Epps, daughter of Mr. T. Y. Wall and the late Mrs. Wall, and Lieutenant Robert T. Beall, of Dublin, Ga., solemnized at the Wall residence recently.

The ceremony was performed before an altar of green and white in the living room in the presence of the family and immediate friends, with the Rev. Guy Hicks, pastor of the Ruston Trinity Methodist church, officiating. Before the ceremony, Mr. Elbert Hoskins, member of the music faculty of Louisiana Polytechnic institute, Ruston, sang "Ave Maria," accompanied at the piano by Mrs. White.

The bride, attired in a navy mousseline de soie afternoon dress with white accessories and a shoulder corsage of white orchids, and lilies of the valley, entered on the arm of her father, who gave her in marriage.

Decorations of white daisies, sweet peas and ferns were used throughout the living room and circled the lace-covered table in the dining room, which was centered with a beautiful wedding cake, surmounted with a miniature bride and groom.

Mrs. Beall is a graduate of Louisiana Tech, having received her B. A. degree in music in 1938, from Northwestern university, Evanston, Ill. For the past two years she has been supervisor of music in the Ruston public schools.

Lieutenant Beall, a native of Georgia, and a graduate of Georgia Tech, is the son of Mr. and Mrs. C. A. Beall of Dublin, Ga.

He is a member of the Phi Kappa Tau fraternity and received his B. S. degree in 1936. He is at present serving as traveling auditor with the Civilian Conservation corps, with headquarters at Ruston.

After a wedding trip to various points in Arkansas, the young couple will be at home to their friends in Ruston.

## Miss Parker Entertains Entre Nous Members

Miss Wilma Parker invited members of the Entre Nous club to enjoy with her the celebration of her birthday anniversary at the home of her parents.

The cutting of the birthday cake, centering the beautifully appointed refreshment table, was the highlight of the evening's pleasures.

Iced fruit punch was served from crystal punch bowls during the evening.

Many beautiful gifts were presented to Miss Parker, including a birthstone ring from her parents.

Those present wishing the celebrant "happy birthday" were: Annette Butitta, Nancy Butitta, Madeline Hegwood, Gladys Hegwood, Flossie Lee Doty, Ella Mae Smith, Deara Dennis, Katie Brooks, Marjorie Roberts, Margie Cannon, Evelyn Watts, Eddie Cannon, Gurvis Coates, Jasper Haddad and James Kalil.

The next meeting of the Entre Nous club will be held at the home of Mrs. Mariella Milford, Monday night, July 1.

## Auxiliary Of V. F. W. Nominates Delegates

### Mrs. Hunt And Mrs. Keene Named To Attend National Encampment; Interesting Reports Heard

The regular meeting of the Rodney J. Hobbs auxiliary, Veterans of Foreign Wars, was held Thursday night at the V. F. W. home on Sixth street.

Delegates to the national encampment elected at this meeting were Mrs. Aline B. Hunt and Mrs. Emma H. Keene. Alternates were Mrs. DeVeria Blackwell and Mrs. Sleety B. Leonard.

An interesting report was made of the department encampment held last week at Lafayette, La. Delegates from the Hobbs auxiliary who attended were Mrs. DeVeria Blackwell, department guard; Mrs. Martha W. Logan, department conductress, Mrs. Emma H. Keene, Mrs. Alice P. Kearns, Mrs. Sleety B. Leonard and Mrs. Aline D. Hunt, Fifth district president. The encampment was reported as being one of the most successful ever held and the attendance one of the largest.

Of unusual interest was the announcement that two members of the auxiliary, department of Louisiana, had been recently presented with medals from England, France and Belgium for their distinguished services as United States army nurses during the World war. These members were the department president, Mrs. Edythe M. Redmon of Gretna and Mrs. Patricia Dillenkoffer of New Orleans.

The tea honoring Gold Star mothsided as Gold Star mother chairman. ers was an outstanding affair. Mrs. Dillenkoffer, a Gold Star mother, pre-The program was beautifully planned, the musical numbers being very appropriate and the tribute to these Gold Star mothers most fitting.

At the conclusion of the program each Gold Star mother was saluted affectionately by the chairman as she was presented with a beautiful corsage with the wish that they would be present at many more encampments. Another feature of the encampment was the memorial services held in the Fine Arts building of the Southwestern Louisiana college.

Mrs. Bessie Hankin of Revere, Mass., attended as representative of national headquarters. Mrs. Hankin served as national president from 1928 to 1932 and her work in the national organization is outstanding. Especially is she recognized for her efforts in behalf of the V. F. W. national home at Eaton Rapids, Mich. She was instrumental in the founding of this home and her account of the activities there was most interesting.

Mrs. Hankin told of a beautiful home wedding that was planned for one of the girls of the home who was married early in June. Her brother, also of the home, acted as best man.

The Monroe auxiliary had outstanding reports in all activities for which credits were received.

# June Weddings Hold Interest Of Society Throughout Northeast Louisiana

## Stubbs Reception Is Outstanding Affair

### Beautiful Setting Marks Event Following Wedding; Thoughts Of Monroyans Turn To Summer Pleasures

By Eve C. Bradford

IT is summer, the season of our delight. All thoughts of war, all doubts and fears, "the weary weight of this unintelligible world" pass away under the influence of summer days. Lovely peaceful summer is the antidote for fear and hysteria. There is another world all about us, as common as the grass and the winds, where we find, according to the poet Wordsworth, "a presence that disturbs us with the joy of elevated thoughts."

* * *

"The still, sad music of humanity" was lost in the overtones of the summer evening in the gardens of the Stubbs' home on Riverside, where the reception following the marriage of Carolyn Stubbs to Dr. Clyde Lynch took place last night following the ceremony. The word of nature in this beautiful garden was like a benediction. The tall trees, standing ground in this garden for generations, no doubt, stirred memories — intimate precious memories of days when Carolyn was a little girl—days when family parties were enjoyed beneath the spreading branches. Grand old trees are the noblest handiwork of nature—the longer you live with these stalwart and magnificent old "characters" the more beloved they become. The magnolias are exceptionally beautiful in the Stubbs gardens, and especially at this time when the blossoms steep the night in fragrance.

So many lovely, sentimental things were associated with Carolyn's wedding—the gold cross she wore, for instance, was brought back from France by her father, the late Colonel Frank Stubbs who served so bravely overseas during the World war. The cross was misplaced for a time, and Carolyn despaired of ever finding it. Her husband-to-be, however, was ready for such an emergency with a beautiful pearl cross that has been in the Lynch family for generations. He presented it to her as a wedding gift.

Maud Stubbs, the bride's mother, looked almost too young to have a daughter old enough to marry. She was wearing one of the loveliest gowns imaginable. It was fashioned of chartreuse chiffon and lace with purple orchids offering color contrast.

Didn't you love Carolyn's wedding gown? It was so charmingly naivete with it's Peter Pan collar and quite devoid of trimming.

A spirit of sentimentality pervaded the ceremony like a lingering fragrance—the prayer book Carolyn carried belonged to her great great grandmother, and is a cherished possession of the Stubbs family. Then there was the question of flowers—dewy fresh, straight from the garden as befitting an out-of-door wedding reception. Pages could be written about this lovely, romantic June wedding, but there are other things to write about, just as important and just as interesting. Virginia Faulk's wedding for instance, earlier in the week. She was a romantic looking bride in diaphanous marquisette, with a cloud of tulle enveloping her. Her sister, Barbara, wore one of the loveliest summer gowns we have ever seen. It, too, was made of diaphanous marquisette, embroidered in garlands of pastel-colored blossoms. Marion Faulk, the bride's mother, never looked as lovely as on her daughter's wedding day. She wore aqua and white with a smart little hat of aqua, vastly becoming.

Five Faulk brothers and four sisters, were in attendance at the wedding. A splendid representative family, by the way.

Mothers and daughters walked down the aisle at the Methodist church, where the ceremony took place. Never have we seen so many really lovely mothers and daughters. There was Ethel Boardman and daughter, Joan; Anna Speed and daughter, Vada; Birdie Farmer and daughter, Marjorie; Daisy Terzia and daughters, Jane and Nancy; Louise Kellogg and daughters, Mary Stuart and Rhoda; Wilhelmina Inabnet and daughter, Mary Lavinia; Lynn Kugler and daughter, Kay; Josephine Millsaps and daughter, Ellen Kent; Katie Mae Thornhill and daughter, Martha Jane; Mary Hudson and daughter, Doll, and so one, ad infinitum.

* * *

More "Home Sweet Home" mottoes are being tacked up along Island drive. Sue and King Stubbs are watching with breathless anticipation the foundation being laid for their new home. In architecture it will be Louisiana colonial, and will be ready for occupancy the first of October.

The scene along Island drive is one of blissful domesticity. There is one part of the day in particular when motorists move along with great precaution—it is the time when all the young fry are taken out in their perambulators in charge of their nurses. Not all ride in perambulators however—several have reached the interesting walking stage, and love to gambol on the green banks sloping down to the bayou's edge. A narrow wire fencing has been placed along this enclosure recently, thus assuring a medium of safety for the youngsters. Little Sue Stubbs will be a distinct acquisition to these beautiful children found in almost every home along Island drive.

* * *

Have you an extra sewing machine that you are not using all the time? Have you a few dollars you are not using? Have you a few hours each week that you can spend outside your home—or in it for that matter, doing work for men, women and children in distress? If you have some spare time, the Red Cross needs you.

Monroe women are responding to the call of the Red Cross in a way that makes one proud of them. The call for workers is a little different than it would be if the United States were at war, but it is just as urgent, just as necessary, and quite as definite.

Jean Terzia, lovely daughter of the Fensky Terzias, hasn't yet recaptured her breath after her whirlwind trip to New York City with Mary Hudson, Doll and Fred Hudson. It was a conitnuous round of gaiety—morning in the swanky shops in search of glamorous trousseau clothes for Doll—matinees—night clubs and a bus ride along Fifth avenue, the high adventure of the day. Riding up Fifth avenue atop a bus never ceases to interest even the most sophisticated. There is always something new, something exciting and interesting in the throng as viewed from the top of a bus.

Jean's cup of joy ran over when she found one of her best friends, a former roommate at Sophie Newcomb, waiting for her in the lobby of her hotel one day. She was vacationing in Canada and paused in New York to visit Jean.

## Miss Alloyse Wall Marries Lieut. Beall

Of interest was the wedding of Miss Alloyse Blanche Wall of Epps, daughter of Mr. T. Y. Wall and the late Mrs. Wall, and Lieutenant Robert T. Beall, of Dublin, Ga., solemnized at the Wall residence recently.

The ceremony was performed before an altar of green and white in the living room in the presence of the family and immediate friends, with the Rev. Guy Hicks, pastor of the Ruston Trinity Methodist church, officiating. Before the ceremony, Mr. Elbert Hoskins, member of the music faculty of Louisiana Polytechnic institute, Ruston, sang "Ave Maria," accompanied at the piano by Mrs. White.

The bride, attired in a navy mousseline de soie afternoon dress with white accessories and a shoulder corsage of white orchids, and lilies of the valley, entered on the arm of her father, who gave her in marriage.

Decorations of white daisies, sweet peas and ferns were used throughout the living room and circled the lace-covered table in the dining room, which was centered with a beautiful wedding cake, surmounted with a miniature bride and groom.

Mrs. Beall is a graduate of Louisiana Tech, having received her B. A. degree in music in 1938, from Northwestern university, Evanston, Ill. For the past two years she has been supervisor of music in the Ruston public schools.

Lieutenant Beall, a native of Georgia, and a graduate of Georgia Tech, is the son of Mr. and Mrs. C. A. Beall of Dublin, Ga.

He is a member of the Phi Kappa Tau fraternity and received his B. S. degree in 1936. He is at present serving as traveling auditor with the Civilian Conservation corps, with headquarters at Ruston.

After a wedding trip to various points in Arkansas, the young couple will be at home to their friends in Ruston.

## Miss Parker Entertains Entre Nous Members

Miss Wilma Parker invited members of the Entre Nous club to enjoy with her the celebration of her birthday anniversary at the home of her parents.

The cutting of the birthday cake, centering the beautifully appointed refreshment table, was the highlight of the evening's pleasures.

Iced fruit punch was served from crystal punch bowls during the evening.

Many beautiful gifts were presented to Miss Parker, including a birthstone ring from her parents.

Those present wishing the celebrant "happy birthday" were: Annette Butitta, Nancy Butitta, Madeline Hegwood, Gladys Hegwood, Flossie Lee Doty, Ella Mae Smith, Deara Dennis, Katie Brooks, Marjorie Roberts, Margie Cannon, Evelyn Watts, Eddie Cannon, Gurvis Coates, Jasper Haddad and James Kalil.

The next meeting of the Entre Nous club will be held at the home of Mrs. Mariella Milford, Monday night, July 1.

## Hubert P. Warden Weds Miss Meta Wood

Friends of Hubert P. Warden of Delhi, La., will learn with interest of his marriage to Miss Meta Wood of New York City on Thursday, June 27, at the home of Mr. and Mrs. Claud F. Clayton of Arlington, Va.

Dr. Andrew Bird, pastor of the Southern Presbyterian church of the Pilgrims, Washington, D. C., performed the ceremony in the presence of immediate relatives. The ceremony was followed by a wedding breakfast.

Miss Wood, who is the daughter of the late Dr. Roger B. Wood of Fulton, Mo., taught mathematics in Hunter college, New York City. She is a graduate of Synodical college, Fulton, Mo., and taught there for a number of years. She holds the degrees of A. B. and A. M. from the University of Wisconsin where she was elected to membership in Phi Beta Kappa. Miss Wood is a member of the Daughters of the American Revolution and of the American Association of University Women.

Mr. Warden, who holds the degree of LL.B. from the University of Missouri, and who practiced law for many years in Mexico, Mo., has resided in the state of Louisiana for some years where he is engaged in the operation of his plantations.

Out-of-town guests included Mrs. Roger B. Wood, the bride's mother, of Fulton, Mo.; Mr. and Mrs. Edward Wood and daughter, of Aux Vasse, Mo.; Mr. and Mrs. Charles W. Warden of Washington, D. C.; Miss Mary Ashby Slaughter, of Washington, Va.; Mr. and Mrs. George Baker of New York City; Miss Betty Virginia and Mr. John Clayton of Arlington.

Mr. and Mrs. Warden will make their home in Delhi.

# Miss Virginia Faulk Becomes Bride Of John Edward Williams Of Birmingham

## Beautiful Ceremony At Methodist Church

### Fashionable Concourse Of Friends Witnesses Wedding Rites In Most Attractive Floral Setting

**In a veritable field of daisies, banking the chancel and altar of the First Methodist church, Miss Virginia List Faulk, daughter of Mr. and Mrs. Francis Lamy Faulk, became the bride of John Edward Williams of Birmingham, Ala., son of Mr. and Mrs. E. L. Williams of Orlando, Fla., at 4:30 o'clock in the afternoon, on the 24th of June.**

Luxuriant palms and woodwardia ferns formed a dignified background for the myriad daisies overflowing from tall, white, wrought iron standards of graduated lengths and classic shaped, white pottery urns. Sheaves of daisies and white bridal tulle marked the pews reserved for members of the two families and a few intimate friends.

Cathedral tapers in candlesticks of graduated lengths, placed in the background, were lighted by the groomsmen just before the nuptial hour.

The ceremony was impressively performed by Rev. A. M. Freeman.

During the seating of the fashionable concourse of friends by the ushers, Gilbert Faulk and John Richard Miller, a prenuptial concert was rendered by Leon Hammond, organist, and Mrs. Henry Whitfield, soloist, who sang in beautiful voice, "At Dawning" and "Because."

The bride's only attendant was her sister, Miss Barbara Faulk, who wore a white marquisette model, beautifully embroidered in all the pastel colors in floral design. She wore a wide-brimmed horse-hair braid hat with long streamers of coral colored velvet and carried an arm bouquet of Token roses, tied with lengths of coral satin ribbon.

The bride, given in marriage by her father, wore a diaphanous wedding gown of white marquisette. The basque was tight fitting with long, full sleeves and the full, floor-length skirt was tucked at intervals. A wedding veil of tulle was caught to the hair, coronet fashion. She carried an arm bouquet of white bride's roses and valley lilies tied with white satin ribbon falling to the hem line of her skirt.

Mr. Williams was attended by Pickard Williams of Orlando, Fla.

Immediately following the ceremony a reception was held at the Faulk home, where considerable beauty of decoration was noted.

Mr. and Mrs. Faulk and Mrs. E. L. Williams stood in line to receive the guests who pressed forward to bestow their best wishes upon the bride and bridegroom. Mrs. Faulk was wearing a white and aqua ensemble with a chic hat of aqua. Mrs. Williams wore a flowered chiffon model with a small hat of blue straw.

Ices and individual wedding cakes and wedding ring mints were served in the dining room, where the bride's table, covered with handsome lace, was adorned with the two-tiered wedding cake. It was an artistic confection with the top tier in the form of a wedding ring encircled with fresh valley liles. Silver candelabrum supporting tall white tapers burned at the four corners.

The bride cut the wedding cake and then changed her wedding gown for a smart tailleur of brown and beige with all accessories of brown.

The guests before departure were privileged to view the handsome collection of wedding gifts including silver in the Chantilly pattern, and a full set of Lennox china.

Following the honeymoon, Mr. and Mrs. Williams will be at home in Birmingham, Ala.

The bride, one of the most popular members of Monroe's younger set, is a graduate of the University of Alabama, class of 1940, and is a member of Chi Omega sorority. She has been an outstanding member of the local chapter Delta Beta Sigma.

Mr. Williams is a graduate of the University of Alabama.

Out-of-town guests attending the wedding were the bridegroom's parents, Mr. and Mrs. E. L. Williams, and Pickard Williams of Orlando, Fla., Mrs. E. J. Crawford and daughter, Marion, Mrs. Milton Smith and son, Louis, and Mr. and Mrs. C. L. Gayle and daughters, Molly and Dorothy, and John Richard of Shreveport.

Friends will be interested in news of Louis Guerriero, who is studying dramatics this summer at the Precilla Beach theater in Plymouth, Mass. He was recently placed in the leading male role of the season's first production, an honor greatly coveted by every student of dramatics attending the summer theater.

Misses Ouida and Billie Little, students at the Texas State College for Women, are spending the summer with Mr. and Mrs. L. G. Cook on Pine street.

### Miss Avis Marie Patton Marries Ernest Stamper

Mr. and Mrs. Charles H. Patton of Clarks announce the recent marriage of their daughter, Avis Marie, to Ernest R. Stamper of Baton Rouge, son of Mr. and Mrs. J. H. Stamper of Grayson.

The ceremony was solemnized at the Methodist church at Bonita with the pastor, Rev. Howell, officiating, in the presence of an intimate party of friends and relatives.

The bride wore a white crepe and lace model with white accessories with a corsage of white Bride's roses and valley lilies.

Miss Kathleen Williams of Baton Rouge was maid of honor. Ray Meek of Louisiana State university, department of agriculture, served the groom as best man.

Immediately following the ceremony Mr. and Mrs. Stamper left for a week's visit in New Orleans and the gulf coast.

Mrs. Stamper is a graduate of the Clarks High school and for several years has held a responsible position with the telephone system of the Louisiana Central Lumber company at Clarks.

Mr. Stamper is a plant pathologist employed by the Louisiana department of agriculture and immigration at Baton Rouge. Following his graduation from the Grayson High school he entered L. S. U. where he received his B. S. degree in 1937 and his M. A. degree in 1939. He is now working toward a Ph. D.

Mrs. Stamper has returned to her position with the lumber company at Clarks for the summer months during which Mr. Stamper will be engaged in state field work. Later they will go to Baton Rouge, their future home.

### Members Of Missouri Pacific Club Entertain

Members of the Missouri Pacific Women's club entertained their husbands, socially, in the flower adorned lounge of their clubhouse, Friday night.

Before the social hour a brief business session was held with the president, Mrs. J. C. Leath, presiding. It was suggested at this time that all members offer their services to the Red Cross.

Mrs. C. R. Pedigo, program chairman, introduced Mrs. J. B. Landreaux, recreational leader who was in charge of the evening's entertainment.

Iced fruit frappe was served from crystal bowls placed at either end of the refreshment table. Trays of sandwiches and confections were also served during the evening by Mrs. George Bruce, Mrs. J. W. Huitt, Mrs. Paul Newman and Mrs. J. G. Keller.

This social meeting climaxed the season's activities.

Miss Golden Wilson, daughter of Mr. and Mrs. V. R. Wilson, of Wallace Ridge, La., and Ronald Hawthone, son of Mr. and Mrs. W. G. Hawthone, of Parhams, La., were married at the home of the bridegroom's parents on June 8.

The ceremony was performed by Rev. John Walters, Baptist missionary, of Ruston, La., and was witnessed by a few friends and relatives.

# Miss Virginia Faulk Becomes Bride Of John Edward Williams Of Birmingham

## Beautiful Ceremony At Methodist Church

### Fashionable Concourse Of Friends Witnesses Wedding Rites In Most Attractive Floral Setting

In a veritable field of daisies, banking the chancel and altar of the First Methodist church, Miss Virginia List Faulk, daughter of Mr. and Mrs. Francis Lamy Faulk, became the bride of John Edward Williams of Birmingham, Ala., son of Mr. and Mrs. E. L. Williams of Orlando, Fla., at 4:30 o'clock in the afternoon, on the 24th of June.

Luxuriant palms and woodwardia ferns formed a dignified background for the myriad daisies overflowing from tall, white, wrought iron standards of graduated lengths and classic shaped, white pottery urns. Sheaves of daisies and white bridal tulle marked the pews reserved for members of the two families and a few intimate friends.

Cathedral tapers in candlesticks of graduated lengths, placed in the background, were lighted by the groomsmen just before the nuptial hour.

The ceremony was impressively performed by Rev. A. M. Freeman.

During the seating of the fashionable concourse of friends by the ushers, Gilbert Faulk and John Richard Miller, a prenuptial concert was rendered by Leon Hammond, organist, and Mrs. Henry Whitfield, soloist, who sang in beautiful voice, "At Dawning" and "Because."

The bride's only attendant was her sister, Miss Barbara Faulk, who wore a white marquisette model, beautifully embroidered in all the pastel colors in floral design. She wore a wide-brimmed horse-hair braid hat with long streamers of coral colored velvet and carried an arm bouquet of Token roses, tied with lengths of coral satin ribbon.

The bride, given in marriage by her father, wore a diaphanous wedding gown of white marquisette. The basque was tight fitting with long, full sleeves and the full, floor-length skirt was tucked at intervals. A wedding veil of tulle was caught to the hair, coronet fashion. She carried an arm bouquet of white bride's roses and valley lilies tied with white satin ribbon falling to the hem line of her skirt.

Mr. Williams was attended by Pickard Williams of Orlando, Fla.

Immediately following the ceremony a reception was held at the Faulk home, where considerable beauty of decoration was noted.

Mr. and Mrs. Faulk and Mrs. E. L. Williams stood in line to receive the guests who pressed forward to bestow their best wishes upon the bride and bridegroom. Mrs. Faulk was wearing a white and aqua ensemble with a chic hat of aqua. Mrs. Williams wore a flowered chiffon model with a small hat of blue straw.

Ices and individual wedding cakes and wedding ring mints were served in the dining room, where the bride's table, covered with handsome lace, was adorned with the two-tiered wedding cake. It was an artistic confection with the top tier in the form of a wedding ring encircled with fresh valley liles. Silver candelabrum supporting tall white tapers burned at the four corners.

The bride cut the wedding cake and then changed her wedding gown for a smart tailleur of brown and beige with all accessories of brown.

The guests before departure were privileged to view the handsome collection of wedding gifts including silver in the Chantilly pattern, and a full set of Lennox china.

Following the honeymoon, Mr. and Mrs. Williams will be at home in Birmingham, Ala.

The bride, one of the most popular members of Monroe's younger set, is a graduate of the University of Alabama, class of 1940, and is a member of Chi Omega sorority. She has been an outstanding member of the local chapter Delta Beta Sigma.

Mr. Williams is a graduate of the University of Alabama.

Out-of-town guests attending the wedding were the bridegroom's parents, Mr. and Mrs. E. L. Williams, and Pickard Williams of Orlando, Fla., Mrs. E. J. Crawford and daughter, Marion, Mrs. Milton Smith and son, Louis, and Mr. and Mrs. C. L. Gayle and daughters, Molly and Dorothy, and John Richard of Shreveport.

Friends will be interested in news of Louis Guerriero, who is studying dramatics this summer at the Precilla Beach theater in Plymouth, Mass. He was recently placed in the leading male role of the season's first production, an honor greatly coveted by every student of dramatics attending the summer theater.

Misses Ouida and Billie Little, students at the Texas State College for Women, are spending the summer with Mr. and Mrs. L. G. Cook on Pine street.

### Miss Avis Marie Patton Marries Ernest Stamper

Mr. and Mrs. Charles H. Patton of Clarks announce the recent marriage of their daughter, Avis Marie, to Ernest R. Stamper of Baton Rouge, son of Mr. and Mrs. J. H. Stamper of Grayson.

The ceremony was solemnized at the Methodist church at Bonita with the pastor, Rev. Howell, officiating, in the presence of an intimate party of friends and relatives.

The bride wore a white crepe and lace model with white accessories with a corsage of white Bride's roses and valley lilies.

Miss Kathleen Williams of Baton Rouge was maid of honor. Ray Meek of Louisiana State university, department of agriculture, served the groom as best man.

Immediately following the ceremony Mr. and Mrs. Stamper left for a week's visit in New Orleans and the gulf coast.

Mrs. Stamper is a graduate of the Clarks High school and for several years has held a responsible position with the telephone system of the Louisiana Central Lumber company at Clarks.

Mr. Stamper is a plant pathologist employed by the Louisiana department of agriculture and immigration at Baton Rouge. Following his graduation from the Grayson High school he entered L. S. U. where he received his B. S. degree in 1937 and his M. A. degree in 1939. He is now working toward a Ph. D.

Mrs. Stamper has returned to her position with the lumber company at Clarks for the summer months during which Mr. Stamper will be engaged in state field work. Later they will go to Baton Rouge, their future home.

# Miss Sara Hammons And Nolen Guye Corley Married At West Monroe Church

## Members Of Prominent Families Wed Tuesday

### Impressive Ceremony Performed By Dr. A. E. Prince Of First Baptist Church On West Side

Of affectionate interest to a wide circle of friends was the marriage of Miss Sara Hammons, daughter of Mr. and Mrs. Mack Hammons of West Monroe, and Nolen Guye Corley, son of Mr. and Mrs. H. J. Corley of Ringgold, La., at the First Baptist church, West Monroe, at 5 o'clock in the afternoon on the 25th of June, with the pastor, Dr. A. E. Prince, officiating in the presence of friends and members of the two families.

The ceremony was performed in the midst of pink gladioli overflowing from tall Princess baskets grouped against a background of southern smilax.

Miss Mary Grace Lawn, pianist, rendered a prenuptial concert, and accompanied the soloist, Miss Betty Rinehart, who sang "At Dawning" and "Because." MacDowell's "To a Wild Rose" was rendered pianisimo, during the ceremony.

The ushers were James Walker and J. W. Roberson of Arcadia, Lotus Berry of Sibley, La., and Melvin Sowers of Winnfield. The best man was Rupert Sledge of Arcadia.

The bride was attended by her sister, Miss Mack Fay Hammons, who wore a lovely gown of Monterey rose with draped skirt and a wide-brimmed leghorn hat. She carried an arm bouquet of pink Briercliff roses.

The bride, given in marriage by her father, wore a beautiful model of sea-foam-aqua sheer with eton jacket and blouse of Alencon lace. She wore a wide-brimmed straw hat, and carried an arm bouquet of white bride's roses and valley lilies.

For something old she carried a lace handkerchief that has been in the Hammons family for more than fifty years.

Following the ceremony a reception was held at the Hammons home for the out-of-town guests. Mrs. Hammons received the guests in a rose-colored crepe Romaine model. She was assisted by the bridegroom's mother, who wore a navy sheer model with white accessories.

The bride's table in the dining room was lace-covered and illumined with candles gleaming in silver candlesticks. The cake, a three-tiered confection, beautifully embossed in valley lilies, was encircled with gardenias and maiden hair fern.

The bride cut the cake and then changed her wedding ensemble for a navy blue triple sheer model, fashioned along military lines, with turban of navy taffeta.

Mr. and Mrs. Corley will spend their honeymoon on the gulf coast, and later will be at home in Arcadia, La., where Mr. Corley is chief deputy clerk of court of Bienville parish.

The bride is a graduate of Louisiana Polytechnic institute, Ruston, and did graduate work at L. S. U. She is a member of Theta Eupsilon. Since graduation she has been a member of the Arcadia High school faculty.

Mr. Corley attended the Louisiana Polytechnic institute at Ruston.

Out-of-town guests attending the wedding were: Dr. and Mrs. S. A. Thompson, Mr. and Mrs. H. T. Patton and family, Camden, Ark.; Mr. and Mrs. Onar G. Perry, Mobile, Ala.; Mr. and Mrs. F. A. Hinton, Clay, La.; Mrs. C. P. Berry, grandmother of the bride, Ruston, La.; Mr. and Mrs. E. R. Hester and family, Mr. and Mrs. J. A. Shelby and family, Dr. and Mrs. J. L. Wade and family, Arcadia, La.; Mr. and Mrs. W. G. Campbell, Meridian, Miss.; Dr. S. B. Thompson, Birmingham, Ala.; Mr. and Mrs. H. J. Corley and Virginia Corley, mother, father and sister of the bridegroom, Mr. and Mrs. Milton Corley, Mr. and Mrs. Albert Corley, Mr. and Mrs. W. H. Burkett, Ringgold, La.; Mrs. J. W. Roberson, Mr. and Mrs. J. A. Reeves of Arcadia; Mr. and Mrs. C. J. Hammons, Kansas City, Mo.; Mr. and Mrs. Jeff Anderson, Mr. and Mrs. W. E. Hammons, Choudrant, La.; Miss Lilian Hammons, Natchez, Miss.

### Business Women's Club Enjoys Social Hour

A social hour, during which bingo was introduced for diversion, was enjoyed by members of the Business and Professional Women's club in the home of Miss Mary O'Kelly.

Hostesses on this occasion were Miss Mamie Ober, Mrs. Evelyn Reims, Miss Mary Hester, Mrs. Jennie Thornton, Miss Alice Baur, Miss Eleanor Faulk, Mrs. Laura Slator, Mrs. Frances Ritter, Mrs. Blanche Colvin, Mrs. Ida Kaplan, Miss Marguerite Coenen. They entertained members of the team who were victorious in the recent drive sponsored by the club and of which Miss Florence Powers was captain. Members of her team were Mrs. Jonnie Smith Elbert, Mrs. Effie Allen, Mrs. Clara Dennis, Miss Hazel Wakefield, Miss Maible Hood, Mrs. Lena Griffis, Miss Nora Downes, Mrs. Jewel Wise, Mrs. George Wesley Smith and Mrs. Faye Heard.

The serving of a delicious supper course was included in the courtesies extended the winning team.

Prizes were offered for bingo with Mrs. Faye Heard winning the grand prize, a silver key ring, bearing the Business and Professional club emblem.

Informal entertaining is in high favor with members of the younger set who are constantly planning swimming parties and al fresco suppers.

A pleasant hour was spent in the pool of the Interstate Natural Gas company in Fairbanks last week with Miss Floye B. Clarke hostess. Later in the evening a delicious supper was served in the clubhouse by the hostess, assisted by her mother, Mrs. F. B. Clarke.

Motoring to Fairbanks from Monroe were Miss Marilyn Rolleigh and Felix Terzia, Miss Adelaide Parker and Lawrence Breard, Miss Alice Raye Goza and Dick Eason, Miss Ada Ellis Girault and Tim Tippit, Messers Arthur Thomas of Little Rock, Charles Mims, Louis Pecastaing, Billy Stevenson, Jack Webb, Lloyd Leonard and Philip Embanato.

Mr. and Mrs. W. H. Wagner and Mrs. B. M. Hanna of Shreveport are enjoying a week-end visit in the home of Mrs. Paul Fudickar.

## Many Parties Given For Carolyn Stubbs

### Luncheons, Breakfast Party, Steak Barbecue, Bridge-Supper And Other Pre-Nuptial Affairs Arranged

The charming courtesies that filled Miss Carolyn Stubbs' engagement days with pleasure climaxed with a breakfast party on the Virginia roof, Saturday morning, with Miss Jane Dawkins and McVea Oliver presiding over the breakfast table placed in a cool enclosure and hedged in with bright-colored garden flowers.

The arrival of Dr. Robert C. Lynch from New Orleans on Wednesday created additional interest in the last-minute prenuptial courtesies as they were planned in his honor as well.

Miss Stubbs in a canary-colored knit sport model with blue accessories was a lovely figure in the circle of intimate friends attending the barbecue in the gardens of the Fred Fudickar home on Riverside with Fred Fudickar, Jr., the genial host.

One table was set apart for the host and his two guests of honor and their mothers, Mrs. F. P. Stubbs and Mrs. E. R. C. Lynch. Antique hurricane lamps with the names of Carolyn and Robert Clyde printed in flaming colors, formed the central decor.

Barbecued steaks was the piece de resistance of the delectable supper served at long tables serviced in linen and gayly-colored fiesta ware.

A luncheon at the Lotus club with Mrs. Victor Barringer and Mrs. Francis Barringer, hostesses, was one of the loveliest compliments bestowed upon Miss Stubbs.

Twelve intimate friends were seated at the linen damask-covered table, adorned with snapdragons in all the pastel shades, rose colored carnations, purple sweet peas, yellow daisies and blue delphinium, overflowing from a flaring crystal bowl.

Calla lilies in a classic shaped urn, formed the artistic floral decor of the luncheon table presided over by Miss Clara Virginia Terzia and Mrs. James Sparks, who entertained at luncheon on the Virginia roof for Miss Stubbs.

Four delicious courses were served to Miss Stubbs, the hostesses and the ten guests.

A crystal epergne supporting pastel shaded flowers graced the damask-covered table when Miss Louise Gray and Miss Dorothy Calvert entertained at luncheon in the main dining room of the Frances hotel for Miss Stubbs.

The conversational hour arranged by Mrs. A. R. Holloway, Mrs. Robert Holloway and Miss Beverly Russell, was charmingly informal. Conversation naturally revolved around Miss Stubbs' approaching marriage and her recent visit at Yale university where she and her mother, Mrs. F. P. Stubbs, were privileged to witness the graduation of Barry Stubbs.

The refreshment table in the dining room of Mrs. Holloway's home reflected a bridal motif. A white pergola studded with white roses, with a bride and bridegroom in full wedding regalia, formed a unique central decor.

Silver trays laden with sandwiches, pastries and sweet-meats were passed among the guests.

Another gracious compliment of the past week was Mrs. Minnie Ruffin's bridge-supper at her home on Speed drive, with Miss Stubbs the central figure.

Following the serving of the delicious buffet supper from a silver serviced, linen covered table in the dining room, bridge was introduced by the hostess. The presentation of lovely gifts for high bridge scores and to Miss Stubbs for remembrance was included among the courtesies extended by Mrs. Ruffin.

### Miss Deere Marries James Elton Braley

A June wedding claiming the interest of friends was that of Miss Katie Ruth Deere, daughter of Mr. and Mrs. H. P. Deere, and James Elton Braley, son of Mr. and Mrs. D. M. Braley, of Sarepta, La.

The wedding took place at the home of Mr. and Mrs. George D. Holland, Forsythe avenue, with Rev. H. G. Hammons officiating in the presence of a few intimate friends.

The bride's attendant, Miss Emma Boughton, wore a navy blue sheer ensemble with a corsage of Briercliff roses.

Mr. Braley was attended by Paul Owens of Shreveport.

The bride wore a smart navy blue sheer model with trimmings of French eyelet embroidery. Her accessories were of white and she wore a corsage of salmon pink gladiola.

Immediately following the ceremony an informal reception was held and the guests were served individual wedding cakes and frosted fruit frappe.

Mr. and Mrs. Braley spent their honeymoon in New Orleans and are now at home to their friends at 712 North Second street.

Out-of-town guests attending the wedding were Mr. and Mrs. Paul Owens of Shreveport, Miss Juanita Deere of Mangham, Rev. and Mrs. H. G. Hammons and daughter, of Alto.

### Miss Ferguson Weds Egbert Hawkins Everett

Miss Elsie Rae Ferguson, daughter of Mr. and Mrs. J. F. Ferguson, of Winnsboro, and Mr. Egbert Hawkins Everett, son of Mr. and Mrs. James Everett of Hickory, Miss., were married Tuesday morning at 10 o'clock at the home of the bride's parents.

Hydrangeas and gladioli formed a beautiful background for the ceremony which was performed in the presence of the immediate families and intimate friends.

Mrs. Charles Moore, Jr., was the pianist and Mack Bradley, Jr., the soloist, sang "At Dawning." "Bridal Chorus" from "Lohengrin" was played for the processional.

Rev. Dana Terry, pastor of the First Baptist church in Winnsboro, read the impressive ceremony. The pianist played "The Sweetest Story Ever Told."

Mr. Welburne Everett, brother of the bridegroom, was the best man.

Miss Blondell Ferguson of Clayton a cousin of the bride, served as maid of honor.

The bride wore a lovely navy sheer with dusty pink accessories and a corsage of sweetheart roses.

An informal reception followed the ceremony. Immediately after the reception Mr. and Mrs. Everett left for a wedding trip to the gulf coast.

The couple will reside in Washington, D. C., where Mr. Everett holds a position.

Miss Lonie Coleman, daughter of Mr. and Mrs. Houston Coleman, of Jonesville, and Raymond C. Owen, son of Mr. Henry Owen, of New Orleans, were married Tuesday evening, June 18, at the home of Rev. and Mrs. C. C. Fairbanks, who performed the ceremony.

Tot Ellis, daughter of Mr. and Mrs. Prioleau Ellis of New Orleans, is the guest of Satchie Cooper.

BALLET DANCER . . .

# Miss Winifred Folse Weds Charles Heath

## Wedding Of Prominent Couple Solemnized By Bride's Uncle At Episcopal Church In Bastrop

A wedding of paramount social interest was that of Miss Henrietta Winifred Folse, daughter of Mr. and Mrs. Edward Bruff Folse, and Mr. Charles Morrie Heath of Darnell, La., which was quietly solemnized at 8:30 in the evening Wednesday, June 19, at Christ Episcopal church in Bastrop. Rev. Paul D. Bowden of Warrenton, Va., uncle of the bride, officiated at the ceremony and was assisted by the Rev. Leslie K. Young, rector of Christ church.

Shasta daisies banked the chancel and altar and overflowed from tall white standards placed in the background. Cathedral tapers in seven-branched candelabra flanked the altar. Candles in tall candlesticks were placed at each pew down the full length of the aisle down which the wedding party marched.

While the guests were being seated by the ushers, a prenuptial concert was rendered by Mrs. J. B. Spier, organist, and Mr. James Rolfe of Oak Ridge, La., soloist. Mr. Rolfe sang "O Promise Me" and "Calm as the Night." Mrs. Spier played MacDowell's "To a Wild Rose" and during the ceremony "Traumeri" was rendered.

As the "Bridal Chorus" from Wagner's "Lohengrin" was sounded, the bridal party entered the church. Miss Folse, given in marriage by her father, wore a gown of chalk white mousseline de soie over taffeta, with a long train appliqued in taffeta daisies. Her veil of illusion was caught to a tiara. She carried an arm bouquet of shasta daisies and baby breath and wore a Tiffany daisy necklace, an heirloom of her maternal grandmother, Henrietta Douglas Bowden.

The bride had as her maid-of-honor her sister, Miss Elizabeth Folse. The bridesmaids were Mrs. Charles M. Heath, Mrs. David Belnap Elmer, Miss Ada Mott and Miss Sarah Douglas of Birmingham, Ala.

The maid of honor wore a gown of brown mousseline de soie, made with a short train bound in taffeta and appliqued in brown daisies. She wore an off the face brown bonnet in matching shades and carried an arm spray of daisies. The bridesmaids wore similar gowns of yellow mousseline de soie and yellow bonnets. They carried arm bouquets of yellow daisies.

Mr. Heath had as best man Wiley Heath, his brother, and as ushers and groomsmen his brother, Billy Heath, Luther Kelly and James David McIntosh of Oak Grove, La., and Douglas Bowden Folse and Bruff Folse, brothers of the bride. The groomsmen wore white linen suits, brown ties and boutonnieres of yellow daisies.

A reception immediately followed the ceremony at the home of the bride's parents where Mrs. Folse was assisted in receiving the guests by members of the bridal party. Mrs. Folse was becomingly gowned in white chiffon and wore a corsage of white roses.

The reception rooms were beautifully decorated with yellow daisies and Woodwardia fern. The bride's table, covered with an exquisite lace cloth, was centered with a handsomely embossed wedding cake, which was made by the groom's aunt, Mrs. W. L. Ross. Miss Tina Collins assisted in the serving of the wedding cake. Frosted fruit punch was served from crystal bowls by Misses Lucille Huffman and Ellie Traylor. Assisting were Mrs. H. S. Mangham of Rayville, Miss Ethel Virginia Bowden of Pelham, Tenn., Misses Lois and Maybeth Thibadeaux of Mer Rouge, and Miss Ethel Boden of Silver Springs, Md. Miss Mae Traylor presided over the bride's book.

The beautiful wedding gifts were on display in the living room.

Mr. and Mrs. Heath left by motor on their honeymoon, before going to Scottsboro, Ala., where they will make their home after July 15.

The bride, a member of a prominent family in this section of the state, spent her girlhood and received her early education in Oak Ridge, La. She later attended Sophie Newcomb, graduating with the degree of bachelor of design. She also has her bachelor of arts degree from Mary Hardin Baylor college. She is a member of Alpha Omicron Pi sorority, and for the past several years has been teaching art in the public schools at Birmingham, Ala.

Mr. Heath is a graduate of New Mexico Military institute, and is now in business, being an officer of the Maples company at Scottsboro.

Claiming the interest of friends in this city is the announcement of the wedding of Oren Oliver Moore, son of R. L. Moore and the late Mrs. Moore of this city. An account of the wedding appearing in the Alexandria Town Talk follows:

Beautiful in its simplicity was the marriage last evening of Miss Madlyn Kerr, daughter of Mr. and Mrs. Nathan Calvary Kerr of Latanier Bayou, Lecompte, La., and Mr. Oren Oliver Moore of Monroe, son of Mr. R. L. Moore and the late Mrs. Moore of Monroe.

The impressive service was read by Rev. G. Kearnie Keegan of the Emmanuel Baptist church in the presence of a host of relatives and friends.

Vows were exchanged in the spacious garden beneath an improvised trellis of smilax and roses, against a background of stately pines that added much to the natural beauty of the setting. Light was furnished by electric "candles" on seven-branch standards and hanging from the trellis was a wedding bell that shed a soft light over the bridal party.

Given in marriage by her father, the bride was radiant in her bridal gown of white mousseline de soie, a finger-tip veil of illusion and she carried an arm bouquet of white gladioli. Her only attendant was Miss Georgia Maddox of Alexandria, whose costume was of foam green mousseline de soie with hat to match and an arm bouquet of pink gladioli.

Mr. Ernest J. Russell served Mr. Moore as best man.

Nuptial music was played by Miss Rae Thomas, who used Mendelssohn's Wedding March and The Bridal Chorus from Lohengrin. Miss Thomas also accompanied Miss Catherine McIntosh, whose beautiful soprano voice was heard in "I Love You Truly," and "The Sweetest Story Ever Told."

Immediately following the ceremony an informal reception was held in the garden, where Mrs. Otto Ferrell assisted in hostess duties.

Delicious iced punch was served with the wedding cake by Misses Ella Lois Mildrum, Catherine McIntosh and Rae Thomas.

A host of friends from Alexandria motored down to attend the wedding.

FRATERNITY SWEETHEART . . .

Miss Jo Ann Guerriero attended the national Delta Sigma fraternity convention in Shreveport where she was elected national sweetheart. Miss Guerriero has the distinction of being the first southern girl ever elected for this honor.

Mrs. L. A. Falter has been removed to her home in West Monroe from St. Francis sanitarium.

Mr. John Louis Lord announces the engagement of his daughter, Miss Johnnie Lenoir to Mr. Charles Sprague White of St. Louis, Mo. and Natchez. The marriage will take place in July. This announcement will be of great interest to relatives and friends in St. Joseph and elsewhere.

# 'Lillian Russell' Opens Three-Day Run At Paramount

It's a gay and carefree romance for Joan Bennett and George Raft when they fall in love during the action of "The House Across the Bay," at the Capitol Wednesday only with Lloyd Nolan, Gladys George and Walter Pidgeon

All the color and glamor of America's most fabulous era will be brought to the screen of the Paramount theater today, Monday and Tuesday in Darryl F. Zanuck's production of "Lillian Russell," which features Alice Faye, Don Ameche, Henry Fonda and a huge supporting cast. The life and loves of the famous American stage beauty are depicted in the film.

Miriam Hopkins and Errol Flynn are co-starred for the first time in "Virginia City," Capitol theater screen attraction today and Monday, co-starring Randolph Scott, Humphrey Bogart, Frank McHugh, Alan Hale are featured.

That's the plight of Ellen Drew and Robert Paige, who fall in love, marry, only to be punished for a crime of which they are innocent in the thrilling crime drama, "Women Without Names," showing Tuesday only at Capitol.

Loretta Young and Ray Milland in "The Dr. Takes a Wife," feature attraction showing Thursday and Friday at the Paramount theater with Gail Patrick and Reginald Gardiner featured.

A kiss for the bride—John Garfield and his screen bride, Anne Shirley, clinch, with George Tobias (left) and Dennie Moore (right) lending encouragement. It's all part of the gala goings-on in "Saturday's Children," which shows Saturday only at the Paramount theater.

### PRESIDENTIAL ODDITIY

When Abraham Lincoln took office, five ex-presidents were living, a greater number than at any other period in history. They were Van Buren, Tyler, Fillmore, Pierce and Buchanan. No president elected between 1836 and 1860 had served more than four years, and this made the situation possible.

## Alice Faye, Don Ameche Paired Again

### Henry Fonda And Edward Arnold Also Featured In Outstanding Cast

THE life and loves of Lillian Russell, "the most beautiful woman in America," have been made into one of the greatest pictures of all time by Producer Darryl F. Zanuck. Opening today at the Paramount theater, Zanuck's production, "Lillian Russell," features Alice Faye in the title role, with Don Ameche, Henry Fonda and others.

It is a motion picture that brings out the strength of Hollywood, for "Lillian Russell" has everything. Drama, comedy, pathos, action, color—all have been deftly blended to make a superb picture that will keep you absorbed and fascinated from start to finish. "Lillian Russell" revives many of the popular song hits of her day, including "After the Ball Is Over," "Rosie, You Are My Posie," "My Evening Star" and "The Band Played On" ("Strawberry Blond.")

Lillian Russell was the most colorful of all the personalities of the most fabulous era America ever knew. She lived a vivid life that lends itself to screen adaptation and Zanuck has spun a really great motion picture about her life and loves.

Blonde Alice Faye more than justifies the faith Zanuck placed in her when he chose her to portray the great Lillian Russell. Her acting reaches an all-time high and her charm and her singing voice heighten the triumph.

Don Ameche gives another excellent performance in the role of Edward Solomen, Lillian Russell's composer husband. Henry Fonda proves once more his rare talents in the role of Alexander Moore, the Pittsburgh newspaper publisher, who also became Lillian Russell's husband.

Edward Arnold, as Diamond Jim Brady, another of her countless admirers, Warren William as Jesse Lewisohn, the copper king, Leo Carrillo as Tony Pastor, the Ziegfeld of his era and "discoverer" of Lillian Russell, all give memorable performances.

Others who stand out in the star-studded cast are Helen Westley, Dorothy Peterson, Ernest Truex, Nigel Bruce, Claude Allister, Lynn Bari, Weber and Fields, Eddie Foy, Jr., Una O'Connor and Joseph Cawthorn.

Two new songs were written especially for "Lillian Russell," "Adored One," by Alfred Newman and Mack Gordon, and "Blue Love Bird," by Gus Kahn and Bronislau Kaper.

Irving Cummings directed this entertainment masterpiece with an unerring eye, from a superb screen play by William Anthony McGuire. Gene Markey was associate producer.

## MRS. UPCHURCH CONTEST WINNER

VIENNA, La., June 29.—(Special)—Mrs. C. C. Upchurch, Hilly, La., was announced as the winner of the first parishwide dressmaking contest held here this week. Mrs. George Easterling, Choudrant, and Mrs. O. W. Hogan, Choudrant, won second and third prizes, respectively.

Judges for the event were Miss Cleo Brasher, district agent of Baton Rouge, and Mrs. Grace Brasher, home economics teacher from Alexandria.

This annual achievement day was celebrated by 156 women, and 23 participated in the contest, representing 13 Lincoln parish home demonstration clubs.

Mrs. Bill Bagwell of Choudrant presided at the council meeting held in the Women's club house.

In the afternoon program, Mrs. H. E. Morrison, Mrs. A. T. Baxter, Mrs. C. W. Enloe and Mrs. K. E. Ball discussed cotton growing countries, and Miss Cleo Brasher announced the winners and gave a talk.

This contest was a sewing project assumed by the Lincoln clubs as a major objective for the past club year. Vienna is the first rural club to be host to the entire parish meet.

## Flynn Stars In 'Virginia City' Today

### Miriam Hopkins Shares Honors In Thrilling Picture At Capitol

WITH Errol Flynn in the type of dashing role that had "Dodge City" breaking records, and Miriam Hopkins awarded the important leading role on the strength of her fine performance in "The Old Maid," Warner Brothers' "Virginia City" promises to be one of the Capitol theater's major attractions of the season, when it opens today.

The background of the film is a page out of America's most gripping historical era, the west during the civil war. The setting is the colorful, lawless "mushroom" mining town, Virginia City, during its rowdiest days. The theme recounts an authentic episode which Robert Buckner adeptly wove into the moving screen play. Michael Curtiz, one of Hollywood's most skillful directors, filmed the production.

As a Union intelligence officer, Kerry Bradford, portrayed by Errol Flynn, is sent to the new Virginia City to track down a gold shipment intended for the Confederacy, sent by southern sympathizers in Nevada. His romance with the queen of Nevada's dance halls, Julia Haynes, Miss Hopkins' role, is short lived when the girl has him kidnaped and he learns she is a Confederate spy.

Bradford is taken prisoner on the southern gold caravan, led by Vance Irby, played by Randolf Scott. When attacked by bandits, led by a notorious guerilla, portrayed by Humphrey Bogart, it is Bradford who outwits the band and saves the caravan. He refuses to surrender the gold, claiming it belongs to the men who mined it. Held for courtmartial, it is news of the war's end that exonerates him in the eyes of the north, the south and Miss Julia Haynes.

The impressive supporting cast includes such seasoned players as Alan Hale, Frank McHugh, Guinn "Big Boy" Williams and John Litel.

### LONG RANGE SHELL

CHEYENNE, Wyo.—(AP)—A French 75 shell, the king the French now use to stop Nazi tanks, has just arrived at its American destination—25 years late.

Made into a cigaret ash receptacle for Dr. J. C. Bunten, when he was an A. E. F. physician, it was lost in transit to America. Michael Angelo, Brooklyn, N. Y., antique dealer, bought the object at an auction; found Dr. Bunten's name on it, and got the physician's address from the war department.

### FARMERS' AIDE

The yellow-billed cuckoo is of great value to the farmer as a destroyer of caterpillars, especially the hairy variety, which few other birds will eat. One cuckoo stomach was found to contain 250 tent caterpillars.

The numbering of federal highways was begun in 1925.

# 'Lillian Russell' Opens Three-Day Run At Paramount

It's a gay and carefree romance for Joan Bennett and George Raft when they fall in love during the action of "The House Across the Bay," at the Capitol Wednesday only with Lloyd Nolan, Gladys George and Walter Pidgeon.

All the color and glamor of America's most fabulous era will be brought to the screen of the Paramount theater today, Monday and Tuesday in Darryl F. Zanuck's production of "Lillian Russell," which features Alice Faye, Don Ameche, Henry Fonda and a huge supporting cast. The life and loves of the famous American stage beauty are depicted in the film.

Miriam Hopkins and Errol Flynn are co-starred for the first time in "Virginia City," Capitol theater screen attraction today and Monday, co-starring Randolph Scott, Humphrey Bogart, Frank McHugh, Alan Hale are featured.

That's the plight of Ellen Drew and Robert Paige, who fall in love, marry, only to be punished for a crime of which they are innocent in the thrilling crime drama, "Women Without Names," showing Tuesday only at Capitol.

Loretta Young and Ray Milland in "The Dr. Takes a Wife," feature attraction showing Thursday and Friday at the Paramount theater with Gail Patrick and Reginald Gardiner featured.

A kiss for the bride—John Garfield and his screen bride, Anne Shirley, clinch, with George Tobias (left) and Dennie Moore (right) lending encouragement. It's all part of the gala goings-on in "Saturday's Children," which shows Saturday only at the Paramount theater.

### PRESIDENTIAL ODDITIY

When Abraham Lincoln took office, five ex-presidents were living, a greater number than at any other period in history. They were Van Buren, Tyler, Fillmore, Pierce and Buchanan. No president elected between 1836 and 1860 had served more than four years, and this made the situation possible.

## Alice Faye, Don Ameche Paired Again

### Henry Fonda And Edward Arnold Also Featured In Outstanding Cast

THE life and loves of Lillian Russell, "the most beautiful woman in America," have been made into one of the greatest pictures of all time by Producer Darryl F. Zanuck. Opening today at the Paramount theater, Zanuck's production, "Lillian Russell," features Alice Faye in the title role, with Don Ameche, Henry Fonda and others.

It is a motion picture that brings out the strength of Hollywood, for "Lillian Russell" has everything. Drama, comedy, pathos, action, color—all have been deftly blended to make a superb picture that will keep you absorbed and fascinated from start to finish. "Lillian Russell" revives many of the popular song hits of her day, including "After the Ball Is Over," "Rosie, You Are My Posie," "My Evening Star" and "The Band Played On" ("Strawberry Blond.")

Lillian Russeil was the most colorful of all the personalities of the most fabulous era America ever knew. She lived a vivid life that lends itself to screen adaptation and Zanuck has spun a really great motion picture about her life and loves.

Blonde Alice Faye more than justifies the faith Zanuck placed in her when he chose her to portray the great Lillian Russell. Her acting reaches an all-time high and her charm and her singing voice heighten the triumph.

Don Ameche gives another excellent performance in the role of Edward Solomon, Lillian Russell's composer husband. Henry Fonda proves once more his rare talents in the role of Alexander Moore, the Pittsburgh newspaper publisher, who also became Lillian Russell's husband.

Edward Arnold, as Diamond Jim Brady, another of her countless admirers, Warren William as Jesse Lewisohn, the copper king, Leo Carrillo as Tony Pastor, the Ziegfeld of his era and "discoverer" of Lillian Russell, all give memorable performances.

Others who stand out in the star-studded cast are Helen Westley, Dorothy Peterson, Ernest Truex, Nigel Bruce, Claude Allister, Lynn Bari, Weber and Fields, Eddie Foy, Jr., Una O'Connor and Joseph Cawthorn.

Two new songs were written especially for "Lillian Russell," "Adored One," by Alfred Newman and Mack Gordon, and "Blue Love Bird," by Gus Kahn and Bronislau Kaper.

## Let White System Finance That Trip

Everyone needs a vacation. In the interest of your health and efficiency, you should take one this summer.

A change of scene, new sights will revitalize you—both mentally and physically.

Don't forego a vacation trip just because you've somehow failed to lay aside sufficient funds. Let the White System, 137 North Second street, finance your vacation trip. You can obtain either a personal loan or an automobile loan at the White System, where interest rates are reasonable and repayments in small monthly installments can be arranged.

With the world's fair in progress in New York and the San Francisco exposition, this summer, of all summers, you should arrange for a vacation trip. You'll regret it the rest of your life if you fail to attend one of these big events. A world's fair is an education in itself.

Submit your financial problems to the White System. Its officials can arrange a loan that will enable you to visit New York, San Francisco or any other place you may choose. Besides providing loans for vacation trips, White System makes loans for any useful purpose. They are made without delay or embarrassment, in the strictest confidence.

## HOMESTEAD DECLARES $50,000 IN DIVIDENDS

Approximately \$50,000 in dividends will be paid out July 1 by the Peoples Homestead and Savings association, A. L. Harrington, president, announced yesterday.

The announcement came following the regular meeting of the board of directors of the association, at which meeting the board declared the usual semi-annual 2 per cent dividends to be paid out to the approximate 2,200 shareholders.

"We have just completed a most successful period this year," President Harrington said.

## ALL-DAY SERVICES ARE SET AT CHURCH

The Peniel Baptist church will hold all-day services Sunday.

Sunday school will be at 10 o'clock. At 11 o'clock Rev. J. P. Hinkie will bring the message on "Christian, Stand Still and Watch Jesus." At high noon dinner will be served on the ground. Afternoon services will be devoted to singing. Evening services begin with B. T. U. at 7 o'clock. Preaching by the pastor will be at 8 o'clock.

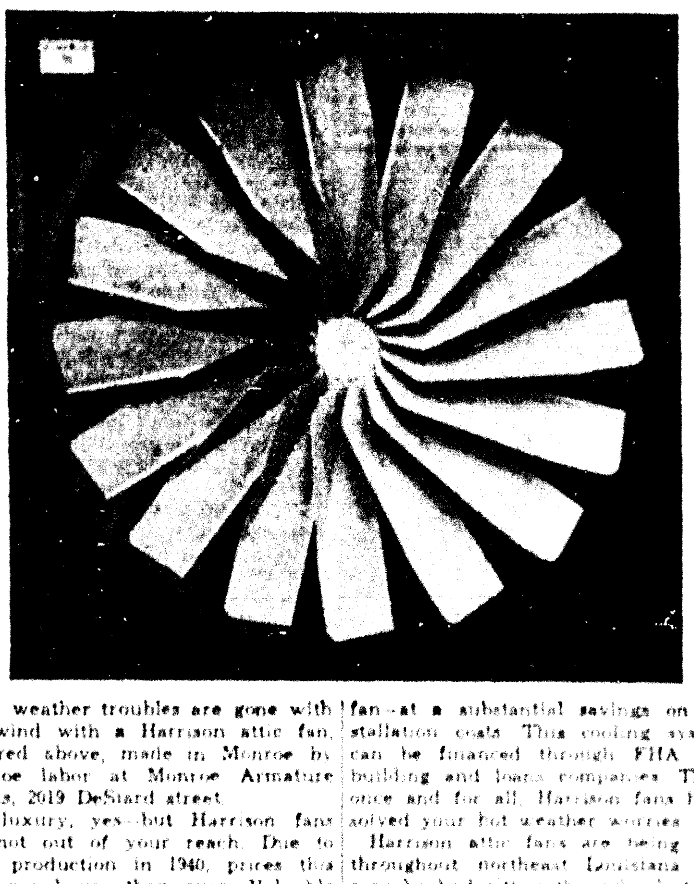
**ANCIENT SPORTS ARENA**

ROME—(AP)—The famed Circus of Maxentius, where athletes of ancient Rome once competed, may again serve as a sports field.

Work is to be started soon on the restoration of the Circus grounds, situated alongside the Appian Way. Built in 309 by Maxentius in honor of his son Romulus, the Circus measured approximately 1,580 feet in length and 260 feet in breadth, with seating accommodations for 20,000.

After a survey made in two states of the passing practices of drivers, it was found that in about half the cases the passed car was traveling from 31 to 40 miles an hour.

## MASS PRODUCTION REDUCES PRICES



Hot weather troubles are gone with the wind with a Harrison attic fan, pictured above, made in Monroe by Monroe labor at Monroe Armature Works, 2019 DeSiard street.

A luxury, yes—but Harrison fans are not out of your reach. Due to mass production in 1940, prices this year are lower than ever. Valuable improvements in the design of the fans, made in three stock models, make them more satisfactory than ever, too.

Residential ventilators guarantee comfortable temperatures in your home, while commercial cooling systems keep your business quarters pleasantly cool. Of all-steel construction, Harrison fans are guaranteed for five years. And Monroe Armature Works passes on to the purchasers the manufacturers' guarantee on the electric motors that propel them.

Stock sizes of Harrison fans are 36-inch, 42-inch and 48-inch. Larger or smaller sizes are built to order—and Monroe Armature Works can fill the bill.

We're not getting technical—but here are some facts you ought to know about Harrison fans, multiply blades give the greatest possible volume of air with the least amount of noise and more efficiently. Made of steel, they are beautiful of design and individually mounted on cast hub to give precision balance. The fan frame is made of steel and welded at the joints for durability. Fans are mechanically designed for simplified installation. Two Rubber-Flex, Ball Bearing pillow blocks eliminate any and all vibration. They are equipped with one of the very best motors, 110 volts, A. C., rubber mounted, ultra-quiet, exceptionally efficient. They are V-belt driven to add to the efficiency and economy. Any part of the fan can be disassembled in a very few minutes. Harrison fans are guaranteed for five years to be free from any inherent mechanical defects. With all these outstanding features, prices on Harrison fans are startlingly low this year.

Strong and sturdy, Harrison fans are dependable equipment, intricately designed to endure steady use. There's no hullabaloo about their cooling system, either—quietly and efficiently Harrison fans conquer hot temperatures with pleasant, refreshing coolness. Quiet operation is attained by mounting both the motor and bearings in rubber. The bearings are good for 2,400 hours of constant operation without greasing.

It's so easy to be comfortable. Why be hot and fussy, when all you need is a Harrison fan? Homes are more enjoyable and businesses operate more efficiently when conditions are comfortable.

Are you building a new home? Then right now is the time to make it an ideal home by installing a Harrison fan—at a substantial savings on installation costs. This cooling system can be financed through FHA and building and loans companies. Then, once and for all, Harrison fans have solved your hot weather worries.

Harrison attic fans are being sold throughout northeast Louisiana and may be had either through electrical dealers or direct from Monroe Armature Works. Phone 98.

**GETS SON A JOB**

PUEBLO, Colo.—(AP)—This is the way the doctor's wife tells it: A man with a long white beard knocked at her door and wanted to work for his breakfast. She made it a deal. A few days later he reappeared, and she asked him into the kitchen. During the conversation she mentioned her son, in a Texas city. The following week she received a telephone call from Texas. It was the president of a gas and oil company. "The old man whom you fed recently was my brother," the caller said. "I gave your son a position out of gratitude for your kindness to him. Although my brother prefers to live as he does, he gave me my start in business. I'm able to repay him occasionally by granting such requests as this one he made of me."

During the first three months of 1940, 181,364,289 passenger miles were traveled by the airlines of the United States. This is an increase of 44.2 per cent over the same period of 1939.

## Let White System Finance That Trip

Everyone needs a vacation. In the interest of your health and efficiency, you should take one this summer.

A change of scene, new sights will revitalize you—both mentally and physically.

Don't forego a vacation trip just because you've somehow failed to lay aside sufficient funds. Let the White System, 137 North Second street, finance your vacation trip. You can obtain either a personal loan or an automobile loan at the White System, where interest rates are reasonable and repayments in small monthly installments can be arranged.

With the world's fair in progress in New York and the San Francisco exposition, this summer, of all summers, you should arrange for a vacation trip. You'll regret it the rest of your life if you fail to attend one of these big events. A world's fair is an education in itself.

Submit your financial problems to the White System. Its officials can arrange a loan that will enable you to visit New York, San Francisco or any other place you may choose. Besides providing loans for vacation trips, White System makes loans for any useful purpose. They are made without delay or embarrassment, in the strictest confidence.

## HOMESTEAD DECLARES $50,000 IN DIVIDENDS

Approximately $50,000 in dividends will be paid out July 1 by the Peoples Homestead and Savings association, A. L. Harrington, president, announced yesterday.

The announcement came following the regular meeting of the board of directors of the association, at which meeting the board declared the usual semi-annual 2 per cent dividends to be paid out to the approximate 2,200 shareholders.

"We have just completed a most successful period this year," President Harrington said.

## ALL-DAY SERVICES ARE SET AT CHURCH

The Peniel Baptist church will hold all-day services Sunday.

Sunday school will be at 10 o'clock. At 11 o'clock Rev. J. P. Hinkie will bring the message on "Christian, Stand Still and Watch Jesus." At high noon dinner will be served on the ground. Afternoon services will be devoted to singing. Evening services begin with B. T. U. at 7 o'clock. Preaching by the pastor will be at 8 o'clock.

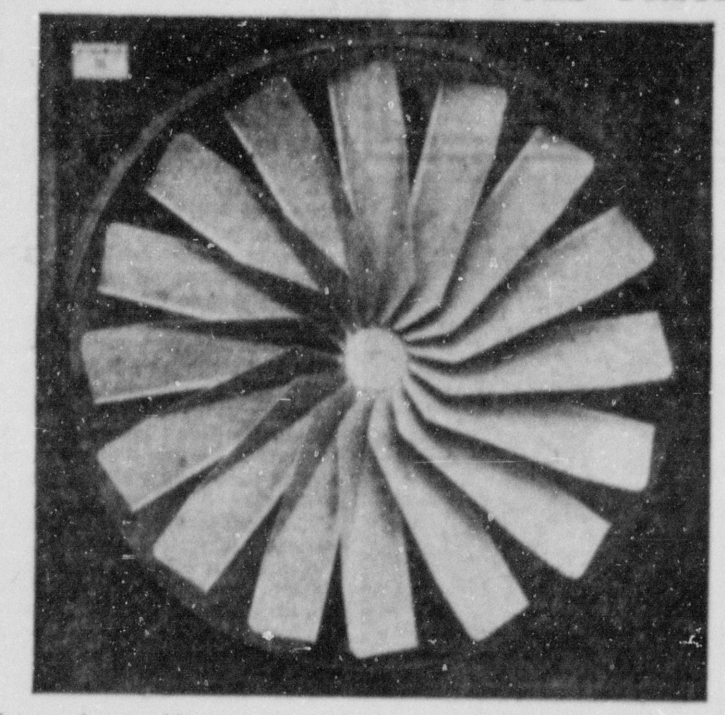
### ANCIENT SPORTS ARENA

ROME—(AP)—The famed Circus of Maxentius, where athletes of ancient Rome once competed, may again serve as a sports field.

Work is to be started soon on the restoration of the Circus grounds, situated alongside the Appian Way. Built in 309 by Maxentius in honor of his son Romulus, the Circus measured approximately 1,580 feet in length and 260 feet in breadth, with seating accommodations for 20,000.

After a survey made in two states of the passing practices of drivers, it was found that in about half the cases the passed car was traveling from 31 to 40 miles an hour.

## MASS PRODUCTION REDUCES PRICES



Hot weather troubles are gone with the wind with a Harrison attic fan, pictured above, made in Monroe by Monroe labor at Monroe Armature Works, 2019 DeSiard street.

A luxury, yes—but Harrison fans are not out of your reach. Due to mass production in 1940, prices this year are lower than ever. Valuable improvements in the design of the fans, made in three stock models, make them more satisfactory than ever, too.

Residential ventilators guarantee comfortable temperatures in your home, while commercial cooling systems keep your business quarters pleasantly cool. Of all-steel construction, Harrison fans are guaranteed for five years. And Monroe Armature Works passes on to the purchasers the manufacturers' guarantee on the electric motors that propel them.

Stock sizes of Harrison fans are 36-inch, 42-inch and 48-inch. Larger or smaller sizes are built to order—and Monroe Armature Works can fill the bill.

We're not getting technical—but here are some facts you ought to know about Harrison fans; multiply blades give the greatest possible volume of air with the least amount of noise and more efficiently Made of steel, they are beautiful of design and individually mounted on cast hub to give precision balance. The fan frame is made of steel and welded at the joints for durability. Fans are mechanically designed for simplified installation. Two Rubber-Flex, Ball Bearing pillor blocks eliminate any and all vibration. They are equipped with one of the very best motors, 119 volts, A. C., rubber mounted, ultra-quiet, exceptionally efficient. They are V-belt driven to add to the efficiency and economy. Any part of the fan can be disassembled in a very few minutes. Harrison fans are guaranteed for five years to be free from any inherent mechanical defects. With all these outstanding features, prices on Harrison fans are startlingly low this year.

Strong and sturdy, Harrison fans are dependable equipment, intricately designed to endure steady use. There's no hullabaloo about their cooling system, either—quietly and efficiently Harrison fans conquer hot temperatures with pleasant, refreshing coolness. Quiet operation is attained by mounting both the motor and bearings in rubber. The bearings are good for 2,400 hours of constant operation without greasing.

It's so easy to be comfortable. Why be hot and fussy, when all you need is a Harrison fan? Homes are more enjoyable and businesses operate more efficiently when conditions are comfortable.

Are you building a new home? Then right now is the time to make it an ideal home by installing a Harrison fan—at a substantial savings on installation costs. This cooling system can be financed through FHA and building and loans companies. Then, once and for all, Harrison fans have solved your hot weather worries.

Harrison attic fans are being sold throughout northeast Louisiana and may be had either through electrical dealers or direct from Monroe Armature Works. Phone 98.

### GETS SON A JOB

PUEBLO, Colo.—(AP)—This is the way the doctor's wife tells it: A man with a long white beard knocked at her door and wanted to work for his breakfast. She made it a deal. A few days later he reappeared, and she asked him into the kitchen. During the conversation she mentioned her son, in a Texas city. The following week she received a telephone call from Texas. It was the president of a gas and oil company. "The old man whom you fed recently was my brother," the caller said. "I gave your son a position out of gratitude for your kindness to him. Although my brother prefers to live as he does, he gave me my start in business. I'm able to repay him occasionally by granting such requests as this one he made of me."

During the first three months of 1940, 181,564,289 passenger miles were traveled by the airlines of the United States. This is an increase of 64.2 per cent over the same period of 1939.

# DISTRICT MASONS WILL HOLD RITES

## Master Degree Will Be Conferred Sunday At Ferriday Session

FERRIDAY, June 29.—(Special)—Elaborate plans are being made by the Masonic lodges of Ferriday and Vidalia to entertain the lodges of the fourth Masonic district in a meeting at 2 p.m. Sunday in the school auditorium at Ferriday.

"Dante's Children," a degree team composed of 18 members of Dante lodge No. 174 of New Orleans, will arrive in Ferriday at noon, and will confer a Master Mason degree in the Scottish rite at the district meeting. As large numbers of Masons in northeast Louisiana have not had an opportunity to witness the Scottish rite, it is expected that this meeting will attract widespread attention in Masonic circles, and preparations are being made to care for an unusually large attendance. Refreshments will be served after the program.

Among distinguished guests, officers of the grand lodge, will be J. Chris Nungesser, New Orleans, grand master; Dee A. Strickland, Monroe, deputy grand master; Ben Y. Wolf, New Orleans, grand junior warden; D. Peter Laguens, Jr., New Orleans, grand secretary; Theodore F. Mathes, New Orleans, grand senior deacon; P. H. Farmer, Ferriday, grand junior deacon, and others.

The fourth Masonic district includes 19 lodges located at Monroe, (two), Newellton, Harrisonburg, Calhoun, Columbia, Sicily Island, Cadeville, Winnsboro, Vidalia, St. Joseph, Liddieville, Jonesville, Crowville, Clarks, Ferriday, Gilbert, West Monroe and Sterlington. During recent years under District Deputy Grand Masters Dee Strickland, Monroe; John James, Columbia, and Joseph Whitaker, St. Joseph, numerous outstanding district meetings have been held. It is expected that Sunday's meeting will be one of the most successful ever held.

Robert W. Cretney, Sterlington, is present district deputy grand master of the fourth district.

## CAMPFIRE SCENE—A LA FLASHBULB

Building a fire for a cozy campfire photo was too much trouble for the Twin City Camera club when the members decided to record their last Sunday's outing for posterity, so the members gathered around a flashbulb. # New Angle On Old Feud Develops In Hollywood

## Buys Best-Seller For $50,000, Isn't Going To Use It Now

By Robbin Coons

HOLLYWOOD, June 29.—(AP)—Here's a new angle on the old feud between movie writers and movie producers.

Here's a producer who bought a best-seller—and paid some $50,000 for it—but isn't going to do anything about it. He isn't going to "adapt" it; he isn't going to write a "new story" for its title; he isn't going to use its author's name; in short, he isn't even going to film the story. Not for a long time, anyway.

It's all the latest quirk in the strange history of "Personal History," the film that was but isn't.

The producer is Walter Wanger. Four years ago Wanger bought the screen rights to Vincent Sheean's record of his adventures as a reporter abroad in the post-war period which was really a pre-war period. Four years ago Wanger started working up a screen play from the Sheean material. He didn't know, at the beginning, that he was starting on a race against time—and a history that wasn't personal.

The upshot was that by early 1940 various high-priced writers had completed seven different treatments designed to capture the substance of Sheean's record for the cameras.

About as quickly as one treatment was completed it had to be discarded because faster-moving events had "dated" the written scenes.

After script 7 Wagner engaged roly-poly Alfred Hitchcock to direct "Personal History." But A. Hitler was moving faster than A. Hitchcock. A. Hitchcock put aside what had been done and started over. The picture, now completed to the tune of $1,500,000 (exclusive, Wanger says, of the $200,000-odd spent on previous scripts), bears no resemblance whatever to "Personal History," unless you count that heroes in both instances were foreign correspondents. Early in production they even changed the title to "Foreign Correspondent."

But here's the new angle:

Wanger is telling Sheean, in advance, that any similarity between his book and Wanger's movie is purely coincidental. He is telling Sheean that some day they'll really make a movie of "Personal History"—when "the world gets back some semblance of its old self or at least (when) the new order of things can be more clearly understood."

Wanger admits that he scarcely believes Sheean will consider the matter important at the moment, for Sheean is still a foreign correspondent—in London.

"But we think it's important, and only fair," says the producer, "not to trade on Sheean's name for our picture. Such trading has been a bad practice in Hollywood, and it has hurt the industry."

More than one famed writer has agreed with that thesis. Not always did Hollywood find a Margaret Mitchell pleased with what Hollywood did to a "Gone With the Wind," or a Rachel Field "thrilled" over a film version of "All This, and Heaven Too." John Steinbeck, especially, did the unexpected when he approved the filmed "Grapes of Wrath."

On the contrary, it used to be routine for authors of books to rant and snort and even sue when they saw Hollywood versions of their works. As when Theodore Dreiser sued Paramount over "An American Tragedy," and Ernest Hemingway objected to film treatment of "A Farewell to Arms."

### ASKS 'SOLIDARITY'

RIO DE JANEIRO, June 29.—(AP)—President Getulio Vargas, apparently answering foreign criticism of his June 11 address championing the ways of "vigorous people," today called for American solidarity based on the mutual respect and freedom of each country to organize itself politically according to "its own tendencies, interests and necessities."

### BROTHER DIES

Prof. Jack Hayes was called home Saturday morning by the death of his brother, Dr. J. T. Hayes, Oliver Springs, Tenn., who died late Friday night. Funeral services will be held Sunday at 2 p.m. in Oliver Springs.

# BRITAIN'S POWER ON SEA PERILED

## Nazis' Capture Of Four French Men-Of-War Gives Dire Threat

By Drew Middleton

LONDON, June 29.—(AP)—The possibility that Germany has seized four French men o' war, giving her a 6 to 3 advantage over Britain in fast, well-armored craft with the hitting power of dreadnaughts, carries a threat to British sea supremacy, neutral sources declared today.

Addition of these ships—the 35,000-ton Richelieu and Jean Bart and the 26,050-ton Dunkerque and Strasbourg—to Germany's battleships Scharnhorst and Gneisenau would raise the Nazi battle fleet to the point where it could, with sufficient air and undersea auxiliaries, challenge the British battle line, these sources said.

This threat to Britain's grand fleet is far greater than that of submarine or Nazi aircraft, in the opinion of these naval men.

(On June 23, the German high command announced the capture "with enormous booty" of the French shipbuilding port of St. Nazaire—where the Jean Bart, launched March 6, was being completed. Previously, the Berlin newspaper Der Angriff said the Richelieu had been seized when the Nazis took the port of Brest.)

With the four French ships, the Germans would have an edge in speed and weight of metal over Britain's three battle cruisers, the Hood, Repulse and Renown—the only British ships with enough speed to catch and enough guns to destroy the Germans' two battleships.

Jane's Fighting Ships credits the Scharnhorst and Gneisenau with tonnage of 26,000, nine 11-inch guns and speed of 27 knots. Neutral naval experts say this speed has been exceeded in trials.

The Richelieu and Jean Bart, mounting eight 15-inch guns each, can better 30 knots. The Dunkerque and Strasbourg have eight 13-inch guns and "book" speed of 29.5 knots. In service, they are said to have done better.

Of the three British battle cruisers, only the Hood can better 30 knots. It has done 32.07, while the others hover around 29. The Hood mounts eight 15-inch guns, the Repulse and Renown six inch. The Hood is the heaviest, 42,100 tons. The other two are 32,000 tons.

Reports have been made that three of the country's major rubber companies are prepared to make greater use of synthetic products in the event that wartime emergency conditions make such a move necessary.

Sergeant H. B. McNemar, army recruiting agent in Monroe, announced Saturday that Major Frank P. Robinson, C. A. S. C., and First Lieutenant Forrest M. Terral, medical corps, both of Shreveport, will be detailed for an additional month's active duty training at the Monroe recruiting office.

Many young men of Monroe and surrounding towns are taking advantage of the opportunity to enlist in the air corps, Barksdale field, now that recruiting for that branch of the service has been made available. Heretofore, many applicants for the air corps have had to be placed on a long waiting list before opening for the corps were available, but it is hoped that applicants will take this opportunity to join the air corps during the limited time openings for that branch of the service are availabe, Sergeant McNemar said.

Those who have enlisted during the past week folows:

Kent Brown, Lake Providence; Daniel L. Clouatre, West Monroe; T. W. Cox, Downsville; Erie Donohue, Pioneer; Lawrence E. Elliott, Olla; Willard B. Ford, Rayville; Lenard C. Guice, Monroe; Barnard B. Gardner, Bernice; Madison B. Gardner, Lillie; B. H. Hammons, Crowville; Charles B. Holdcraft, Jr., Sterlington; Jerry Y. Jones, Monroe; Doyle O. Leeton, El Dorado, Ark.; Charles R. Kelly, Collinston; Ellis N. Lane, Ferriday; Armster A. Quimby, Zebedee; Walter R. Parker, St. Joseph; Norris E. Pilcher; Tom Parker, Gilbert; Harlan H. Parker, Ansley; J. W. Riley, Crowville; Joe E. Richards, Colinston; James E. Sutterfield, Oak Grove; Charlie R. Stuart, Farmerville; Arthur N. Snell, Haile; Charles J. Shea, Monroe; Evan R. Taylor, Rayville; Charles J. Spillers, Downsville; Joe Zager, West Monroe.

Sergeant McNemar recently received quotas for the folowing stations: 30th infantry, San Francisco, Calif.; 13th coast artillery, Fort Barrancas, Fla.; quartermaster corps, Barksdale field, and further openings for a typist and radio electrician for the Fifth signal service company, Barksdale field. A high school education is required for either of the last two positions.

Applicants for enlistment in the regular army must be at least 18, single, with no dependents, of good moral character, and able to pass the required physical and mental examinations. All examinations must be taken in the local recruiting office.

Sergeant McNemar will make a brief address Sunday afternoon between 4 and 5 p.m. over station KMLB, dealing with the air corps openings at Barksdale field. It is hoped that the parents of prospective applicants for this branch of service will listen to this address.

This has been a banner month for the Monroe recruiting office, with a total of 115 enlistments for the corps of engineers and infantry, Fort Benning, Georgia, infantry and quartermaster corps, San Francisco, and Camp Ord, Calif., medical department; quartermaster corps and air corps, Barksdale fied.

## WELL IS BROUGHT IN AS GAS PRODUCER

CLARKS, La., June 29.—(Special)—H. L. Hunt's No. 17 Louisiana Central Lumber company, located in NW SE, 19-11-3, was perforated Thursday at 2,475 to 2,485 feet, and was brought in Thursday night as a large gas well. Tubing pressure was 1,040 pounds, and casing pressure 1,060 pounds. Output of gas had not been gauged late Friday. This well is four miles north of the Olla producing area.

H. L. Hunt made location Friday for a wildcat test in Catahoula parish on holdings of Louisiana Central Lumber company. It is located in the SW quarter of the SW quarter, section 26-10N-6E. The well will be drilled below 3,000 feet.

One of the largest rubber companies in the United States recently reported that it was already in production of automobile tires made of synthetic rubber.

# New Angle On Old Feud Develops In Hollywood

## Buys Best-Seller For $50,000, Isn't Going To Use It Now

By Robbin Coons

HOLLYWOOD, June 29.—(AP)—Here's a new angle on the old feud between movie writers and movie producers.

Here's a producer who bought a best-seller—and paid some $50,000 for it—but isn't going to do anything about it. He isn't going to "adapt" it; he isn't going to write a "new story" for its title; he isn't going to use its author's name; in short, he isn't even going to film the story. Not for a long time, anyway.

It's all the latest quirk in the strange history of "Personal History," the film that was but isn't.

The producer is Walter Wanger. Four years ago Wanger bought the screen rights to Vincent Sheean's record of his adventures as a reporter abroad in the post-war period which was really a pre-war period. Four years ago Wanger started working up a screen play from the Sheean material. He didn't know, at the beginning, that he was starting on a race against time—and a history that wasn't personal.

The upshot was that by early 1940 various high-priced writers had completed seven different treatments designed to capture the substance of Sheean's record for the cameras.

About as quickly as one treatment was completed it had to be discarded because faster-moving events had "dated" the written scenes.

After script 7 Wagner engaged roly-poly Alfred Hitchcock to direct "Personal History." But A. Hitler was moving faster than A. Hitchcock. A. Hitchcock put aside what had been done and started over. The picture, now completed to the tune of $1,500,000 (exclusive, Wanger says, of the $200,000-odd spent on previous scripts), bears no resemblance whatever to "Personal History," unless you count that heroes in both instances were foreign correspondents. Early in production they even changed the title to "Foreign Correspondent."

But here's the new angle:

Wanger is telling Sheean, in advance, that any similarity between his book and Wanger's movie is purely coincidental. He is telling Sheean that some day they'll really make a movie of "Personal History"—when "the world gets back some semblance of its old self or at least (when) the new order of things can be more clearly understood."

Wanger admits that he scarcely believes Sheean will consider the matter important at the moment, for Sheean is still a foreign correspondent—in London.

"But we think it's important, and only fair," says the producer, "not to trade on Sheean's name for our picture. Such trading has been a bad practice in Hollywood, and it has hurt the industry."

More than one famed writer has agreed with that thesis. Not always did Hollywood find a Margaret Mitchell pleased with what Hollywood did to a "Gone With the Wind," or a Rachel Field "thrilled" over a film version of "All This, and Heaven Too." John Steinbeck, especially, did the unexpected when he approved the filmed "Grapes of Wrath."

On the contrary, it used to be routine for authors of books to rant and snort and even sue when they saw Hollywood versions of their works. As when Theodore Dreiser sued Paramount over "An American Tragedy." and Ernest Hemingway objected to film treatment of "A Farewell to Arms."

### ASKS 'SOLIDARITY'

RIO DE JANEIRO, June 29.—(AP)—President Getulio Vargas, apparently answering foreign criticism of his June 11 address championing the ways of "vigorous people," today called for Amercian solidarity based on the mutual respect and freedom of each country to organize itself politically according to "its own tendencies, interests and necessities."

### BROTHER DIES

Prof. Jack Hayes was called home Saturday morning by the death of his brother, Dr. J. T. Hayes, Oliver Springs, Tenn., who died late Friday night. Funeral services will be held Sunday at 2 p.m. in Oliver Springs.

# BRITAIN'S POWER ON SEA PERILED

## Nazis' Capture Of Four French Men-Of-War Gives Dire Threat

By Drew Middleton

LONDON, June 29.—(AP)—The possibility that Germany has seized four French men o' war, giving her a 6 to 3 advantage over Britain in fast, well-armored craft with the hitting power of dreadnaughts, carries a threat to British sea supremacy, neutral sources declared today.

Addition of these ships—the 35,000-ton Richelieu and Jean Bart and the 26,050-ton Dunkerque and Strasbourg—to Germany's battleships Scharnhorst and Gneisenau would raise the Nazi battle fleet to the point where it could, with sufficient air and undersea auxiliaries, challenge the British battle line, these sources said.

This threat to Britain's grand fleet is far greater than that of submarine or Nazi aircraft, in the opinion of these naval men.

(On June 23, the German high command announced the capture "with enormous booty" of the French shipbuilding port of St. Nazaire—where the Jean Bart, launched March 6, was being completed. Previously, the Berlin newspaper Der Angriff said the Richelieu had been seized when the Nazis took the port of Brest.)

With the four French ships, the Germans would have an edge in speed and weight of metal over Britain's three battle cruisers, the Hood, Repulse and Renown—the only British ships with enough speed to catch and enough guns to destroy the Germans' two battleships.

Jane's Fighting Ships credits the Scharnhorst and Gneisenau with tonnage of 26,000, nine 11-inch guns and speed of 27 knots. Neutral naval experts say this speed has been exceeded in trials.

The Richelieu and Jean Bart, mounting eight 15-inch guns each, can better 30 knots. The Dunkerque and Strasbourg have eight 13-inch guns and "book" speed of 29.5 knots. In service, they are said to have done better.

Of the three Britisn battle cruisers, only the Hood can better 30 knots. It has done 32.07, while the others hover around 29. The Hood mounts eight 15-inch guns, the Repulse and Renown six inch. The Hood is the heaviest, 42,100 tons. The other two are 32,000 tons.

Reports have been made that three of the country's major rubber companies are prepared to make greater use of synthetic products in the event that wartime emergency conditions make such a move necessary.
